WILSON ASKS LABOR'S HELP

SPEAKS AT A. F. OF L. CONVENTION.

Must Raise Labor to Maximum Productivity to Win War, He Declares—Presidential Precedent Disregarded.

BUFFALO, N. Y., Nov. 12.—Asking that he be considered as a fellow citizen, not as President of the United States, Woodrow Wilson, speaking today before the American Federation of Labor convention, asked labor to join with the other people of America on a new high platform.

The President stated that if Germany retains the Berlin-Bagdad railway, she will have won all her war aims.

He told labor that if we want to win the war we must raise labor to its maximum productivity. This is the first time that an American President has talked directly to the nation's labor representatives.

Opening the convention, President Landon, of the Buffalo Chamber of Commerce, charged that agents among the delegates had insinuated that the American Bolsheviki are busy.

The federation is facing the most important convention in its history.

ASKS BIDS FOR NEW POSTOFFICE

NEW LEASE TO BE MADE FOR FIVE OR 10 YEARS—AT LEAST 2000 SQUARE FEET OF FLOOR SPACE NEEDED.

Bids are being called for by Postal Inspector C. W. Linebaugh, who is in town on a brief trip, for post office quarters for the next five or 10 years. Specifications for the building require not less than 2000 square feet of floor room.

The lease on the present building expires early in the year and it therefore becomes necessary for a new lease to be made.

Mr. Linebaugh is the long expected inspector who was to make a report on the number of houses which have been numbered and the advisability of bringing in delivery service.

Because a sufficient number of houses have not been numbered, Postmaster H. B. Ford was unable to petition for the service, and therefore no report will be made this time. Mr. Linebaugh has been here twice before expecting to receive orders to look into the matter, but unless house numbers are secured he cannot do this.

At present his principal concern is the postoffice. With floor space nearly twice the size of the present area it will be possible to accommodate more private boxes. The owners of the building leased will be required to furnish all equipment. Applications blanks and specifications may be obtained of Postmaster Ford.

PLAN TO ERECT BIG MILL SOON

PREPARE FOR WORK AT PRINGLE FALLS.

80,000 to 100,000 Feet Will Be Capacity of Deschutes White Pine Lumber Co. Plant—Big River to Furnish Power.

Construction on a sawmill to have a capacity of from 80,000 to 100,000 feet will be started this winter at Pringle Falls, the intention being to have the buildings ready for the installation of machinery by the beginning of spring.

According to present estimates, from 125 to 150 men will be employed in the two shifts and in the woods, once the mill is in full operation.

The exact quantity of timber secured for logging has not been learned, but it is known that the Deschutes White Pine Co., of which G. F. Ward, Spokane timber broker, is president, has been buying up claims during the past season.

In addition to the white pine industry in the Pringle Falls district, those interested in the development of the district look forward to the ultimate utilization of lodgepole pine, found near at hand in large quantities, for pulp manufacture.

The hearing was begun in New York last week and will be concluded in Portland on November 21.

Tobacco Fund for American Soldiers at Front Started

Among one of the few complaints reaching here from Bend boys who are now serving at the front is the difficulty of securing good smoking tobacco. The French article is easily obtainable, but just how acceptable it is, may be gathered from the fact that Americans in the service allude to it as "dynamite."

To give people of this section a chance to aid in furnishing smokes for the boys across the water, The Bulletin has made arrangements for the sending of smokers' kits, each containing one can of Tuxedo, three sacks of Bull Durham, and two packages of Lucky Strike cigarettes.

of cigarette papers. One 25-cent contribution will buy one of these kits, and will provide smoke joy for the average soldier for weeks.

Each package is in a neat red, white and blue pasteboard container and a stamped postal card accompanies the gift in order that the recipient may make acknowledgement. A sample kit has just been received at The Bulletin office, and may be examined by all who are interested in the movement.

Military men are almost unanimous in declaring that the use of tobacco is an actual benefit to the soldier, particularly when under the strain of trench warfare. A two-bit contribution sent to The Bulletin will help make one soldier happier and more contented, and by so doing may share in winning the war.
