What have you done today to help win the war?

THE Y. M. C. A.

Although the local Y. M. C. A. campaign is all over, thanks to efficient arrangements and an active committee, the following statement of the work of the association is both timely and interesting: "The Y. M. C. A. has been chosen by the government as the agent, or arm, of the nation to minister to the physical, social and moral needs of the men in the armies, together with one or two other organizations. In France there are two organizations working for the soldiers—the Red Cross and the Red Triangle of the Y. M. C. A. The former cares for the wounded. The latter cares for the walking wounded, the fighting men, the welfare work of the allied armies of France, Italy and Russia and the 6,000,000 prisoners of war—a total of 24,000,000 men in all, or an average of \$1.50 a soldier.

"The Y. M. C. A. works on broad lines. It is open alike to Jew and Gentile, to Catholic and Protestant. In France the Catholics hold their mass in the huts, the Protestants and the Jews their services. We have all inherited unhappy divisions and narrowness from the past. The war is bringing us together.

"The Y. M. C. A. seeks to evangelize, but never to proselytize. It seeks to hold every man true to his God, his own church, his own faith, his home and his own best self. Workers of all creeds are uniting under its roof to minister to the men as unofficial lay helpers. Here is an opportunity for us to present a common humanity. In these war needs of our common humanity. In these war camps we can get together on the broad platform of faith in God, in humanity and in righteousness, every man holding a right to his own creed, but keeping with all others in the face of our one common human need.

"Our men are facing great physical hardship in the 'hell' of the trenches and the moral menace of fighting in a far country removed from all the good influences of home. Can we not meet the needs of these men and provide them a home away from home? Can we not forget the mistakes and divisions of the past and face the crisis of the present and the challenge of the future? It is the biggest moral challenge which ever confronted our people."

SWEET AND FAT.

Recently the Corvallis Gazette-Times told of the food sacrifices that were being made by some of the children and college students at Corvallis. Said the G.-T.:

"If there is any one thing more than another that children like it is sweets. A few nights ago a ten-year-old lad took dinner at the writer's home. We noticed that he didn't want any butter, but presumed it was one of the vagaries of appetite and thought nothing of it. But when the dessert came around and he refused the sugar, the remark was made, 'Well, you're a queer sort for a BOY.' And the youngster replied, 'I know, but I'm saving my butter and sugar for daddy.'

"The boy was Howard Murphey and his daddy for whom he is making the sacrifice is captain of Company K. Having been in the newspaper game a considerable time, our hide is tolerably thick, but that remark, 'saving the butter and sugar for daddy,' got under it. "It got under the skin of a little six-year-old girl we know, too, who had been rather selfish about her eats, and so SHE adopted a soldier boy to save things for. She adopted Robert Boyce, calls him HER soldier, and eats corn bread that she doesn't like so that HE won't have to go without wheat.

"While distributing the Hoover cards, a pledge was left at the Kappa Sigma Nu house. The house mother said that the boys had already started their conservation plans. "There
