### MAY DAY WALKOUTS MAKE TROUBLE.

### TO STIFLE VIOLENCE

Efforts Being Made to Persuade Strikers to Return—Building Trades Chiefly Affected—Many Out in St. Paul.

(By United Press to The Bend Bulletin.) CHICAGO, May 2.—Many big cities of the central west are now struggling to solve their problems of unrest, made more serious by May day walkouts and radical disturbances throughout the country. Authorities everywhere are prepared to stifle any efforts at violence such as those at Cleveland yesterday wherever they may occur.

The government and local conciliators are trying to induce strikers now out to return to work.

Of those striking the greater number are probably building and structural workers. In Minneapolis and St. Paul from four to five thousand carpenters are out, demanding more wages.

Six thousand building tradesmen and laborers are striking in Des Moines.

In St. Louis the street car situation is still serious and transportation is greatly handicapped.

Sixteen Detroit plants have reported strikes, several thousand men dropping their tools and walking out.

## EMBLEM CLUB TO OWN HOME

### \$5,300 IS PAID FOR NEW HOLDINGS.

T. A. McCann is Named Trustee—Plans Will be Made for Improvement of Buildings—Cheney Gives Equity.

The Emblem club, under its reorganization, today purchased from D. E. Hunter, of The Bend Company, the grounds and building of the former Emblem club. It is understood that the price paid was \$5,300. T. A. McCann is named trustee for the new club.

In the purchase of this property the offer of W. D. Cheney, made recently, that if the club were reorganized and made operative again he would be willing to turn over his equity in the property, gratis, to the new organization.

Speaking of the future of the Emblem club, H. J. Overturf, recently elected president, said that it was yet too early to make a statement regarding the plans for the improvement of the property, but that as soon as the board of directors could meet the matter would be taken up for full consideration. As to the matter of membership, a committee is now working on that detail. All former members of the club are to be given an opportunity to join. After that has been determined, it is likely that the club will be one of limited membership.

As to the character of the club, Mr. Overturf said it was designed to make the Emblem club purely social in character and to carry it along lines similar to those which made it a feature under W. D. Cheney, of Seattle, its father.

The property has wonderful possibilities for an organization of this character and an effort will be made to make the most of these possibilities.

Public Health Advancement to Be Undertaken—Chapter Considers Activity Which May Later Be Taken By County.

Plans for public health nursing activity were considered by the executive committee of the Red Cross at the monthly meeting last night and a vote passed to the effect that the committee considered this one of the most important pieces of work now to be undertaken by the chapter.

As outlined by Red Cross headquarters the plan is to have the local chapter start this work in each county and by demonstrating its value make it possible to obtain public aid to carry it on. This point was brought out by Mrs. H. M. Horton, one of the Bend delegates to the recent Red Cross conference in Seattle, in her report on the meeting.

The ultimate achievements for the public health nursing service in a community are, Mrs. Horton said, the following:

"That every sick person desiring the service of a nurse shall have it on a visit basis.

"That pre-natal instruction and advice be given in every case where desired.

"That every new born baby be inspected, and the mother, where necessary, be instructed in its care.

"That every child of less than school age be examined at least once a year and an attempt made to have each child requiring special attention treated by a physician or a dentist.

"That every school child shall undergo a physical examination at least once a year.

"That all cases of tuberculosis be discovered and given nursing care." Other matters discussed at last night's meeting were the peace time work of the Junior Red Cross and the activity of the Home Service section.
