"Keep The Home Fires Burning"

But You Must Have The HOME First

Right there is where we come in--HOME BUILDERS. We are here to help you plan your home, advise you where you can make saving short-cuts, where the cheaper grades of lumber can be used to advantage, offer you advice as to financing, and help you solve any of your building problems.

Taking All Things Into Consideration, Lumber is Cheaper Today Than It Ever Was.

With the rising cost of all other products and materials, labor and supplies, lumber has had to advance SOME. We are doing our bit for you people here at home by keeping the price as low as possible. Do not delay building because you think the price is high. Come in and talk it over with us and let us show you that it is not as high as it was two years ago. On the contrary, it is approximately 25% lower.
