

PETITION FILED FOR KENWOOD SCHOOL

Request Made by 241 Residents After Board Had Already Instructed Architect.

Believing that the school construction program for Kenwood had been sidestepped by the Bend board of directors, Kenwood residents, 241 in number, filed a petition this morning, protesting against the alleged action, and urging a public meeting for the discussion of the question.

At its last meeting the board went on record as instructing Architect Lee A. Thomas to submit plans so that a call for bids on the first Kenwood unit might be issued.

GUY WILSON GIVEN B. A. A. C. CONTRACT

\$28,000 Bid Accepted—Work on the Gymnasium to Be Started in Few Days and Will Be Rushed.

Announcement was made this morning by Carl Johnson, president of the Bend Amateur Athletic club, of the letting of the contract for the construction of the club gymnasium to Guy Wilson, of this city. Mr. Wilson's bid of \$28,000 being the low figure submitted. Work is to start within a few days and with the foundation already laid every effort will be made to complete the structure by October 1, Mr. Johnson stated.

Ox Bones.

Ox bones have a considerable value. The four feet of an ordinary ox will make a pint of near's foot oil. The thigh bone is the most valuable, being useful for cutting into toothbrush handles. The fore leg bones are made into collar buttons and parasol handles. The water in which the bones are boiled is reduced to glue, while the dust which comes from sawing the bones is turned into food for cattle and poultry.—Exchange.

Fine Canal Locks.

Some of the locks in the New York barge canal are the finest in the world. The five at Waterford being the greatest series of high lift locks in existence. They have a combined lift of 103 feet, one foot less than the total lift of every lock in the Panama canal. The upper gates weigh forty tons and the lower about 100 tons.

Dislocation of the Hip Joint.

In demonstrating his now famous method of replacing in its socket a hip that has been dislocated since birth Dr. John Riddon of the Presbyterian hospital, Chicago, said most of these cases were girls and in most of them it was the left hip. He could not offer any suggestion as to why this should be so.

Duets Popular.

Patience—What kind of singing do you prefer, solos or duets?
Patrice—Oh, duets, by all means.
"Well, come over to the house some time and I'll start the phonograph and the parrot going at the same time."—Yonkers Statesman.

Natural Tendency.

"Pop, do all trades have their own diseases?"
"So they say, son."
"Then is it only carpenters that have shingles?"—Baltimore American.

Gossip.

"Mrs. Gasley is a great gossip."
"Yes. She has a good sense of humor."—Puck.

Word From Br'er Williams.

Don't be in a hurry fer de long lane ter turn, fer de lion what's waltin' whar de turn is may be mighty hon'ry!—Atlanta Constitution.

Every shadow points to the sun, and sorrow helps us to appreciate happiness.

Peace on Earth.
Peace on earth would mean the liberation of human faculties for the highest and noblest achievements of which human nature is capable. It would mean a splendid efflorescence of art, literature, science, philosophy and religion—in short, culture in its best sense as the spontaneous unfolding of the powers of personality.—David Jayne Hill in Century.

Table Manners.

To put the elbows on the table is to confess indifference to rules of etiquette. This attitude should remain peculiar to grillrooms, where it originated. Those who observe the details of good form keep their hands in their laps when not employed with the knife and fork.—Pittsburgh Press.

His Trifling Mistake.

Lady Exhibitor at the close of a baby show—But, good gracious! This is not my baby, sir! Checktaker—Very sorry, madam. It's the last left. The checks got mixed up somehow. But I'll take care that it shan't occur again.—London Answers.

Tit For Tat.

He—You never consult my wishes in ordering the meals. She—Well, you never consult the market reports in providing an allowance for the household.—Richmond Times-Dispatch.

At the Movies

And now George M. Cohan, he of Yankee Doodle renown, has added another vocation to his remarkable career. As an actor he first gained wide fame and popularized the American flag. Then as an author his plays and songs proved the big hits of Broadway and he became as popular among the natives of Keokuk as on the Great White Way. Finally, as a producer of plays he added even greater laurels to his previous fame, and now he is entering a new enterprise, something entirely different from any previous undertaking, namely, the management of an immense chewing gum factory.

It will not be George M. Cohan's aim to improve the "breath of a nation," as evidenced by many of the big chewing gum concerns of late, but it is his idea to give the public a gum that will not only meet with instantaneous approval, but will be in big demand as a result of one of the most enormous advertising campaigns ever displayed.

In order to get the best results, Mr. Cohan took over an immense chewing gum factory several months ago and personally assumed the management, but for one week only, that is, just long enough to become a chewing gum manufacturer for the benefit of the motion picture camera in connection with his first Artercraft photoplay, "Broadway Jones," which will be the opening production at the new Liberty Theatre, Sunday night, and on Monday night.

Grand Theatre.

Of especial interest at this time are the pictures of the American troops in France. These pictures are direct from the front and are the first to be shown of the "Sammies" in the preparation for the first work.

Old Glory is shown for the first time flying over foreign soil in the cause of world democracy, the cause that has made so many of us take a deeper interest in things international these last few months. These pictures are released here at the same time that they are shown in the larger cities. The Student Officers' in the training camps are also shown in their rigorous work of training for the trench warfare.

Then there is the feature play, "The Primitive Call." This is truly a wonderful picture, one in which all of the characters have ample opportunity to display their varied talents.

GEORGE M. COHAN.

Headliner in the play, "Broadway Jones," which opens the new Liberty Theatre Sunday night.

In the announcement of the opening of the Grand Theatre last December, special mention of call bells and push buttons was inadvertently overlooked. We still have them, however.

American Troops In France

These pictures are absolutely new and are shown here at the same time that they are shown in the larger cities. Old Glory is shown on foreign soil, the troops are shown training for the first part of the work. All Americans, especially those who cannot take part in the present war, will want to see this. Another picture shows the student officers at the training camps in their first lessons in trench warfare. They have a very interesting time. Further pictures show the first activities of the Russian Revolution.
