

Daily Mountaineer.

FRIDAY MORNING, JAN. 5, 1866.

Rowdiness is much in vogue in Salt Lake City. The *Deseret News* says that the "roughs" are all Gentiles.

The Sisters' Christmas Fair at Walla Walla for the benefit of St. Vincent's Academy produced the sum of \$1,360.

The steamer *Idaho* is lying below Craite's Point, without being able to get either up or down the river.

The local authorities in many of the English cities and villages, distribute lime, to be used as a cholera preventive, gratuitously to indigent householders.

There is an order of Fenian Sisterhood, with Mrs. Ellen O'Mahoney as principal. Between the brethren and sisters, John and Ellen appear to be making a good thing out of the misfortunes of their country—more shame to them for it.

The present population of the city of Washington is computed at one hundred thousand, which includes over thirty-four thousand negroes who have been thrown there by reason of the war, which with the additional colored population there prior to the rebellion, makes that race nearly one-half of the whole present resident population.

The Boston *Advertiser* says that at the competitive declamation of Harvard College, last Saturday, open to all applicants from the new Freshman Class, the first premium was awarded to a student who had lost his arm, serving as captain in the Confederate army; the second to a young man of negro descent, the first undergraduate of that race who has ever been admitted to the university.

The steamer for the Pen d'Oreille Lake. Letters have been received in this place from Pen d'Oreille Lake, stating that a portion of the material designed for the steamer which is to navigate the lake had arrived at its destination. The carpenters were also there, and fixing to go to work. The teams used in hauling the machinery were at Rock Creek on the 16th of December, that is to say about eighty miles from the lake. The weather had been severe, but it was still practicable to travel.

A New Lode.—A new ledge, says the *Idaho World* of the 16th of December, has very recently been discovered about three and a half miles above Pioneer City, in Boise county, which is said to be about two-thirds silver. It crosses the Big Muddy from south-west to north-east and is about twelve feet wide. We have not learned the name as yet, but the discoverers are elated with their future prospects in life to a degree which can hardly be surpassed by owners in "Pohman" at Owyhee.

A New Ditch.—Among the enterprises in Boise Basin which promise to afford employment to miners the coming season, is a new ditch which has been dug from the upper waters of Grimes' Creek; to cover some very rich dry diggings situated on the ridge between the waters of Grimes' Creek and the Payette River. Until the present time much money has been made in this section by wheeling the dirt down to water-holes, and the prospects ranged so high, that claims 200x200 feet have sold as high as \$4,000. A considerable increase of currency from these diggings will be taken out next season.

Frozen.—We have news from Capt. Borland's Company of Oregon Infantry, which we hope is exaggerated. It seems that the company marched from Camp Lyon, in the Owyhee country, some weeks since, to come down the Columbia River to be mustered out of service. In coming down Snake River, the command was out in the late severe weather, and some twenty of the men had their hands, feet and ears badly frozen. It is feared that more than a dozen of the men will have to submit to amputations more or less serious. The men were halted on Powder River until arrangements could be completed for the treatment of the injured men. This is one of the results of the policy of ordering in the Volunteers in the worst season of the year, and by it a dozen men are turned out on the world crippled.

Epitome of Telegraphic News.

[COMPILED FROM THE OREGONIAN.]

DATES TO DECEMBER 26.

New York, Dec. 22.—The Paris correspondent of the *London Post* says, it is generally believed in official circles that Spain will present her claims against Chili. England and France will remain neutral, while the United States will espouse the cause of Chili. It is thought the expected visit of the Empress Charlotte, to France, is preliminary to Maximilian's return to Paris. The papers are strictly forbidden to speak on Mexican affairs. The total deaths from cholera in Paris, from its outbreak to Nov. 30th, 60,077. On the 30th November there were six new cases, and four deaths. Letters from Panama say, indications are positive that Peru will declare in favor of Chile. She can send at once two steam screw frigates of forty guns, very fast; and two screw sixteen gun corvettes, besides a new small steamer that can be made serviceable in various ways. Advice from Panama report the discovery of rich gold mines in the vicinity of Juwacoa and Barbaocoas, in the State of Ecuco, New Grenada. Four men in eight days, took out 30 pounds.

Gen. Valkenberg, of New York, has been nominated Minister to Japan. Speaker Colfax having been named as a candidate for U. S. Senator, to succeed Senator Lane, by an Indiana paper, the gentleman writes a letter to the editor, saying he is not a candidate for that place; if he is to remain in public life, he prefers to continue in the House.

The safe of the Sanitary Commission at Philadelphia, was robbed last night, of six thousand dollars, belonging to the chief clerk.

Washington, Dec. 22.—A paymaster was robbed in one of our city banks to-day, of fifteen thousand dollars.

The January interest of the public debt, amounting to fifteen millions of dollars, is now ready. There is reason to believe that several Mexican privateers will shortly sail from ports on the Atlantic and Pacific, to prey upon French commerce. Most of the Southern members of Congress have gone home, the charges of hotels being more than they could stand. Nearly all Northern members have gone home also. It is said that a number of rebel officials will soon be arrested.

New York, Dec. 23.—The *World's* dispatch says: Congress will be called upon for further appropriations for the support of indigent Indians during winter, and intimates that eleven millions of dollars will be necessary. Western tribes are represented as being in a destitute condition. A letter to the Secretary of the Interior, from Gen. Sibley, says: Large numbers of Indians assembled at Fort Rice and across the river, who manifested most friendly feeling for the whites, and are quite willing to enter into most liberal treaties.

New York, Dec. 23.—The *World's* special says: The Department of State concluded its instructions to our Minister to Mexico, who will be dispatched at once for the seat of government and remain with the President of the Republic and will follow him wherever he may go, thus making active demonstrations to Maximilian of the policy which our Government intends to persist in. This gives offence to the French Minister. The *Republican* issued an extra last evening on Mexican affairs. Its information purports to come from London, and declares that the understanding between Napoleon and Maximilian allows the former to withdraw the French troops from Mexico whenever Maximilian's payment should become two months in arrears. Senor Garcia, Peruvian Minister to this Government, has been recalled. His recent manifesto against the President of Peru produced this recall. Senor Garcia's successor is not announced. The Consul at New York has also been removed. The State Department is in receipt of dispatches from our Minister to Chile, stating that the war between Spain and Chile is still progressing. All the principal ports are blockaded. The commander of the squadron is only waiting instructions from the Spanish Government to commence more active operations. The Admiral who is commanding the squadron off Valparaiso, had grossly insulted our Minister, T. H. Nelson. The American and English merchants and residents are very indignant at his conduct and have laid the matter before their respective Governments.

The Secretary of State, by the direction of the President, has addressed a letter to Provisional Governor Holden, of North Carolina, removing him from his trust, and expressing the President's acknowledgment of his loyalty and discretion, which has marked his administration of affairs in that State. A copy of the letter has been sent to the Governor elect of North Carolina, which tenders the co-operation of the United States Government, whenever it may be found necessary in effecting the early restoration of the Government property, on which, or over which he has been called to have authority.

Columbia, S. C., Dec. 22.—To Secretary Seward.—The Legislature adjourned yesterday. Gov. Perry has returned to his home in New York. Your dispatch has been forwarded him by mail. It will be very gratifying to the people of South Carolina that their government has been entrusted to officers of their own selection, and in their name I thank you for the co-operation of the Government of the United States when found necessary in effect-

ing the final restoration and permanent prosperity of our State. You must be assured of my unflinching purpose to aid in advancing the prosperity of the common country.

(Signed) JAMES L. OUN, Governor of South Carolina. Washington, Dec. 26.—Arrangements are being made for a meeting of colored delegates of the different States, to urge upon Congress the propriety of granting the right of suffrage to the colored men of the United States. A preliminary meeting is to be held on the 8th of January, at which Fred. Douglass, and other prominent anti-slavery orators are expected to be present.

The Commissioner of Internal Revenue has decided that fifteen cents is the highest stamp duty required upon warehouse receipts whatever may be the value of the property imported. The Treasury Department during the week ending to-day, redeemed certificates to the amount of one million, two hundred and fifty thousand dollars, and interest bearing notes to the amount of four millions.

On the reassembling of Congress, a joint-resolution will be offered and passed, proposing an amendment of the Constitution to the effect that qualified voters instead of gross population be the basis of representation. The pardon business has grown dull and issuing such documents has a most ceased.

New Orleans, Dec. 22.—The Louisiana Legislature adjourned to-day until the 4th of January. The House failed to pass the usual appropriation bills. The Governor vetoed a bill suspending the collection of taxes for 1862-3 and 64 on the ground that it would be a relief to those who had attempted to destroy the Government and those who were absent during the war, while Union men remained and paid their taxes.

The *Vicksburg Journal* has advices which it deems reliable, of an alarming character from the Yazoo. The people of the country are flying to the towns for protection, and the negroes are represented as arming themselves, and claim that between now and Christmas land must be given them or they will take it by force. The colored troops stationed in the country are espousing the cause of the negroes and much trouble is apprehended.

Washington, Dec. 26.—The seven thousand persons in Washington who voted against negro suffrage in that city are going to petition the President to remove Brown, Postmaster, because he is in favor of negro suffrage.

It is the general opinion that the vacancy caused in the U. S. Supreme Court by the death of Judge Catron will be filled by a Judge belonging to one of the Southern States, but the appointment will not be made for some time.

A number of influential military officers who have been in service fighting Indians on the plains, are besieging the President with suggestions and plans for employment of military force against the Latter Day Saints, in default of an opportunity for employment against Maximilian and Louis Napoleon.

Columbia Lodge, No. 5, I. O. O. F.—Meets every Friday evening at 6 1/2 o'clock, in Gates' Hall, corner of Second and Court Streets. Brothers in good standing are invited to attend. By order. N. G.
