Bend in Brief

DOINGS IN YOUR CITY.  
You'll Find Them Here

WEDNESDAY.

Commercial Club luncheon, Pilot Butte Inn, noon.  
Knights of Pythias, Sather's hall, 8 p. m.

THURSDAY.

A. F. & A. M., Masonic hall, 8:00 p. m.  
Carpenters and Joiners, Lone Pine Labor Temple, 8:00 p. m.  
Catholic women's card party, O'Kane building, 8:00 p. m.

FRIDAY.

Rehearsal, Sather's hall, 8:00 p. m.  
Dance at Tumalo for Red Cross, W. O. W., Council chambers, 8:00 p. m.  
Federal Labor Union, Lone Pine Temple.

SATURDAY.

Red Men, Red Men's hall, 8:00 p. m.

At the regular meeting of the Knights of Pythias tonight second rank work will be taken up.

A baby boy was born to Mr. and Mrs. Orlea Owen King at the Pine Tree Lumber mill's camp yesterday.

Mrs. R. R. Keller and Mrs. P. B. Johnson came in from Millican today. Mrs. Keller is having her eyes treated here.

George Buri, auditor of the O-W. R. & N. company, passed yesterday in town checking in the new depot agent.

Dr. M. H. Marvin, who has been speaking at the Methodist church the past three days, returned to Portland this morning.

County Commissioner L. E. Smith went to Walla Walla today on business connected with the Tum-a-Lum Lumber company.

James F. Shirley was here yesterday from Minneapolis on business connected with a timber deal. He went out last night to Klamath Falls.

H. E. Chapman and Charles Jones, both connected with the Union Meat Company, of Portland, are in town on an inspection trip. They will leave tonight.

H. J. Overturf has been selected as one of the judges in the debate between The Dalles and Prineville high schools. He will go to the former city next Saturday.

Last Sunday a service flag was placed in the Methodist church. It bears eight stars, indicating that eight members are now in either the U. S. army or navy.

Dewey R. Matlock last night went away to join the U. S. cavalry. He came here from Iowa a few months ago and has been working in Bend. Mr. Matlock is 18 years old.

O. M. Ford and F. L. March, special agents in the car service of the O-W. R. & N. company, are in town looking over the car situation. They found everything in satisfactory condition here.

A small 12 by 14-foot room is being built on the back of Carlson & Lyons' store. Mr. Carlson plans to move into the apartment in the rear of the building and use this as one of the living rooms.

Ed. Penrose, who died yesterday at the county hospital from the effects of ptomaine poisoning and indigestion, will be buried tomorrow in Redmond. His brother from American Lake will attend the funeral.

S. Murasaki and family will leave tonight for Portland, where they will spend a week before going on to Seattle. Mr. Murasaki plans to come back to Bend on April 1 and engage in the cattle business as a broker. He recently disposed of his real estate holdings here.

In order to visit his brother, John Thordarson, of Regina, Canada, arrived here this morning and will spend a short time with F. Thordarson. The visitor is superintendent of 300 grain elevators in Canada and is touring this country while on a three months' vacation.

A bank is not merely a place where money is stored and bankers exist. It is a living, pulsing service station, with heart and soul and character. May we serve you? The First National Bank, Bend, Ore.—Adv.

Electric irons, \$5.00, guaranteed.—Adv.

AT THE HOTELS.

Pilot Butte Inn.

"Coal Savers."

Various preparations are extensively advertised in this country at present which are presumed to contribute considerably to the heating power of coal when applied in the prescribed doses, writes Consul General Robert P. Skinner, London. The director of fuel research, in answer to an inquiry as to the value of these preparations, states that these proprietary substances have been in the market a long time, but that there does not appear to be any genuine scientific evidence in support of the claims of their manufacturers. He concludes: "The nature of the substances makes it highly improbable that they have any effect whatsoever on the combustion of coal or other fuels when they are used in the quantities prescribed."

Not One Came Down.

The day was dull, as days can be dull, sometimes only in the trenches. Suddenly, high up in the sky, sailing over the lines, was discerned a flock of wild geese. In a moment, rifles were blazing upward from all quarters; even machine guns were requisitioned, while away at the other side of No Man's Land the German, too, was roused to action. But the flock of geese sailed on, their long necks outstretched and their wings rising and falling in undisturbed rhythm. And never a one came down.—Christian Science Monitor.

RED CROSS TELLS HOW TO KNIT SOCKS FOR ARMY USE (Continued from Page 1.)

needle. Knit two stitches on second heel needle, knit together third and fourth stitches by slipping and binding or by plain narrowing. In order to slip and bind take off one stitch as if to knit it but without doing so, knit the next one, with the left hand needle draw the unknit stitch over the knitted one. Where ever the fabric seems to lap toward the left it looks better to slip and bind but plain narrowing will do in every case. Knit all the way around plain and as far as the place where the first narrowing was. Narrow the third and fourth together as before and the same on the other heel needle. Continue in this way narrowing every other round until there are 17 stitches on each heel needle, 60 all the way around. Knit plain until the foot measured from the back of the heel is 8 1/2 inches long.

"Toe: Slip two stitches from each heel needle onto the instep needle. There are now 15 stitches on each heel needle and 36 on the instep needle. On the instep needle, knit two, slip and bind or narrow the third and fourth together, knit 22, narrow third and fourth from the left hand end, knit two. Next needle, knit two, slip and bind or narrow third and fourth. Knit 11 stitches. Third needle. Knit 11 stitches, narrow third and fourth from end. Knit two. You have now narrowed four times in one round. Knit two rounds plain. Make a narrowing four times in the same places as before. Knit two rounds plain. Make a narrowing round. Knit one round. Narrow every other round until there are five stitches on each heel needle and 10 on the instep. Knit around once plain and slip all the heel stitches onto one needle.

"Kitchener toe: Break off thread leaving about a foot. Thread on a bodkin of darning needle. Hold work with thread at right hand end. Pass bodkin through first stitch of front needle, from the wrong side or inside of the sock toward the right side. Pull the bodkin and thread through but leave the stitch on the knitting needle. Now on the back needle, stick the bodkin in to the first stitch

An accurate knowledge of the SCIENCE of Dentistry is indispensable to every dentist—but he is only Half Equipped who relies entirely on the knowledge gleaned from text books and imparted at college.

THE ART OF PRACTICING DENTISTRY consists of being able to do the right thing promptly and efficiently when the UNEXPECTED HAPPENS.

There are thousands of dentists who know what to do when confronted with certain conditions—do it well in most instances—but those who can think quickly and do precisely the right thing in precisely the right way in emergencies are those possessed of originality and initiative, and they are graduates of the same school

---the school of EXPERIENCE.

Even the simple operation of extracting teeth is so different when performed by the novice and the Experienced Dentist—as to vary from a laborious, torturing, disgusting spectacle—to the acme of refinement when the trained hand of the master Dentist deftly and painlessly removes an offending molar.

Our method of preparing a cavity for filling partakes of both Science and Art. The technique and routine work are fully laid down by the best Authorities nowadays—but only the EXPERIENCED are competent to do the work. It is much like giving instructions on how to paint a picture.

Root Canal fillings and treatment are so difficult that the Dentist who has mastered the Art is practically a Specialist—and there are but few competent to do this intricate work.

Knowing WHEN to fill a tooth, or crown it, is neither an art nor a science—it is merely a matter of common sense and CONSCIENCE.

Our very low prices for guaranteed Dental Work have induced many new patients to come to our office—but it was the superior service and satisfactory workmanship that made them our permanent friends and patients.

However, our prices are the least of the many reasons why people come to us for Dental work. The real reason for the growth of our practice is that OUR EXPERIENCE has made us proficient in THE ART OF PRACTICING DENTISTRY, and most of our patients would still patronize us if we charged the highest prices—instead of the most reasonable.

You never knew of a business or profession that grew year after year by chance, or by questionable methods. When a Dental Practice grows, as ours has, the qualities of success were there—even though beyond the comprehension of the ignorant and unappreciated by the envious.

The King Bee Dentists

BEND : : : OREGON

from the right side or outside of the sock. With the bodkin in the stitch, slip the stitch off the knitting needle, then stick the bodkin into the next stitch on the same back needle but from the opposite direction, that is from the inside or wrong side of the sock. Now pull the thread through both stitches but leave the second one still on the knitting needle. Leave thread very loose for the present. Now on the front needle, stick the bodkin into the first stitch from the front or right side. Using the bodkin like a knitting needle, slip this stitch off but do not draw thread through yet. Stick the bodkin into the next stitch on the same front needle but from wrong or inside of the sock. Now draw the thread through both stitches but leave the second on the knitting needle. Continue in this way, passing the thread through two stitches on each needle alternately. Always put the bodkin into the two adjacent stitches from opposite direction, the first from the right side and the second from the wrong or inside. Always take first stitch off the knitting needle and leave the second one on. The third must pass through each stitch twice except the last ones on each needle. Put your hand into the toe when all the stitches have been taken off and beginning at the beginning tighten

each stitch, one by one until it is impossible to see which stitches were made with the bodkin. Fasten by darning about an inch up and down, but never across."

CARD OF THANKS.

To T. H. Foley, H. J. Overturf, R. M. Smith and A. Whisman for the efficient service rendered in making our recent drive for the K. of C. War Camp Fund, such a big success, also the public, who so liberally supported the cause.  
KNIGHTS OF COLUMBUS WAR FUND COMMITTEE.

The Catholic ladies will give a card party Thursday evening, January 24, at 8 o'clock in the room formerly occupied by Bennett's grocery in the O'Kane building. 40,41c

THE MANX-MAN IS COMING!

Crepe de Chine Blouses at \$2.48 and \$3.95

Colors are Flesh, Peach, Maize, White. We bought these Waists for the holiday trade, but the maker could not get them out in time. They just arrived today—and we think we are fortunate to get them at all—you'll think so too when you see them. They are really wonderful values. You can save enough on any one of them to buy several War Savings Stamps and Help Win the War.
