

# SENATOR TELLS HOW HE VOTED

**MCNARY WANTED MORE TAXES LAID ON PEOPLE WHO PROFITED BY THE WAR—OPPOSES TOO MUCH BONDING.**

WASHINGTON, D. C., Sept. 27.—Following the passage in the Senate of the two billion dollar war revenue bill, and while awaiting the final action of the conferees with respect to the adjustment of all differences in the measure as it passed the two branches of Congress, Senator Charles L. McNary made a public statement in which he said:

"I voted for the revenue bill upon its final passage as the war cannot be fought without money; yet, I hoped that a greater portion of the revenue could have been collected from those colossal institutions which are enjoying the fruits of the war and are thriving upon the enormous expenditures made necessary by this world conflict. I would not advocate a revenue policy that would disturb or frighten business nor would I support a measure that considers the profiteers too tenderly.

"The only objection I have to the bill now in conference is that it did not bear down more heavily upon the reapers of large war profits. For example, the Dupont Powder Company made annually from 1913 to 1915, inclusive, profits amounting to \$5,000,000, while in 1916 its profits climbed to the stupendous sum of \$82,000,000. The United States Steel Corporation made in the year preceding our entrance into the war \$63,000,000 and based upon the first six months of the current year it is estimated that its profits for 1917 will rise to the unprecedented figure of \$500,000,000. Many other similar examples could be cited though these are of the larger class.

"One excellent result obtained in the Senate was striking from the bill the provision relating to table taxes—those upon tea, coffee, sugar and the like. Every dollar now paid is a dollar and accumulated interest less to pay in the future by the long and distressing process of taxation, which eventually falls upon the shoulders of the great mass of the people. A failure sufficiently to tax great profits, which are an accompaniment of war, and an over-issuance of bonds, brings about inflation, increase in cost of living and commercial distress following the arrest of war, and for these plain reasons I supported every effort to impose a heavy load of taxation upon those thriving institutions which are enjoying a harvest of profits above the dream of avarice."

## POTATOES GROW AT 7000 FOOT ALTITUDE

Potatoes that were grown on a hill side at an altitude of 7000 feet are to be found in the garden of Fred Shintaffer at East Lake. Mr. Shintaffer was experimenting with a few vegetables and planted turnips and potatoes near his home. He gave them practically no care and was somewhat surprised to find a crop on hand a few days ago. The fact that there was no frost from the latter part of June until September 23 probably accounts for their growth. Mr. Shintaffer is now convinced that other products can be raised near the lake by summer campers.
