

# Daily Mountaineer.

WEDNESDAY MORNING, APRIL 25, 1866.

ONE of the claims of More & Co., on Buena Vista Bar, Idaho, cleaned up after four days run, about five hundred ounces.

THE cars of the O. S. N. Company were yesterday engaged in hauling sand to fill up Main Street, to a level with the railroad.

THE sidewalk on Union street, between Second and Third needs the attention of the city authorities. The planks are loose, and ought to be fixed before any accident happens.

A MERCHANT at Idaho city has been put under bonds in the sum of \$500 for his appearance at the Circuit Court, on the charge of using heavy weights in his gold dust scales.

THE World says that the snow has nearly disappeared from Idaho City, and dry winds are preparing the town for kindling wood, in case a fire should break out in any quarter.

A MAN named Abijah Gibson was accidentally killed by the caving of a bank while mining on Buena Vista Bar, Idaho, on the 9th inst. He was from Barry County Missouri, and aged 31 years.

THE CHICO ROUTE.—The citizens of Chico recently held a meeting to make arrangements concerning the transportation of freight thence to Idaho, at which an agent of the California Steam Navigation Company gave notice that the company would reduce the price of transportation on freight to that point, to an extent that would be satisfactory.

IN the Circuit Court, yesterday, James Buchanan, found guilty of cattle stealing, was sentenced to one year's imprisonment in the penitentiary. Jas. Thompson (colored) found guilty of an assault with intent to commit a rape, was also sent up for one year. They will be taken down to their new quarters by Sheriff White, this morning.

DR. A. H. STEELE, for several years a resident of this city, and Acting Assistant Surgeon at Fort Dalles, will leave tomorrow for Fort Stevens, where he has been ordered to take post. We regret to lose such worthy citizens as the Doctor. We hope, however, that with the return of the troops to this post in the fall, that he will be ordered to resume his old station.

THE STEAMER ON SNAKE RIVER.—The Idaho World of the 16th inst., says that the new steamer on Snake river is nearly completed. She will run between Olds' Ferry, which has been removed 12 or 15 miles down the river, and a point on Snake river, about 30 miles from Boise City, and 30 from Owyhee. The landing will be about 65 miles from Idaho City.—The steamer will run higher up the river for the transportation of Government freight, when required. A landing will be made near the mouth of the Payette for the convenience of passengers and freight for the Basin. The steamer will be convenient for the transportation of freight, but probably will not much interfere with the stage transportation of passengers.

FOR THE MINES.—Yesterday a large number of men left here, bound for Montana and the Big Bend mines, the majority of whom had arrived from below the evening previous. These men have gone by the way of White Bluffs, crossing the Columbia at this place. Another party of about fourteen persons bought their outfits at the store of Messrs. Baldwin Bros., yesterday, and will start out over the same route this morning. These men found no difficulty in procuring animals in this market at reasonable prices, and in fact they were well satisfied with the cost of their entire out-fits. We noticed that while the party was engaged in packing their animals, that the runners and bummers for toll bridges and ferries were busily engaged in praising up the peculiar advantages to be derived in traveling over their road, and crossing the various steams on their ferry or bridge; but of course they had no interest in either route—were only advising the honest miner as to the best and most practicable way to reach the mines. It is well for travelers to the mines to know that these fellows who busy themselves in furnishing information about the routes up the Columbia, are interested in some toll-road, ferry or bridge, and care nothing about the miner except to make him pay his "regular toll" for crossing on their "privilege."

We have the authority of some of our best citizens who have passed over the road hence to White Bluffs, on their way to Montana, that it is a good road, with every convenience for camping purposes. Mr. M. Renig, a gentleman well known at the Dalles, writes to a friend from White Bluffs, "that himself and party had arrived safely after five days travel from the Dalles." Mr. R. pronounces the road a good one with plenty of wood water and grass the whole distance.

### MONTANA NEWS.

From the Radiator, of March 10th, we compile the following:

### MINING NEWS.

The weather for several days has continued cold and disagreeable.—Miners who ten days ago were doing good work, with full sluices, are compelled to knock off for the present both on account of the scarcity of water and the intensity of the cold.

Gold dust continues to offer very sparingly, and business of all kinds is dull, though we anticipate new dust will soon begin to circulate, there being a large amount of pay dirt out ready for sluicing as soon as the weather will permit. It is estimated that \$1,000,000 of gold dust will be sluiced out within 15 days after the miners can get fairly at work in the immediate neighborhood.

A stampede of some magnitude began on Monday last, in the direction of Indian and Crow Creeks, where, it is reported, in a shaft eighteen feet deep, from five to fifty cents to the pan had been obtained, with good indications for a large and rich camp.—We hope the statements may prove true, as these discoveries near home are of far more importance to us as a community than those at a distance.

Elk Creek has again invaded the sanctity of our office. Not satisfied with depriving us of our devil, the next pass struck higher up and swept away the foreman, Thos. H. Mallory. If Mr. Mallory is as good a miner as he is a printer, and Elk Creek proves to be a good mining camp, he will be mighty apt to make a pile this summer.

### POLITICAL.

Mr. T. J. Favorite had arrived at

Helena, and assumed the editorial charge of the Radiator. In his salutatory he says:

We now propose to devote ourself to the task which we originally proposed. We will endeavor from this on, to furnish the people of this section with a reliable Democratic journal, devoted to the ancient principles of the Democratic party, and in opposition to every other ism, no matter whether it comes under the name of Abolitionism, Republicanism or Unionism, falsely so-called. We as a Democrat do not allow any man or set of men to claim precedence before us in our devotion to the union established by our forefathers.

The citizens of Helena held a mass meeting for the purpose of endorsing President Johnson's administration.—Speeches were made by several gentlemen, and a series of resolutions adopted, which recognizes the policy of reconstruction as enunciated by the chief magistrate of the nation as the only safe and constitutional mode of securing peace and tranquility to the country.
