[COMPILED FROM THE OREGONIAN.]

DATES TO OCTOBER 31.

Atlantic News.

New Orleans, Oct. 30.—Gen. Canby has issued an order prohibiting negro troops mustered out of the service from purchasing their arms.

We informed gentlemen from Mississippi, say a good deal of cotton is still there, and a great quantity of bacon is shipped to Memphis, for lack of railroad facilities to New Orleans or Mobile. Much cotton is in the fields in central Texas, of the new crop, but the freedmen will not pick it on the finest plantations. Lower Texas is no better. The same complaint come from Mississippi, that the freedmen will not work.

New York, Oct. 31.—The Herald's dispatch says: The action of South Carolina in electing Wade Hampton as Governor of the State, and advocating the payment of the rebel war debt, and of Mississippi in refusing to take up and pass the constitutional amendment abolishing slavery, is believed to have affected the future policy of the President concerning the States, and to have endangered the admission of their delegates in the next Congress. Had Mississippi cheerfully passed the amendment, a general amnesty would have at once been declared in favor of all the rebels; but as it is, but few amnesties will, in all probability, hereafter be granted to citizens of that State. The action of their convention has not justified the President's confidence, and the rearing of military government and martial law will be the consequence.

New York, Oct. 31.—The Herald's Washington special says: All members of the 5th corps, having papers of service of that corps, are requested to forward them to General Chamberlain at Brunswick, Maine.

New York, Oct. 31.—The Express prints the following: The Havana steamer arrived at this port this afternoon and brings confirmatory news of the uprising of the negroes in Jamaica against the whites. Her Majesty's Consul at this port, it is said, is in the receipt of dispatches of the utmost importance. Many revolting murders had been perpetrated by the negroes. A white magistrate had been shockingly mutilated. His fingers and toes were cut off and burned. He was then murdered, after which a negro woman ripped open his bowels. The mutiny was spreading rapidly at last accounts, and the greatest alarm prevailed among the whites.

New York, Oct. 31.—It is probable that an important change in the Premiership, caused by the death of Lord Palmerston, will be a subject of discussion before the Senate, so far as it relates to the Fenian organization. A Mesilla (Mexico) letter of the 1st, to the Herald, states that Juarez was then at El Paso, and the French were on their way to that place, and were expected in a few days.

New Orleans, Oct. 32.—Gen. Steele arrived from the Rio Grande to-day. Dispatches from Weizel to Steele of the 15th say a fight occurred around Matamoras, which lasted three hours. The Liberals succeeded in carrying a part of the works, but the Imperialists charged and retook the works, punishing the Liberals severely. The Imperial loss is several wounded, and less than a dozen killed. The Liberal loss is fifty-nine taken prisoners and a large number killed and wounded. Gen. Espinoza, second in command of the Liberal forces, was killed. Reports from Brownsville state that at last accounts the Liberals were flying, closely pursued by the Imperialists.

New York, October 31.—The steamer City of Boston, from Liverpool, the 18th, via Queenstown, the 19th, this afternoon. The steamer United Kingdom, twenty-four hours out from New York, for Glasgow, arrived at Rithmilion with her machinery disabled.

Lord Palmerston is dead. He had been seriously ill for some days from the effects of a cold. His symptoms had been very alarming, but he steadily improved. On the night of the 17th, however, a bulletin was issued to the effect that he had become worse since morning, and that it could not be disguised that he was seriously ill. Telegrams were being constantly sent to the Queen, at Balmoral. Lord Palmerston would have completed his 81st year on the 20th of October.

The Paris papers say the deaths from cholera in that city are averaging two hundred a day.

California News.

San Francisco, Nov. 2.—The celebrated dog "Bummer," who has figured in nearly every sketch or caricature of San Francisco life for several years past, died last night.

The St. Louis Democrat says that Mr. Henderson, Congressman from this State, made a speech in Missouri, which indicated that "he was a man." If there had ever been any doubt in regard to that gentleman's sex in this country, it would certainly have been set at rest before his election to Congress. On this account, we must look upon the St. Louis paper's testimony on that point as superfluous, not to say very silly.

SUPPOSED ROAD AGENT KILLED.—A terrible case of homicide occurred at Walla Walla on the 31st of October. The circumstances in detail are the: About a week ago the driver of the stage that was robbed near the Straw Ranch came into Walla Walla, driving one of the stages of Thomas & Co., and among those who gathered to see the passengers alight, was a man that the driver thought he recognized as the robber who first halted the stage at the time of the robbery. The man was at once placed under surveillance, and efforts were made to collect some proof of his connection with the transaction. There were also two other men who were associates of the suspected man, and who were also suspected of being connected with the robbery. Time wore on, and the man first suspected was evidently apprehensive of being arrested, but was too closely watched to attempt to escape. On the evening of the killing, about dusk, he was in the Express office, and after writing a letter and dropping it in the express mail, went out. Fifteen minutes afterwards the town was startled by the report of near a dozen shots fired in the south edge of town, near the brewery. About twenty minutes after the shots were fired, the man first suspected was found near the road, shot by two loads of heavy shot, and five or six pistol bullets. Two men were seen to ride hurriedly away from the neighborhood where the shots were fired, in a few seconds after the last report of fire-arms, and the presumption is that they were the murderers. The theory of the case is, that these two, or maybe three, other men, besides the man who was killed, were associates in the stage robbery, and that upon some disagreement—or a suspicion that the murdered man might divulge their villainy—murdered him. The plan adopted appears to have been, that one of them should take him out for a walk, and the others should shoot him down as he passed. Even had the murdered man suspected danger, he could not have imagined that his life would be attempted in the plain view of several houses. The names of none of the parties are made public.
