LETTER FROM CANYON CITY.

CARYON CITY, April 24th, 1866. C. S. MILLER, Esq.:-At a meeting of the "Grant County Mutual Protection Association," held at the Court House in Canyon City, on Sunday evening, April 22d, 1866, It was ordered that the Secretary forward you a copy of the Constitution and By-Laws of said society, that it might be used by you in soliciting subscriptions of the citizens of the Dalles, for the benefit of said society.

The object of said society is to rid the community of the savages who now infest our borders, and threaten to cut off communication with the Dalles. It is proposed by said society to raise sufficient means to effectually accomplish this object; and it is necessary to offer such inducements to parties who would engage in the traffic, as to insure success. We have been troubled with Indians since this place came into existeuce; but it seems to be of a more serious character now than heretolore. From the lethargy of our people heretofore, they (the Indians) are led to believe that they can accomplish anything, however bold and daring its nature. They have passed within two and a half miles of our city, and we are fearful that something of a more serious nature than the mere stealing of stock will be the result if they are not arrested.

We propose to raise money enough so as to offer \$100 dollars for scalps, and in order to do this, we ask you to co-operate with us.

Farmers and others here who are able, are giving from \$25 to \$200; by this means we will be ableato raise some \$2,000, and if your place will do as well, I think we may be able to accomplish some good. As you must a -mit, this is the only leasible plan that can
be adopted, to accomplish the end sought.

Messes. Halloran and French, of the firm of French & Gilman, are on the committee with you. You can confer with them and see what can be done. Yours, A. H. MOREBEAD.

THE TRADE OF MONTANA .- A MODA tana correspondent of the Sacramento Union thinks California merchants may dismiss the idea of securing the trade of that Territory at present, especially the eastern portion of it. He says:

I think that goods will be put down here from St. Louis this year at from 12 to 14 cents per pound, and I understand from freighters from Walla Walla, that they cannot freight from there to this point for less than 20 cents. The distance is about 500 miles, and the roads bad. The Mullan road I think will be opened this year for wagons, and then, perhaps, freight will be brought cheaper. Stages will then be put on the road, and it will be a favorite route for passengers in the fall to go to the States by way of San Francisco, and in the spring for pas-sengers to go by boat down the Mis-
