

BUY A LIBERTY BOND TODAY!

YOUR DUTY AND PRIVILEGE

Your full duty commands nothing less than the purchase of at least one liberty bond before Saturday night. There are millions of dollars to be raised. \$50 and \$100 bond purchasers are needed to bring Oregon's quota to the amount requested by the United States Government. Your purchase of a bond today is a solemn duty, a privilege and perhaps the only part you can take in this, your war.

MEN! MATERIAL! MONEY!

Are the three vital elements absolutely needed properly to carry out our part. The men are there now, thousands of Uncle Sam's best men are in France today. The Government is getting the material as fast as thousands of factories can get the goods together. Money is now the third all-important need. The whole United States Government is behind every Liberty Bond "100,000,000 strong."

Liberty Bonds pay 4% interest, are the safest investment you can possibly make and can be purchased on easy monthly payments. Liberty Bonds are free from normal tax and can be sold at any time.
