### HUN ASSEMBLY BACKS SCHEIDMANN.

## PRESIDENT IS SCORED

### Chancellor Declares Promises of American Executive Have Failed to Materialize—Delegates to Be Ordered Not to Sign.

(By United Press to The Bend Bulletin.)  
BERLIN, May 13.—"This peace is not acceptable," Chancellor Scheidmann declared yesterday in a speech before the national assembly. At his statement the audience rose as one man, cheering enthusiastically for several minutes. "We are willing to sign a peace, but only one which we can fulfill—one allowing us to work off and pay what is just," he continued.

"We will not fight. We want peace. We see with a shudder what brutal militarism leads to, from the example set by the entente. We want to save the naked life of the country and of its people.

"We are not able to compare the peace terms which have been submitted to us, with President Wilson's program. The world is shorn of its illusion, and Wilson's picture as a savior of peace, has faded.

"According to the terms of the treaty Germany has ceased to exist abroad. Who, as an honest man, would be able to sign such a treaty? None."

### WILL NOT SIGN TREATY.

BERLIN, May 13.—The Berlin correspondent of the National Zeitung, reported that Chancellor Scheidmann had informed the journalists of the capital that the German government will order its delegates not to sign the treaty in its present form.

The strongest opposition to the treaty appears to be in the eastern provinces, especially those of West Prussia and East Prussia. Thousands of telegrams were received here from those districts threatening armed resistance if the government accepts the article which provides for ceding land to Poland which would separate purely German territory in East Prussia.

The radicals declare that the treaty must be signed, and that world socialists will revise its terms later.

## PACKING PROBE IS THREATENED

### KENYON TO URGE AN INVESTIGATION.

### National Consumers' League Charges Meat Shortage at Home Is Result of Maintenance of Huge Surplus in Europe.

(By United Press to The Bend Bulletin.)  
WASHINGTON, D. C., May 13.—The sending of surplus meat supplies abroad, thus saving losses to the big packers, has brought sharp expressions of dissatisfaction from many quarters. Senator Kenyon of Iowa declared today his intention of investigating the war department's part in the deal by means of a senate resolution.

The National Consumers' league, of which Secretary of War Baker is president, is aroused by the war department's action. A statement today from the league's headquarters said that never has there been a time in the history of the nation when there has been so little meat sold to the poor working people as during the last year.

In the meantime, the war department has begun its efforts to sell 265,000,000 pounds of meat through Hoover's foreign relief commission.

## \$13,000,000 IS ASKED BY SALVATION ARMY

### Campaign Will Be for Funds to Be Used in War Service Work at Home and Overseas.

NEW YORK, May 13.—Salvation army forces over the country are mobilizing for their \$13,000,000 fund today. The campaign, which is to mark the passing of the time honored tambourine, will be on from May 19 to 26. The funds secured are to be used in work "over here" as well as for the overseas service.

In every city in the land, churches, municipal authorities and independent organizations will assist in the drive. Officials from President Wilson and General Pershing, governors of the several states, down to the American doughboy, have added their appeal to that of the Salvation Army lassie, that the fund be over subscribed.

The campaign slogan, "A man may be down, but he's never out," furnished Frederick Duncan, celebrated artist, the theme for an effective lithograph which is being used over the country in advertising the campaign.

While the Salvation Army girl with her coffee pot and doughnut bag was the most popular American girl in France with the doughboys, the same girl, armed with telegraph blanks, is even more popular with the same doughboy when he sets his foot on Hoboken pier.

More than 1800 messages are sent free of charge to homes over the country by the Salvation Army every day. Chocolate, cigarettes and refreshments make no appeal to the soldier when a message home is in view.

It is to carry on this work among returning soldiers, as well as work among the nation's poor and unfortunate, that the \$13,000,000 is being raised.

BRUSSELS, May 13.—Escorted by honor guards of British and Belgian troops, the body of Edith Cavell, heroic English nurse who was murdered by the Germans, was removed from the city where she faced a Prussian firing squad in 1915.

There were many bands and thousands of spectators as the cortege passed through the streets that had seen the Germans strut as conquerors in 1914, and sink away defeated in 1918.

Flags flew at half mast. The funeral service of the Church of England was read at the railway station, after which the body was placed on board a special train bound for Ostend, where a British warship was waiting to carry the remains to England.

Birdsall of this city urged today that recommendations be made at once to the state highway commission to insure the proper amount of equipment of this kind being sent here.

## NATION'S PINE IS GOING FAST

### BROAD PROGRAM TO STEM TIDE OF DESTRUCTION IS CALLED FOR BY CHIEF FORESTER OF UNITED STATES.

(By United Press to The Bend Bulletin.)  
WASHINGTON, D. C., May 13.—Branding the lack of a national forest policy as one of the greatest dangers facing the country today, Col. Henry S. Graves, chief forester of the United States and a vice president of the American Forestry association, called for a broad program that includes private as well as public forests.

"We have hardly begun to stem the tide of forest destruction," says Colonel Graves in calling attention to these facts.

The bulk of the original supplies of yellow pine in the south will be exhausted in 10 years.

Within the next five to seven years more than 3000 lumber manufacturing plants in the south will go out of existence.

Douglas fir is now being shipped from the Pacific coast states to New England, once self-supporting in lumber.

The forests of the battle areas in France and Belgium have been destroyed. In England about 450,000 acres of forest were cut down for war-time needs. The American Forestry association has provided a fund for helping England reforest this area and is calling upon the people of this country to aid in reforesting France, Belgium and Italy. Those countries, the American Forestry association pointed out, should be a great lesson to the United States. The American need of forest conservation is great and the future welfare of many industries depends on it.

### ULTIMATUM ISSUED BY UNION.

### MONDAY IS DATE SET

### Washington, California and Nevada to Be Asked to Cooperate Against Strikebreakers.

(By United Press to The Bend Bulletin.)  
OAKLAND, May 13.—Telephone and electrical service throughout Oregon, Washington, California and Nevada, will be interrupted Monday by a strike of 18,000 electrical workers unless the demand of the telephone girls for an increase of wages is granted, according to an ultimatum issued today.

The girls' demands were submitted several weeks ago but received no consideration, according to the officials of the union.

The telephone girls will ask the union waitresses and chauffeurs to aid them in their strike, which is scheduled to begin Monday. The waitresses will be asked to refuse to serve food to strikebreakers, and auto drivers will be requested to refuse to transport them to and from work.

It is estimated that 10,000 operators and 8000 electrical workers in the four states will walk out Monday.

At the time that the news of the impending strike was received here, Local Manager J. L. Gaither, of the telephone company, was out of the city, but inquiry revealed that Bend telephone employes have probably made no plans for joining in the walkout.

## EARLY SETTLER SAW NO CHANCE FOR CITY

### C. E. Parker, Land Owner Here Up to 1904, Foresaw No Development for Half a Century.

Although once the owner of the land on which a part of Bend now stands, C. E. Parker had no idea that a city would take the place of his ranch for 50 years at least, he told Fred Lockley, special writer for the Oregon Journal, according to a story appearing in the Portland publication.

"I used to own the land on which Bend is now situated," Mr. Parker said. "On October 23, 1904, I was married, and so far as I know this was the first marriage that took place on the site of the present city of Bend. I sold my place because I didn't imagine that there would be a city there for 50 years, but I was mistaken."
