## Daily Mountaineer.

A DAILY MAIL TO BOISE CITY .- The following is House Joint Resolution, No. 9, passed at the late Special Session of the Legislature:

WHEREAS, The people residing in the county of Grant, and a large por-tion of Wasco, in the State of Oregon, as well as a large district of country in the Territory of Idaho, on the line of the wagon road between Dalles City, Oregon, via Canyon City to Boise City, Idaho, a distance of over three hundred miles, through a district of country thickly inhabited and entirely destitute of mail facillities; and especially the people of Grant county are deprived of any kind of postal advantages, it being distant from the county seat of said county to the nearest post office, one hundred and eighty miles, there not being a mail route established in said county of Grant'; therefore be it

Resolved by the Legislative Assembly of the State of Oregon, That our senators and representatives in Congress, are hereby requested to use their influence and best efforts to have daily mail service established between the points named, with intermediate post offices established at such points, Canyon City and others, as the wants of the people may demand.

Adopted December 9, 1865.

MACHINE FOR REGISTERING MUSICAL Notes .- One Herr Andres, of May ence, has invented a machine which will write down music as fast as it is played; the inward organization of which is still a secret. It is said, however, to be very simple, and cheap, and may be readily adapted as an attachment to any instrument, such as a piano, organ, etc. The visible process outside consists in inserting at one end of the machine an endless strip of paper, which comes out at the other end ruled with red lines, while the music is printed in black. It prints the notes, marks the pauses, and forte on the piano, and notes when the employment of the pedal commences and stops, etc. The invention may be entirely concealed under or behind the instrument. If it will accomplish all this, it must be really a wonderful invention.
