FRIDAY, OCTOBER 19, 1917

What have you done today to help win the war?

SUPPOSE.

Suppose you were an enlisted man in the United States army and had gone to France with the first of Pershing's troops? Or suppose that when war was declared you had felt the call and had volunteered and were now in training preparatory to taking your place in the trenches "somewhere in France"? Or suppose that you had watched the country declaring almost unanimously that the draft was the essence of democracy and that nothing was too good for the man who, when drafted into the service of his country, went cheerfully to his place?

Suppose any of these things and then—

Suppose that word came to you that the people you had left at home, your friends and neighbors and fellow townsmen, when asked to LEND their money to help you carry out your GIFT of yourself, refused, or were reluctant or niggardly?

How would you feel?

You know how. Little imagination is needed to enable you to picture to yourself what your feeling would be. You would be sore and disheartened and filled with the idea that the people "back home" did not much care what happened.

Now stop "supposing" and think.

You are the people "back home" to scores of young men now in camp or at the front. They look to you for support as you look to them for defence. Support them with your money and buy a Liberty bond.

The extra one-cent stamp we must begin to use next month ought to bear a picture of the Kaiser. Whenever used he would be licked, and how often the postal clerks would plug him in making cancellations.

Pendleton is to be congratulated in numbering among its citizens a man like Rev. J. E. Snyder.

NO REPORT ON DAVIS LAKE EXPERIMENTS

Department of Agriculture Officials Find Too Few Improvements Made on Forestry Land.

Reports of the experiments in cultivating the prairie near Davis Lake will not be made this year by the Department of Agriculture on account of the small crop raised on the ground during the summer. Thomas Sherman, from the office of the Secretary of Agriculture at Washington, D. C., and A. H. Wright, of the district office of the department of lands with Ranger Vincent, of the local forestry office, went to Davis Lake on a two days' trip to look over the situation in view of making the promised report. They returned yesterday, stating they would permit another trial crop before doing so.

The experiment work is being conducted by the forestry office at the request of persons who desire to have the prairie thrown open for cultivation as farms. In order to ascertain whether it is possible to raise anything on the meadow, 40 acres were put under cultivation this year.

SONGS OF THE SAMMIES.

(By United Press to The Daily Bulletin)

PARIS, Oct. 19. — Between bites of real American ice cream and cake, from the throats of visiting Sammies in Paris one can hear most every night this chorus.

"Then here's to uncle Sammy, faithful and true, And here's to our banner of red, white and blue, And here's to all good fellows, on land and sea Singing the Battle Song of Liberty."

It's from the "Regimental March," by Bigelow, and they warble it with no timidity.
