SUFFRAGISTS PLAN WHITE HOUSE GUARD

Army of Women Will Silently Urge Claims to President Wilson on Inaugural Day.

(By United Press to The Daily Bulletin.)
WASHINGTON, Feb. 24.—A Suffrage rainbow will encircle the White House one week from tomorrow—Sunday, March 4. Flying the purple, white and gold colors of the Congressional Union, a thousand banners will flash this message to President Wilson, "Help women secure political liberty." Borne by a silent but determined army of women whose lines will completely surround the White House grounds, they will make woman suffrage the first subject of importance to be called to the President's attention at the beginning of his new administration.

Every state in the union will be represented in the huge human cordon that the progressive suffrage leaders have planned as the climax of their campaign to visualize to the President the nation-wide demand for woman's enfranchisement. Doctors, lawyers, nurses, business women, factory employes—wage earners from every rank of life—will be on duty that day at the White House gates. Pacifists and militarists alike, they will join forces to urge the passage of the federal suffrage amendment.

ARTIFICIAL COAL MAY SOLVE FUEL PROBLEM

(By United Press to The Daily Bulletin.)
CHICAGO, Feb. 24.—The first American factory for the manufacture of "artificial coal" in commercial quantities may be erected in Chicago, members of the Chicago Renting Agents' association said today.

A committee appointed by the association to seek a solution of the fuel famine menace which has threatened this and other cities all winter, has reported that they have a formula for manufacturing "coal substitute" from tar, chemicals, and by-products, at a cost far below that of coal.

The committee's report shows that tests which they have made, show the artificial product to be higher in heating units and more efficient generally than the mined product.
