MAY IRRIGATE 11,000 ACRES

\* \*

PETITION IS HELD IN ABEYANCE.

Extension of North Canal, and With- + left as his entire resources only + drawal of Watered Lands From District Now Being Formed Among the Features,

\$SALEM, Or., Oct. 16.-(Special.) -The Desert Land Board today held in abeyance the petition of 99 settlers on the Central Oregon project asking to be allowed to reclaim 9000 acres of land outside of the project and altogether open 12,000 acres of land. The cost was to have been approximately \$115,000. Jesse Stearns, Engineer C. M. Redfield, J. F. Rice, \* Powell Butte, and Attorney L. M. Bechtel, of Prineville, appeared before the board in behalf of the settlers. The board will not act on the petition until after the county court takes up the matter of irrigation district petitions already circulated.

Plans, which if carried out, will mean the immediate irrigation of acres east of Bend in the well Hutte section not now receiv me water, are under consideration the Central Oregon Irrigation Company and committees of settlers representing the owners of the lands affected. As outlined by C. M. Red field, chief engineer of the company the Gian will mean a consolidation of the lands in the company's sys tem looking forward to a greater officiency of operation and maintenance, will bring water to 11,000 acres of homesteaded lands, now dry ing. Steve has eight weeks left in farmed, and will bring into use the the electricians' school and at the

may be served, 11,000 are dry farms tered as an apprentice seaman, has are now watered by the Central Ore- to Harvard within a short time for gon canal. The plan is to have the training as a radio electrician. Both formation of an irrigation district, claring it to be the ideal branch of the upper end to be served by the the service. Central Oregon canal and the lower by the North canal, which would be extended out to the district.

#### North Canal Key.

watered included in the district arises from the fact that they are now maxed in with the dry lands to be served, and can be administered more lands to be served, and to care for rating. the other expenses incidental to the

creation of the district. Water for the new land would be provided by the release of water Harvard. rights on land now segregated, partly reclaimed, but not sold, the largest portion coming from the North canal ENGLAND PROMISES

Liberty Loan Facts

Denominations-\$50, \$100,\$500,\$1000, \$5000, \$10,000 Interest-Payable May 15 and November 15, each year, at 4 per cent per annum.

Terms of Payment-2 per cent down with applica-tion (which must be before October 27), 18 per cent on November 15, 1917, 40 per cent on December 15, 1917, 40 per cent on January 15, 1918; or payments may be made all down.

Delivery-Promptly with last payment. A Loan-You lend your money at interest, you do not give it.

- Easy Payments-The government payments are \* easy; if they are not easy enough, any banker \* will make them easier.
- Superlative Safety-The promise to pay back your money is signed by 110,000,000 people, including all our multi-millionaires. The bond is a mortgage on America.
- Safe Keeping-Absolutely safe in any honest banker's vault. Safer anywhere than currency.
- Tax Free—Up to any amount from all state and local \* taxation and up to \$5000 from any national taxation
- Market Value-Can be sold at par at any time, and after the war is certain to go up in value, \$100 bonds probably going to \$105 or \$106 in value. The Government is you and I. It needs the \$50 and
- \$100 of the average man. the government ever issues Bonds drawing more

interest, then these Bonds can be exchanged for them. \*\*\*\*\*\*\*\*\*\*
