FARM ROADS.

The unanimity of opinion in favor of an issue of road bonds by the county, as expressed at Wednesday's meeting at Redmond, presages a good vote in favor of the proposition when it appears on the ballot. Farmers, business men and big taxpayers, all are agreed that a bond issue would be desirable as a means of insuring the greatest amount of state aid on our through highways and are ready to vote for one.

In pledging their votes, however, the farmers have insisted that a goodly percentage of the fund be used on market roads, that is, roads which the farmer will travel in getting from the ranch to the town, and in our opinion they are entitled to this aid. We are not planning our roads for tourist travel alone. Business interests must be considered and the business of farming is a most important interest.

We are fortunate in having the through roads on which we can expect state aid coincide in a large measure with the market roads which the farmer will use. There are, however, roads in two or three sections which are not included in any state program. For these we should make a program of our own and see to it that the farmer is taken care of along with the tourist.

Remember that your income tax report must be in by March 15 and that your taxes must be paid by April 5. After that nothing to do until October.

Our fire department has a good start.

TELLS HOW TO MAKE TANK.

The Bend Bulletin:
I think that the health committee is working on the right track toward making Bend a better and more healthful place to live in.

The idea that modern sanitary equipment is very expensive accounts for a large share of those 500 open water closets spoken of a few days ago in The Bulletin. Mr. Minter went at it in his do or die way and found out that plumbing and installation can be done at a very moderate figure, but from there on I think the health committee is making a mistake by advocating the disposal of the refuse by simply digging a deep hole in the ground that would be bound to fill up in time. There are only two successful ways of handling this waste—through sewers or a properly constructed septic tank. A properly built septic tank will last a lifetime and is the most in-

expensive part of the system. It doesn't take any longer to dig the hole than it does for a water closet. With a man to help I built mine complete, in one-half day.

We used 600 brick, one-half barrel of lime, one-half barrel of cement, for the cover; a barrel of sand, a barrel of gravel and five feet of soil pipe. In most soils the overflow can be taken care of by an under drain made of boards.

Architect L. A. Thomas has volunteered to furnish plans free of cost for this kind of work.

Yours for a cleaner city,
A. H. HORN.

H. G. Wells brought back with him from the Balkans—he explored the Balkans before the war—a pair of Bulgarian boots, which he sometimes wears in the privacy of his Sussex home.

Joseph Conrad visited Mr. Wells recently and found him attired in these boots.

Mr. Conrad studied the boots a long time, for they were remarkable—of soft red leather, the toes pointed and curled up, the fronts emboldened with gold thread and strips of white fur about the tops.

"In heaven's name, Wells," said Mr. Conrad, "where did you get those boots?"

Mr. Wells, coloring a little, thrust his feet beneath his chair.

"I bought them," he confessed, "in Bulgaria."

"Ha, ha, ha!" laughed Mr. Conrad. "I've heard a lot about Bulgarian atrocities, but I never expected to come across a pair of them in Sussex."

All He Wanted to Do.
When David Jackson, negro, of Brooklyn, was arrested for failing to register in the draft, he resented the remarks of officials who were convinced he was trying to avoid service. At indictment having been returned, he was arraigned before the United States district court. "Ah can fight any ten Germans you pick out. Just hold up the first ten Huns that come along here, and Ah'll show you what Ah can do. Ah'll lick them one at a time or all together, and not even use a gun."

"Do you want to go into the army?" asked Judge Garvin.

"Ah sure do," replied Jackson.

"Why didn't you register?"

"Oh, Ah know nothin' about your tussle old laws," said the negro. "Ah Ah want to do is fight."
