FORM ORGANIZATION

Farmers Combine to Produce High
Class Eggs and Get Better Prices.

At Prineville, 11 men and women
met at the Commercial club rooms
with the county agricultural agent
and organized the Prineville Poultry
Association. J. H. Gray was elected
president and Itho V. Constable as
secretary-treasurer. After general
plans were discussed, the newly
formed association adjourned to meet
on Saturday, March 10, at the same
place when a constitution and by-
laws will be adopted and the business
of the association begun.

The purpose of the organization is
to foster poultry raising, purchase
supplies and create a better market-
ing system through co-operative ship-
ments of eggs, which are candled and
guaranteed to the purchaser. It is
planned to cultivate the market at
Bend.

The organization is planned after
similar associations, usually called
"Egg Circles," and is being encour-
aged and assisted to the fullest ex-
tent by the extension service of the
state and the county agent. It pro-
vides for a better condition to both
producer and consumer.

ALSATIAN GIRLS SEE DREAMS COME TRUE

Reoccupation of Province After Years
of German Possession to Her-
ald Many Weddings.

By Henry Wood,
(United Press Staff Correspondent.)
WITH THE FRENCH ARMIES,
Thann, Alsace, March 6.—Just about
the happiest girls in the world today
are the girls of Alsace, who, years
ago, following their first commun-
ion, secretly hid away their white
communion veils to be worn again in
welcoming the French troops back
to Alsace—should that happy event
ever come.

Today, these girls in that portion
of Alsace which has been reoccupied
by the French, are supremely happy,
because they are girls whose dreams
have come true.

Some of the younger ones had only
a few years in which to dream and
wait, but amongst the long lines of
white robed and white veiled girls
and women, who welcomed the
French troops on their arrival at
Thann in August, 1914, there were
some who had cherished their com-
munion veils for over 40 years.

And now that this happy dream
has come true, the white commu-
nion veils are being laid away again
for another happy dream that prom-
ises not to be so long in coming. This
is the marriage between Alsacian
girls and the French soldiers who
have redeemed their province for
France, and already in the town of
Thann alone four of these marriages
have taken place, when white veils,
worn at the first communion, then
to welcome the French soldiers back
to Alsace, were finally worn for the
third time at the marriage ceremony
which symbolized anew the union of
France and Alsace.

The brides in these happy events
had the additional pleasure of hav-
ing the civil marriage ceremony per-
formed by a gallant French captain,
who, having lost his right arm in
the fighting to redeem Thann, now

serves as the French military mayor,
whilst the religious ceremony was
performed by French priests who
came in the wake of the French
army.

and leaving Sisk on Wednesdays and
Saturdays.

A bond of \$1500 must be furnish-

STRAHORN ROAD MAY BE STARTED APRIL 15

Promoter Declares All Details for the
Oregon, California & Eastern Ry.
Progressing Satisfactorily.

(Oregon Journal.)

KLAMATH FALLS, Or., March 5.—
With the prospects for the early
construction of the Oregon, Califor-
nia & Eastern railway brighter than at
any time since the move was started,
Robert E. Strahorn returned to Bell-
mount, Cal., Sunday, following a two
days' session with the mayor and
city council arranging the final de-
tails for the Klamath Falls-Dairy link
of the road, which is to be construct-
ed with the \$300,000 municipal bonds
voted by the city November 14. The
various phases of the contract be-
tween Strahorn and the city have
been adjusted, so that when formal
acceptance of the bonds is made by
the Spitzer-Rorick company, of To-
ledo, Ohio, the papers will be signed.

Strahorn declared before leaving
that the terminal funds and right-of-
way matters were progressing so sat-
isfactorily that he sees no reason
why dirt might not commence to fly
by the middle of April. The war sit-
uation has not materially affected the
railroad movement to date, except
that the rapidly increasing prices
demand that contracts must soon be
made, if they are to be made. The
price of steel is rising so rapidly that
it will cost \$1000 a mile more to
build the road than it would have
one month ago.
