BAKER CITY — Joan Gratz graduated with a degree in architecture and started her career.

It lasted two weeks.

Her passion was film — specifically claypainting, which involves working in front of a camera and applying bits of clay to create “a seamless flow of images.”

She made her first film when she was in school, and she hasn't really ever stopped.

“About 1967,” she said of her beginning in film. “A really long time.”

Gratz, who won an Academy Award in 1993 for her short film “Mona Lisa Descending a Staircase,” had two films accepted into the 13th annual We Like 'Em Short Film Festival, which happens Aug. 11-14 in Baker City.

“No Leaders Please” is an animated film based on a poem by Charles Bukowski.

The second, “Retention Department of Perpetual Exhaustion,” was inspired by Gratz's internet service provider, who has such a department.
