**AT THE MOVIES**

**LIBERTY.**  
"America's Answer," the second United States official war picture, will be seen at the Liberty theatre next week.

The picture is assembled from 30,000 feet of film taken by the U. S. signal corps, A. E. F., by order of General Pershing and under the direction of the general staff. It is exhibited by the division of films of the committee on public information through the World Film corporation.

Beginning in flaming words symbolizing the spirit of the nation at war, the picture shows in intimate detail the physical forces of men, munitions and vast constructions that made America's response the practical, powerful thing it is on the fields of France. The purpose of the picture is to set before Americans "Over Here" what Americans "Over There" are doing, and to bring the war as a living, familiar fact home to those who fought it on this side of the Atlantic, so that they may more actively realize their part in it. For accomplishing this purpose "America's Answer" is competent. Not a man or woman who views the picture can fail to feel the pull of the war, the urging of its influence and the sense of participation in it.

The success of "America's Answer" and its popularity as an exhibition is due to its vivid pictures of Americans at their war work in France. The picture takes Americans across the ocean and shows what is being done over there, not only by the men who fight, but by those who build bridges and railroads and big plants, by those who cut down trees and assemble locomotives and send supplies to those at the front, and by those who minister to the needs of the fighting men.

**IT PAYS TO READ ADVERTISEMENTS**

You've often heard the saying, "It pays to advertise." That is true. And it also pays to read advertisements—pays you. If you read advertisements consistently for any length of time you will agree that this statement is also true.

**It pays you in money saved.** There are many real bargains offered from time to time in the advertisements appearing in this paper. Watch for them.

**It pays you in satisfaction.** When a merchant asks you to come to his store he obligates himself to sell you quality goods "as advertised." You have a right to expect satisfaction from what you buy and you get it.

**It pays you in time saved.** When you know exactly what you want to buy and where you want to buy it, you don't have to "look around" and waste time finding it.

Don't you want to save money and time? Wouldn't you like to be sure of getting satisfactory service and quality goods every time you go to a store? Then read the advertisements and patronize the stores which can serve you best.
