THE TRAITOR WITHIN.

Evidence that I. W. W. activity
throughout the northwest is being
fostered by German interests will be
taken with the seriousness which it
deserves. We are at war with Ger-
many and those who engage in op-
erations calculated to aid our enemy
are enemies also. More than that, if
they happen to be citizens of the
United States, they become not only
enemies but traitors and deserving
of the traitor's end.

The United States has been toler-
ant of all the isms and propaganda
and anti-this and that that the dis-
contented of all lands have brought
here. Aliens have had a kindly wel-
come to our shores. We have pre-
sented them a land of opportunity.
But by a few the opportunity has not
been taken as a chance to make good
citizens of themselves, but as the
opening for anarchy and lawlessness.
From such elements has been
formed the I. W. W., if the record
of that organization's activity is to
be trusted. With such record it is
readily seen why it should be sought
out by our country's foes to aid them
in their work. Destruction of food
supplies, hindrances of industrial ac-
tivity, all is in aid of our German
enemy.

Tolerant so far, Americans will
take extreme measures when their
country is attacked from within.

TODAY'S THRIFT THOUGHT

Here is an appetizing way
to use that meat left from yester-
day's roast, Madam House-
wife.
Meat Pie.—Cut meat into
fairly small pieces. Stew in
saucepan with a little water,
left-over gravy or soup, salt to
taste, and such seasoning veg-
etables as onions and celery if
desired. Thicken liquid with
flour. Line baking dish with
biscuit dough, pour in the meat
filling, cover with biscuit dough
and bake in a medium oven.
If the quantity of meat is
small, a little macaroni or diced
potato may be added. Such
pies to be at their best must
be well seasoned.

AMERICA'S BOARD OF WAR DIRECTORS

Dr. Franklin Martin,
Dr. Franklin Martin, of Chi-
cago, is chairman of the Com-
mittee on Medicine and Surg-
ery of the Council of National
Defense, which is preparing to
fight the battle with death
which will come for many a
young American after the bat-
tle with the Germans.
Dr. Martin looks the part of
an eminent surgeon—a strong,
decisive face, clean shaven,
with a chip-of-granite profile, a
thick crown of white hair, and
the cutaway costume tradition-
al in the part. He has been up
to his eyes in work from morn-
ing until midnight in the work
of enrolling the surgeons and
physicians of the nation, and of
listing standard medical sup-
plies, not to mention standard-
izing all others and mobilizing
the medical and surgical sys-
tem of the United States for
its part in the fight.

SELF HYPNOTISM IS DOCTORS' DIAGNOSIS

(By United Press to the Bend Bulletin)
SPokane, Wash., July 9.—"Self-
hypnotism" afflicts Harry G. Parker,
former Spokane city employe, who
just "thinks he can't walk," accord-
ing to physicians who have been
studying his case. They are confi-
dent Parker is sincere in his self-
hypnotism and is not a faker. They
want to jar him into using his leg
which he believes is paralyzed, but
they don't know how.

King Alfonso, seen above inspecting a military tractor, in all probability
would become the first president of Spain if that country should change to
a republic. His popularity with the people is strong in Spain.

Shipbuilding Plants on Clyde are Working Against U-Boats

By Lowell Mellett,
(United Press Staff Correspondent.)

GLASGOW, July 9.—A day on the
River Clyde helps explain Lloyd
George's confidence that the sub-
marine menace will be beaten.

A snare-drum roar from thousands
of steam riveters and a battlefield
drumfire of crashing hydraulic ham-
mers; unending miles of wooden and
steel scaffolds with workmen swarm-
ing over them like flies, towering
cranes that look capable of lifting
a county court house and setting it
down in the next county; these are
some of the reasons.

Girls—thousands and thousands of
trouser-legged girls—furnish so many
additional reasons.

And then there are certain reasons
visible to the eye, concerning which
secrecy is imposed. They constitute
a method of direct warfare against
submarines and are already proving
their effectiveness, but more than
that cannot be told.

The Clyde was the greatest ship-
building center in the world before
the war began. Now it dwarfs its
own activities of three years ago.
For 22 miles on one side of the river
immense plants crowd against one
another; the same is true for half
the distance on the other side of the
river. Soon it will be the whole dis-
tance on both sides.

The world's biggest fighting craft
went down to ways here a few days
ago, but work stopped many months
ago on what was to be the world's
biggest merchant ship. Instead
smaller ships and more of them are
being built. Rows on rows of skele-
tons, some bare, some partly dressed
in their armorplate show how the
new policy of building standardized

ships is being carried out. Builders
report it means a 40 per cent gain
in speed of construction.

"Unless the destructiveness of the
German submarines is greatly in-
creased, the extension of British ship-
ping will practically take care of the
situation by autumn," said Fred
Lobnitz, munitions director of Scot-
land. "This does not take into con-
sideration the huge preparations un-
der way in America."

More than one shipbuilder along
the river displayed a keen perception
of the probable acceleration of Amer-
ica's output.

The fact that they are compelled
to rely on women and girls for an
immense proportion of their labor
has ceased to be considered a handi-
cap, the shipbuilders say.

MERCHANTS OF U. S. SEEK BRAZIL TRADE

By H. B. Robertson,
(United Press Staff Correspondent.)

RIO DE JANEIRO, July 9.—The
American Chamber of Commerce is
"on the job." Believing that the
actual introduction of American
made goods into the Brazilian mar-
ket and the establishment of Bra-
zilian goods in the American mar-
ket works to the practical strength-
ening of trade relations between the
two countries better than oratory
and after dinner compliments, the
American Chamber in this city has
effected an agreement with the Com-
mercial League of Brazil for the ex-
change and disposition of the pro-
ducts of both countries.

By the terms of the agreement
the American Chamber proposes to
find agents or buyers for all products
offered to the American markets by
members or through the Commercial
League of Brazil. In return the
League promises to provide the same

outlet for American goods for which
there is a demand in the Brazilian
markets. Both organizations will
work through their memberships
and affiliations in their respective
countries.

An American manufacturer or ex-
porter desiring to place his goods in
Brazil may do so through the Amer-
ican Chamber who will furnish the
necessary information as to proced-
ure and methods, and by the co-
operation of the Commercial league,
will arrange with merchants and
agents to handle the goods.

TENER IS THROUGH WITH THE NATIONALS

Sincerity of Announcement That He
Will Not Try Again to Lead the
League Is Unquestioned.

(By United Press to the Bend Bulletin)
NEW YORK, July 9.—Gov. John
K. Tener is through as president of
the National league. There can be
no question of his sincerity in the
announcement made during the re-
cent rumpus with John McGraw. His
firm jaw set, his teeth together,

Tener declared that was all he had
to say.

"I am not a candidate for re-
election," he declared. "I refuse to
be questioned further."

And that's all he would say. Sev-
eral persons, remembering that Mr.
Tener was governor of Pennsylvania
when the National league club owners
sought him out and made him their
executive, questioned Tener as to
what he might do if the National
league should unanimously request
that he retain his office.

"I won't say a word," he declared.
And there the argument or cross-
examination ended.

Tener has a lot of business inter-
ests. Before he became governor of
Pennsylvania, or before he became
connected with politics at all to any
considerable extent, he was president
of one of the nation's most prosper-
ous small-town banks. That busi-
ness calls him. In addition he has
holdings of coal land in Pennsylvania
that are very valuable. He is able
to devote only a small share of his
time to these interests, and private
enterprises are being sacrificed by
him, to a certain extent, for the good
of baseball.
