

BEND BOYS GO TO ENTER WAR

MANY TO LEAVE FROM CITY TONIGHT.

Farewell Will Be Given at Station to Army and Navy Recruits—Many Attend Dance Honoring Lads Who Leave.

Half a hundred Central Oregon boys, a large majority of them from Bend, will leave tonight for army and navy camps, as the practical form assumed by Central Oregon's prayer for a speedy termination of the war. Friends, parents, and sweethearts will gather at the train to give them a whole-hearted send-off as they step aboard their special car, and lending a more military tone to the farewell will be the appearance of the Bend Rifles, who will march from the drill grounds to the station before the train pulls out. The volunteers will be in charge of Naval Recruiting Officer T. L. Carriger.

Bend recruits gathered at their last social affair here last night, when a dancing party was given in their honor by the Ladies' Library club, at the Hippodrome. In a hall crowded to the limit, the boys made the most of their opportunity, and but few dances were set out. The affair was a most successful one, in spite of the undercurrent of sadness running through the entire evening. R. P. Minter, introduced by W. C. Birdsell, delivered the address of the evening, voiced the community's farewell, praising the patriotism of those going to serve their country, and wishing them success in battle and a safe return.

This afternoon the recruits gathered at the postoffice in order that transportation details might be completed in time to avoid delay at the depot this evening.

Recruits are Many.

Most of the Prineville recruits will join the Bend volunteers at Redmond, although a few may start the trip from Bend. Among those who will leave are the following:

Navy—H. McKenzie, Myron Powell, John Steidl, Steve Steidl, Robert Jones, L. H. Kelley, Robert Horner, John Bates, Ralph Curtis, C. Boyd, Roy Clemens, Howard Young, A. Hummel, R. A. Stevens, M. L. Coyner, G. L. Putnam, V. E. Putnam, Raleigh V. Weiser, A. S. Lane, Ted R. Hoke, Leon Devereaux, Gordon Asher, William E. Sanders, James H. Patterson, Edward J. Cooper, Maurice L. McCarthy, James Jackson, Ralph Lucas, Charles L. Sampson, Paul Gunnison, Ralph W. Harvey, Bend; Ernest Daggett, Redmond; Lyman Beebe, George Hobwood, Charles Stevens, Jr., Alex Barnes, Charles A. Barnes, Prineville.

Army—Glenn St. Clair, Harold H. Kennedy, William P. Green, George Carroll, Mason L. Henderson, Fred Triplett, Ray Golden, Bend; Harold W. Healey, La Pine; John W. Carroll, Mitchell; Albert A. Birdsong, Charles O'Kelley, John H. Prader and Simon Wassenaar, Prineville.

WAR PARLEY ENDS; COMMISSIONERS TO LEAVE U. S. SHORES

(By United Press to the Bend Bulletin)
NEW YORK, May 11.—The war parley is completed, and members of the French and British commission will leave soon for their homes. A reception at the Waldorf hotel here will be given to commemorate the historic conference. It is not known how or when the commissioners will leave, but their departure will not be far distant. The French commissioners visited Washington's old headquarters at Newburgh, New York today.

BRITISH HOLD IS STILL FIRM

GERMAN ATTACKS ARE WITHOUT AVAIL.

Halg's Forces Slowly Encircle Bullecourt and Lens—New Allied Offensive Started Successfully on Macedonian Front.

(By United Press to the Bend Bulletin)
LONDON, May 11.—Vigorous German attempts to shake General Halg's grip on the Arleux positions south of the Souchez river, were all repulsed, it was announced today. British artillery and machine guns, aided by the use of liquid fire, stopped the assaults. Repeated attacks by the Germans in the Souchez vicinity were repulsed.

The British offensive is menacing Bullecourt and Lens. Bullecourt is almost completely surrounded, and Lens is more than half encircled, the British gaining yard by yard. Indications are that the rocklike resistance offered by the Kaiser's troops is being slowly worn down, at Fresnoy.

Another Allied offensive move is being launched, this time in Macedonia. British, French, Italian, Russian and Serbian troops, under General Serrail, have started the long-expected advance, and some gains have been made, it is announced.

Fierce Tunic attacks resulted in the Kaiser's forces gaining a foothold on the wings of positions taken by the Allies Wednesday, an official statement from Saloniki declared. The central portion of the enemy's line was driven back, however.

CONSTANTINOPLE PLANS ARE MADE

ALLIES PLAN TO GIVE TURKISH CAPITAL TO BELGIUM, AS RECOMPENSE FOR HER TREMENDOUS SACRIFICE.

(By United Press to the Bend Bulletin)
PARIS, May 11.—Belgium's flag will fly over Constantinople, and Belgium will control the Dardanelles, according to the Allies' revised war plans concerning Turkey. It is authoritatively stated that this change was thoroughly discussed in high official circles of the Allied governments.

Since the new Russia has renounced all of old Russia's dreams for dominating the straits, a change in the Turkish problems is forced upon the Allies. The Entente powers would not think of a conclusion of the war which would allow the Turks to remain in Europe.

The handing of Constantinople to the Belgians would be considered a reward for the little nation's terrific sacrifice, and as an acknowledgment from the Allies that Belgium is trusted to keep faith.

WAR COMMISSIONS TO LEAVE

Arthur J. Balfour, British Foreign secretary, head of the British commission, is seen on the left with Secretary of State Lansing. During his stay in the United States, Mr. Balfour has virtually headed both the French and British experts in their conferences with American department heads.

The bonds will be held by the district until Monday, Mr. Forbes stated, in order to ascertain if any more favorable offers can be secured.

Patriotic Fervor Will Mark Draft Day in United States

WASHINGTON, D. C., May 11.—Officials of the War Department are pleased because many states of the union do not intend that registration day for the new army shall be merely a "drudgery day." The spirit of patriotism seems to have entered into the arrangements for the occasion which have been made by many of the state officials.

It is the desire that all the states shall enter into the duty of registration with the same spirit already manifested in many parts of the country. In one state, for instance, the occasion in large part is to take on the nature of a patriotic demonstration, a sort of national fete day. In many parts of the state there will be barbecues and like affairs to draw the people, so that those upon whom the duty of registration devolves will know that they have the support of their fellows of all occupations and of all ages.

A report from another state is to the effect that it hopes to clear up its registration duties in such short order that it may lay claim to being first in a race prompted by patriotic duty. If this spirit is felt in other of the country's commonwealths, a somewhat lively contest will take place as to which first can make the complete reports of a duty well done.

It is not to be a difficult thing for the officials and people to carry out the government's instructions on registration day, and to complete the labor in hand. The men who must register, in accordance with the requirements of the law, will find registration easy, full instructions will be issued and can easily be secured. There is nothing hard nor in the least involved in the series of questions

EXPLOSIVE IS MADE FROM COFFEE BERRY

Value of Brazilian Crop Doubled by Discovery of By-Products Which are Readily Marketable.

By H. B. Robertson,
RIO DE JANEIRO, May 11.—After 40 years of chemical research, a way has been found to double the already enormous value of the coffee crop by manufacturing by-products from the coffee berry husk.

One of the by-products—manita—properly combined with nitrogen, makes an explosive of about the same power as dynamite or fulminate of mercury, and markets about \$10 per kilogram.

The average coffee crop of the state of Sao Paulo, Brazil is ten million sacks of 132 pounds each, representing a value of more than \$80,000,000. This value is in coffee without the by-products.

Dr. Pedro Baptista de Andrade, the chemist, already has begun manufacturing the by-products which he discovered. He proposed to produce 30,000,000 liters of alcohol, 360,000 kilograms of manita and 36,000 kilograms of caffeine. Caffeine is a drug commanding a price of about 10 cents a gram. Alcohol is sold here at about 12 cents a liter.

which are to be answered. Directness Encouraged.

Directness of question is the method of employed and directness of answer will make all things easier for the men of the country and for the government, which is to claim their services.

The questions which are to be answered involve comparatively few subjects: The name in full, the age in years, the home address, the date of birth, the quality of citizenship, natural born, naturalized or the condition of declaration of intention, the place of birth, trade, occupation or office, employment and by whom employed, Dependents, if any, married or single, race, former military service and where rendered, and lastly, claims of exemption from draft, with the specific grounds therefor.

Work to Be Rapid. These constitute virtually all the questions which the man whose age makes him subject to registration will be called upon to answer. With the questions there will be explanations of how they are to be answered and suggestions will be made for brevity. The War Department officials do not believe there will be many difficulties in the way of completing the work of registration day properly and quickly. Several of the states have relieved the government entirely of expense connected with the work of securing complete registration, in fact helpfulness seems to be common to the country. It is believed by the government officials that the spirit of field service will be in keeping with that which has marked the activities in all matters connected with the new national army from the beginning.

B. A. A. C. BUYS 300,000 BRICK

DELIVERY MUST START IN 30 DAYS—LUMBER CONTRACT TO BE LET MONDAY—CLUB TO HONOR HUNTER'S MEMORY.

The contract for 300,000 brick, at \$10 a thousand, for the Bend Amateur Athletic club, was let today to the Bend Brick & Lumber Company, stipulating the commencement of delivery in 30 days, and the completion of the contract within 60 days. Brick masons will be set to work as soon as the first load arrives at the gymnasium site, and it is believed that this division of the work will be finished shortly after the last load is delivered. The contract for the lumber to be used in the building will be let Monday, President Carl Johnson announced this morning.

Formally turning over the building site to the athletic club, The Bend Company delivered the deed to Mr. Johnson today. As an acknowledgment of the obligation under which the club stands, a memorial plate bearing the name of A. O. Hunter, prominent during his lifetime in the affairs of the company, will be placed in one of the main rooms of the club.

Appointment and organization of committees is being pushed in order that active club work may start as soon as the building is ready for occupancy.

PORCINE PETS URGED IN PLACE OF DOGS

TACOMA, May 11.—Get rid of Fido and get a pig or a Belgian hare for a pet. You can't eat the dog, but pork or the hare are good enough to grace any table.

This today is the recommendation of the Pierce County War Food committee to the people of Tacoma.

SLAVS DEMAND FINAL VICTORY

PEACE NOW WOULD BE ONLY ARMISTICE.

Duma Leader Pleads for Unswerving Continuance of Russian Peace in War—Munition Workers in Schiselberg Rebel.

(By United Press to the Bend Bulletin)
PETROGRAD, May 11.—"Only a complete defeat of Germany will assure the world's happiness. Peace now would be only an armistice. Russia cannot betray the Allies, by whose side she has been fighting for the last three years." With these words, President Rodzianko, of the Russian Duma, forcefully pleaded for the unswerving continuance of Russia's part in the war, and warned against German-inspired, insidious peace moves today.

"The war must be successfully terminated in a manner preserving the national honor," he asserted. "Our innumerable sacrifices demand peace commensurate with the immensity of our efforts."

Workers Rebel. Anti-war sentiment was shown in the announcement that the Schiselberg munitions district has revolted, and that workmen and citizens have announced their intention of forming a separate republic. Representatives of the workmen's and soldiers' committee are on their way to dissuade the revolters from their announced purpose.

The rebels have arrested the provisional president of the munitions district. Dispatches failed to say how serious the revolt is, but apparently there was no violence.

Another instance of friction between the Duma and the Soldiers' and Workmen's council was evidenced today. The council announced that workmen and soldiers are planning a meeting to be held in a neutral country with governmental specialists, to discuss the world's problems.

LABOR LEADER IS ON MISSION HERE

Investigation of Wage Standards and of Strike Causes Understood to Interest State Organizer.

On business connected with the local labor situation, Oscar W. Horne, state union organizer for Oregon, is in Bend today, and will probably remain here for the balance of the week. His mission here is being kept secret, but it is understood that some action on the wage standards in Bend may be taken as the result of his visit.

He is also understood to be investigating the causes of the carpenters' strike just adjusted, at the Pilot Butte Inn.

ROOSEVELT DIVISION STILL A LIVE ISSUE TO REPRESENTATIVES

(By United Press to the Bend Bulletin)
WASHINGTON, D. C., May 11.—The Roosevelt division issue is still very much alive, although it was thought to have been rather effectually buried by the joint Senate and House committee. Murry Harburt, New York Democrat, introduced a resolution in the House, instructing Colonel Roosevelt to raise a volunteer division. Gardner, of Massachusetts, objected when Chairman Dent, of the House Military committee, suggested that debate on the Roosevelt plan be limited to two hours.
