"Let women begin to understand what every man knows."
SHAME, Deceit and a Guilty Conscience all come wrapped up in the mail order package. We should never be ashamed to look a neighbor in the face. In a community like ours, all are neighbors and friend, working together. Our interest are common. We are all in business together. Our business is home-town development. Unlike the overcrowded city, our town has a soul. We tamper with our community-soul whenever we boycott home interests. Then let us keep our conscience clear, let us so live that we can at any time look our neighbors in the face, knowing that no action of our is holding back the progress of our home town.
This store is filled with the greatest stock in it's history for the coming season, with necessities needful to it's patrons. Prices on most things have risen, on many things though we have by farsighted purchases been able to keep them normal. Assortments are better than ever and this year we know you will find that the service of this store has risen another notch--forward.
