

Daily Mountaineer.

TUESDAY MORNING, MARCH 27, 1866.

NOTICE.—During my absence Mr. HENRY CATLEY will have charge of this paper, and he is authorized to transact all business pertaining to this office.
March 25, 1866. JAMES HALLORAN.

The *Sierra Nevada* arrived at Portland last Saturday afternoon; she has not a large passenger list.

A VALUABLE gold bearing quartz ledge is reported as having been discovered near Auburn, on Powder River.

In Oregon City they are agitating the necessity of purchasing a fire engine and laying water pipes through the streets.

REFUSED BAIL.—Gallagher, the man arrested in Portland, for the killing of Badue, has been refused the privilege of giving bail.

Up to Saturday, the O. S. N. Co. had brought up to the Dalles on their stock boat, this season, 910 horses, 253 beef cattle, 1,600 sheep, and 100 hogs.

THE Post Office Department has ordered printed stamped envelopes of all denominations which are divisible by 3, the present rate, from six cents to forty-two cents.

THE Walla Walla Statesman has private advices, which induce the belief that the proposed annexation of the Walla Walla district to Oregon will certainly take place.

HERRING, the man who shot Kellog at the Snake River ferry about a squaw which both of them claimed, escaped before the officers who went up from Walla Walla reached there.

DULY APPRECIATED.—According to a letter from Washington in the San Francisco *Bulletin*, the letters of Bowles, Bross and Richardson, who visited our coast with Speaker Colfax, and the lecture of that distinguished gentleman himself, repeated and reported in many of the principal cities, have latterly done much to enlighten the Eastern public concerning the extent, resources, achievements and true condition of the Pacific States; and the persons thus named have thus handsomely repaid the generous welcome accorded them in the extreme West.

PLANT TREES.—There is an item going the rounds of the papers with this suggestive title. It should need no elaboration or argument to enforce it. There is not a village or hamlet in the country which would not be made "a thing of beauty" and "a joy forever," if its streets of "sudden sprang to aisles of verdurous green." But the people of the Dalles ought not to be behind other places in this matter; at Salem, Vancouver, Jacksonville and Walla Walla, the inhabitants have commenced a system of street ornamentation which will render those places ten fold more attractive to the stranger looking for a home. The Dalles is not going to die. It will always be an important point. Why should we not beautify it as much as we can, destroying entirely, as can be done, the dreary look which strangers attribute to it, and making it a place in which even the traveler would feel tempted to stay a while?

Epitome of Telegraphic News.

[COMPILED FROM THE OREGONIAN.]

DATES TO MARCH 24.

Washington, March 22.—The President transmitted to the House to-day over 11,000 pages of manuscript—correspondence on the resources and condition of Mexico. It dates back from this month two or three years.—Most of it has been published.

During the day's proceedings in the House Raymond of New York, asked Bingham of Ohio, what had become of the resolution for the admission of Tennessee, and if it would be brought up again for reconsideration.—Bingham of Ohio, replied that the gentleman was mistaken as to the nature of the proposition. He had hoped that it might be brought up next week, but it would not be right to vote on it so soon. Raymond remarked that he had supposed the object of the measure was to provide for the admission of members from Tennessee on this floor. There were some errors in the publication of the vote on the passage of the bill. Hutchinson appears as voting aye. He was not present and did not vote. Washburn, of Ill., and Conklin of New York, do not appear as voting at all. They both voted aye.

Washington, March 23.—In the House, Kasson, of Iowa, presented a memorial from the Iowa Legislature, for Government aid for the construction of the Iowa branch of the Union Pacific Railroad.

The House proceeded to consider the joint resolution to amend the Agricultural College. Bidwell, of California, submitted some remarks, and advocated the measure. After discussion, the resolution was committed to the Committee on Agriculture.

A large number of bills for various appropriations, were acted upon.

Chicago, March 23.—An item was telegraphed which says that Treasurer Spinner had published a letter maintaining the correctness of Controller Clark's statement. The fact is precisely the reverse. Treasurer Spinner's letter explains that the books in his office are the only authority on the treasury finances, and that the Controller does not and cannot know from his own books the exact current condition of accounts with national banks. He says the deposits in national banks are returned weekly as certificates and reports are received balancing as cash in the treasury. The discrepancy between the bank report and the treasury statement arises from the fact that the banks are charged weekly with the amounts deposited with them by revenue officers and others and are corrected daily with checks drawn on them; hence it occurs that the amount due the department, and the books of the banks will differ materially from the balances; according to the books of the department. For instance, the treasury may draw to-day on different deposits. The banks of course should be accredited with the amount of checks drawn upon them while they cannot charge the Government until the checks are presented, which may not happen for days or weeks after.

The bill to quiet land titles in the State of California, was introduced in the Senate on the 19th by Mr. Conness, read twice and referred to the Committee on Public Lands. This bill has been in part but not wholly approved by the General Land office, and Conness hopes to secure its passage without material amendment.

NEWS ITEMS.—We condense from yesterday's *Oregonian* the following news items:

W. B. Carter, a practical printer, late of Portland, has purchased a joint interest in the *Corvallis Gazette*. That paper under the new auspices presents an improved appearance.

New quartz mines have been discovered on Althouse Creek, Josephine County.

The College at Corvallis has started under very promising circumstances.

Mr. G. N. Donnel, just down from Auburn, gives it as his opinion that the coming summer will develop in that district, vast quartz mines as rich as any others now known.

They claim to have discovered a ledge of well defined gold bearing quartz, fifteen miles from Vancouver, W. T. Great excitement prevailed there in consequence of the alleged discovery.

The *Falkenburg* brought the greater portion of a large new locomotive for the O. S. N. Co. The remainder is coming on another vessel.

The Methodists are about to build a new church in Portland.

PLEASE notice the new advertisements in to-day's issue.
