

## CALL 180 MORE FOR U. S. ARMY

AUGUST 16 SET FOR EXAMINATIONS.

Large Number of Rejections and Claims for Exemption Leave Only 10 Definitely Accepted for This County's Quota.

With only 31 men registered in Deschutes county, out of the 37 passed in the physical examinations just completed here, the county conscription board last night issued orders for the notification of 180 more men, those next in order on the draft list, to appear for examination at Bend beginning August 16. According to the rate at which the last examinations were run off, the last of the 180 men will be rated in six days from the time the tests begin. Notices to the entire number will be mailed tonight.

The board's action in calling for so many more men than were ordered to appear for the recent examinations, is due to the fact that physical disabilities and claims for exemption run so high that it is estimated that at least 150 more, and very probably a number in excess of this will be needed before the county's quota of 34 for the first call has been completed. In addition, 10 per cent above the quota must be provided, for military experts are of the opinion that this will be the proportion of rejections made at the final tests after the men are summoned to barracks.

**Ten Days Allowed.**

Twenty-one claims for exemption have been filed by men who have been accepted physically, and a large proportion of these will have an excellent chance of being declared valid, the authorities believe. No action, however, will be taken on such claims for another week, as the claimants are given 10 days from the time of examination in which to file affidavits substantiating their requests for dismissal.

**First Men Picked.**

As the first definite positive result of the tests held Tuesday, Wednesday and Thursday of this week, the draft board, composed of Sheriff S. E. Roberts, Dr. B. Ferrell and County Clerk J. H. Haner, this morning certified to the district board with headquarters in Portland, the names of 10 young men who were accepted physically, who have filed no exemption claims, and who are therefore listed for army service. They are James A. Blackstone, Alfalfa; Chester I. Moore, Bend; Forrest Hale Miller, Terrebonne; Lyle M. Richardson, Bend; Ralph Jackson Byland, Bend; John W. Garrison, Deschutes; Loren A. Campbell, Lower Bridge; Charles Ellsworth Royer, Brothers; Frank O. Gray, Bend, and Lester Vaughn, Bend.

The high grade of hay cured in this section has created a statewide reputation for the Central Oregon ranches and although this year's yield is an unusually large one, especially on irrigated land, the supply will no more than balance the demand. A record price has already been reached, and a large majority of the first cut has been contracted.
