**Student Body Dance—**

The first of the series of student body dances inaugurated at the high school this year will take place tonight at the Emblem club. The social committee composed of H. M. Grant, Miss Esther Jane Clark, Miss Helen Manney, Carol Boyd and Craig Coyner, will have charge of the arrangements. The dance will be a program affair and punch is to be served between numbers.

**Bridge Party—**

**Needlecraft Club—**

Mrs. R. W. Leonard, of Boulevard Addition, was hostess for the Needlecraft club Wednesday afternoon. The meeting was devoted to work for soldiers. A letter was read from one of the men who left this city recently, thanking the women for the comfort kits with which they supplied the boys.

**Informal Dance—**

Several neighbors of Mr. and Mrs. C. M. Rogers enjoyed an informal dance at their home Thursday night. This was followed by a buffet supper. The guests were Mr. and Mrs. McPherson, Mr. and Mrs. J. Ryan, Mr. and Mrs. C. K. Norcott, Miss Ritchie, Miss Bertha Dishon and Clara Rogers.

**Ross-Fye—**

Erna I. Fye, of The Dalles, became the bride of Earl A. Ross last Saturday at the Presbyterian parsonage, Rev. Hartranft officiating. The young couple will make their home in this city, where Mr. Ross is engaged as manager of the Penney store. Miss Fye was very popular among the younger set in The Dalles.

**MEDALS FOR BOY SCOUTS**

This is the medal which has been awarded to each Boy Scout who obtained Liberty Loan subscriptions from ten or more persons. Thousands of the lads are proudly wearing them today. Probably never before in the nation's history has the government placed the seal of the treasury department on a bronze medal to be awarded to others than soldiers and sailors in the service of the country.

**Labor Market and Women.**

There is an increasing demand in England today for well-educated and efficient women for work in various government departments, those possessing degrees in economics, mathematics and natural science being most in request, advises a correspondent. The ministry of food needs experienced accountants for expert statistical work in connection with its increasing activities. There is also a growing demand for clerical workers, shorthand writers and typists. Educated women to act as supervisors are also needed in the Women's Auxiliary Army corps. The average salaries of women employed by the government are better than they were at the beginning of the war and educated and efficient women are capable of earning at least \$15 a week without difficulty.

**The Evolution of Flour.**

The conversion of wheat into flour was one of the earliest developments of civilization, and even the primitive races in the dawn of history submitted the grain to a coarse pounding between stones. Perhaps the oldest flour "mills" in existence are the rude stones found among the remains of the ancient lake dwellings in Switzerland. By a mortar and pestle arrangement the wheat was reduced to a coarse meal. Crude as this method was, it contained the germ of the modern flour mill. For countless centuries the preparation of meal and flour was a purely domestic process.
