

FEAR FELT FOR A. L. MACKINTOSH

SAILED ON SCHOONER NOW LONG OVERDUE.

Sheep Business Took Bend Man to Alaska — Wire From Portland Holds Out Hope That Vessel May Not Have Foundered.

Fear that A. L. Mackintosh, of this city, prominent Central Oregon sheep man, and until recently commissioner in Deschutes county, may have gone down on the Joseph Pulitzer, four weeks over-due on the run from Portland to the Aleutian Islands, was expressed this morning by F. S. Stanley, president of the C. O. I. company, on his return to Bend after a business trip to Portland. Mr. Stanley talked with a number of shipping men on the waterfront just before coming back to Bend, and stated that it is the general belief that the Pulitzer must have sunk in one of the terrific ocean storms raging not long ago.

Associated with Dr. A. C. Smith, Portland banker, Mr. Mackintosh had made plans for extending his sheep business to the Aleutians, where a comparatively mild climate with abundant grazing combine to make a venture of the kind attractive. The Pulitzer, an ancient yacht, but equipped with steam power, was chartered by Dr. Smith, and Mr. Mackintosh set out for Alaska, normally a 14 days' run. A number of carpenters were taken, and sheep were left until the following voyage.

Chance For Safety Left. According to Mr. Stanley, the Pulitzer was not considered by Portland shippers as especially seaworthy, and he states that Mr. Mackintosh was warned against taking the trip in such a vessel, at this time of year.

Immediately after Mr. Stanley was interviewed this morning, a telegram was sent Dr. Smith, asking in regard to Mr. Mackintosh, a reply coming early this afternoon, as follows: "Mackintosh and schooner, Joseph Pulitzer overdue at Dutch Harbor, Alaska, but headwinds account for delay. No cause yet for alarm."

Was Here In Early Fall. Mr. Mackintosh was last in Bend early in the fall, and it was on October 11 that his informal resignation as county commissioner was made public, it being generally understood that his new business venture in the north made it impossible for him to give as much time as he thought proper to the county work. Mr. Mackintosh's official withdrawal, however, was never received by the county court, and because of this the matter of appointing a successor was delayed although a number were known to have aspirations in the direction of the commissionership.

RECORD CROWD AT MOOSE SHOW

MARDI GRAS AND CONFETTI BATTLE FEATURE OF EVENING—ADDRESS ON WAR TO BE GIVEN AT CARNIVAL TONIGHT.

All records for attendance were broken last night at the Moose carnival, and a capacity crowd is predicted for this evening when the drawing of prizes will be the chief attraction. Eleven o'clock will be the hour for this, and it is announced that individuals holding admission check numbers must be present in order to qualify. Holders of auto tickets, however, may attend in person, or by proxy.

The mardi gras, with a continuous confetti battle, was the feature of last night's program. Dancers were numerous, and many unique costumes were noted. The poultry pens attracted more than usual interest, particularly the one presided over by H. A. Gosney, dictator of the Moose lodge. Tonight, by request of the local Y. M. C. A. war fund committee, the carnival board announces that a Portland speaker will give an address on the war at 9:30 o'clock.

LAPINE ROAD TOO DRY FOR CINDER WORK

That the placing of cinders on the La Pine road before the wet weather had set in to pack the dust lying on the highway, was not succeeding in producing any sort of satisfactory result, was the statement of Frank May, engineer in charge of the road work for the county and state, this morning. As a result another method of dealing with the problem is being tried.

"The weather has been so dry and the road is so loose," said Mr. May, "that the cinders are not packing at all. It is out of the question to try to haul water onto the cinders. That would cost more than (the cinders themselves, so we are now simply hauling the cinders and leaving them in the middle of the road. Later, when we have had some moisture, we shall spread the cinders and they will pack."

Draft Leaflet Leaves Only A Few Questions Unasked

A 16-page leaflet composes the new draft questionnaire, copies of which have just been received by Sheriff Roberts and The Bulletin. On the front page the class in which the man is registered must be designated, there being five in all. Each of these is subdivided so as to cover the line of work in which the applicant for exemption is engaged, the conditions surrounding it, his family, and similar points. Following this comes a page of instructions relative to filling in the blanks, taking oaths, changing status and revocation of exemptions.

A series of general questions regarding education and willingness to attend government night schools and occupation and preference in the service come next. A column of occupations listed must be marked so that officials may know in what line a man is expert and in which he has previously been employed. Another set of questions concerns physical fitness and another is in connection

In addition to stopping all enlistments of registered men in the army after December 15, the department has ruled that men between the ages of 21 and 31 may enlist in the marine corps and navy only after showing that they cannot be caught in the second draft. The new regulations empower Secretary of War Baker to revoke the registration number and classification of any registrant.

SISTERS WILL ARRIVE SOON

HOSPITAL MANAGEMENT MAY CHANGE HANDS ON DECEMBER 3, SAYS FATHER SHEEHAN, JUST BACK FROM EAST.

If possible, five sisters of the Order of St. Joseph, of Indiana, will take over the Bend Hospital on or around December 3, according to Father Luke Sheehan, who returned this morning from a trip east to complete arrangements for the change. They will arrive early in the month, if they can get away soon enough from their present situation. Mother Javier will be Sister Superior of the institution.

Father Sheehan was gone nearly three weeks expressly for the purpose of inducing the sisters to consider taking over the hospital. He stopped in both Indianapolis and Chicago. While there he found the weather extremely cold. "One thing that impressed me," said Father Sheehan, in speaking of his trip, "was the evident lack of enthusiasm in the war. People did not seem to go at it to quite the extent I had expected. My impression was that we are taking part much more enthusiastically right here. However, the easterners did seem to be working hard on the Liberty loan."

C. O. I. CASE IN SALEM DROPPED

WILL ABANDON PROBE, SAYS COREY.

Public Service Commission Anxious to Do Nothing to Hamper Settlers — Action Can Have Little Effect, Says De Armond.

SALEM, Nov. 17.—(Special to The Bulletin.)—Commissioner Corey, of the Public Service Commission, declared today that the commission will probably abandon the investigation of the Central Oregon Irrigation Company and dismiss the case. He is doubtful as to the jurisdiction of the commission and states also that a large part of the project is likely to come under the control of the settlers in the near future because of commission's action, if such an action is taken.

The commission has no wish to hamper the plans of the settlers, Mr. Corey stated, nor to interfere with any moves which they might wish to make in taking over the project.

He said it is likely that the commission will take definite action as to whether or not to dismiss the case at a meeting to be held on Monday.

Attorney General Brown has expressed himself to members of the commission as believing that there is serious doubt as to the commission's jurisdiction, if it did attempt to take action under the complaint.

H. H. De Armond, attorney for the settlers on the C. O. I. project who are to hold an election in December for the purpose of district organization, declared this afternoon that the dropping of the case by the Public Service Commission would make practically no difference, especially if the organization is successfully carried out.

A. F. OF L. WILL ENTER POLITICS

LIFELONG NON-PARTISAN ATTITUDE ABANDONED AT CONVENTION—GOMPERS SEES PRO-GERMANISM AT WORK.

(By United Press to The Bend Bulletin.)
BUFFALO, N. Y., Nov. 17.—Voting 215 to 21, the American Federation of Labor determined today to abandon its lifelong non-partisan attitude, and actively enter American politics next year.

A plot to give organized labor's official war program a pro-German twist was uncovered this morning, President Samuel Gompers declaring that German agents are honeycombing the convention. It was definitely learned that the pro-German attack has taken a definite form in the endeavor to push through insidious resolutions originating in parts of the country to shape local labor affairs to suit its own ends. A number of resolutions decidedly pro-German were offered at the convention.
