What have you done today to help win the war?

## SUGAR AND WHEAT.

Little by little and day by day the food necessities of the country at war are being brought home to us. At first it was general and to a certain extent vague. Now the need begins to be particular and specific. Only a few days ago we urged the careful use of sugar because of the famine existing in the east. At that time we assumed that the west was fully supplied, but on the same day in Portland the state food administrator was issuing an order that sugar be sold only in dollar packages and hotels and restaurants be allowed a 10 day supply.

That begins to bring things closer home. Lots of folks who signed the pledge and hung the food card up in the window are going to get a better idea of the meaning of their words. And if you are inclined to grumble just remember that things are likely to be worse before they are better.

Consider wheat also. We have been urged to observe wheatless days, to observe wheatandthemen to use corn meal and rye and mix other flours with white. We have not realized, however, just how far it was intended this husbanding of wheat should go. The letter printed elsewhere in this paper from Mr. Houser makes things clearer. He wants, or the Food Administration wants, no wheat used at all for feed purposes "unless in very exceptional cases." In other words, every bit of wheat possible must be used for flour.

The measure of our patriotism is the care with which we heed the Food Administration requests.

Now here's Bill Hanley with a proposition for state division. Right, with Bend as the state capital.

## Patrick's Pie Idea.

Patrick had called on his Betsy and she gave him a handsome helping of her special make of apple pie. Patrick was loud in its praise.

"I tried a new way," said Betsy, beaming. "I put a few gooseberries in to flavor it."

"Begorra!" cried Patrick. "If a few gooseberries give so good a flavor to an apple pie, what a darling of an apple pie it would be made of gooseberries entirely!"

## British Columbia Shipbuilding.

The steel steamer War Dog, the first ship of its type to be built in British Columbia, was recently launched at Vancouver. The War Dog, with a length of 315 feet, is also the first steel cargo vessel to be built in that province. The contract was placed by a Japanese steamship company through an English firm. Since the steamer was launched she has been sold to a British firm.

## Puts it Up to the Judge.

One of the city judges, who was up for re-election, made a speech in New York, and after he had touched on patriotism and the various questions of civic virtue and the keeping of a good man on the bench, he said at the close of his speech that he was ready to answer any question propounded. At this point one of the members of the club arose. "Judge," began the questioner, "there's one thing that has always bothered me, and I hope you can settle it for me so that the other members of this club will see that I am right. This is it: Does or does not a straight flush beat four of a kind under any and all circumstances?"

## Before the Explosion.

Employer—Now, don't be inquisitive I discharged my last boy for that. New Boy—Yes, sir; wot was his name and wot did you pay him and wot was he inquisitive about?—Boston Globe.

# MEMORIAL TO INVENTION OF THE TELEPHONE

Brantford, Ontario, the town where Alexander Graham Bell invented the telephone in 1874, has erected a monument to commemorate the momentous event. Doctor Bell, the duke of Devonshire, governor general of Canada, and many other notables attended the unveiling. The figures in bronze on either side of the monument represent "Humanity" sending and receiving messages. In the large bronze panel in the center "Man" is represented surrounded by a figure symbolic of "Intelligence" and three floating figures representing "Knowledge," "Joy" and "Sorrow." The memorial is the work of Walter S. Allward, a noted Canadian sculptor.

### Just a Mouthful.

Mrs. Brewster was entertaining her club and the fees were being served. Presently the hostess observed that one of her guests had eaten all of her serving of cream, whereupon she hastened to her side.  
"My dear Mrs. Glover, do let me give you some more ice cream."  
"Well, thank you, Mrs. Brewster, I will take some more, but just a mouthful, please," replied the young woman.  
"Martha," announced the hostess, "fill Mrs. Glover's plate."
