**LOCAL BRICK
IS IN DEMAND**

**A. H. HORN EXPECTS ORDERS
THIS YEAR WILL COMPEL
HIM TO BURN MORE THAN
THREE MILLION BRICK.**

The Bend Brick & Lumber company will have its record run this year, according to A. H. Horn, who now has more than 15 men busily engaged in pushing the brick production for the many new orders which have come in for new buildings in Bend, Redmond and Prineville.

Mr. Horn says that before the season is over he will have produced more than 3,000,000 brick, which is an output far in excess of any of the former years. The building activity locally is largely responsible for the heavy production.

The following orders have been placed with the Bend Brick & Lumber Co.:

Kenwood school, 200,000; Sather-Hudson building, 90,000; O'Donnell building, 140,000; City of Bend, for fire station, 75,000; Deschutes garage, 160,000; First National Bank of Redmond, 80,000. It is expected that the order for the new Catholic church will reach 200,000. Two buildings in Prineville, for which Mr. Horn has orders, are to be erected of brick.

The present program will keep the brickyard force busy until in November.

National Anthems.

"The Star-Spangled Banner" is now regarded as our national anthem; that of England, "God Save the King;" France, "The Marseillaise." The other allies apparently have no distinguishing title for their national airs. The national air of Italy is known to us simply as the "Italian National Hymn" and that of Portugal as the "National Air of Portugal," etc.

Corked!

A nervous old lady, on getting into a train, discovered that a horrid man with a gun was in the corner seat. "I hope that thing is not loaded," she said. "Yes, ma'am, it is," said the man. "However, I will insert this cork in the muzzle. There! quite safe now."

Daily Thought.

Silence is more eloquent than words.
—Carlyle.

**WITH THE BUYERS
AND BUILDERS**

Miss Terese Benson is building a neat five-room bungalow on lot 2, block 7, Park addition. It will cost approximately \$3,000.

C. J. Monohan is building a modern five room bungalow, to cost approximately \$2500 in Park addition.

E. V. Anderson is building a small house on his property at 72 Gilchrist.

The Bend Brick & Lumber company is delivering brick today to the sites of the O'Donnell building and the Hudson and Sather building. Practically all of the excavation work has been completed on the former building and laying the foundation will begin early next week.

J. C. Rhodes has purchased the residence formerly owned by J. W. Skuse, formerly of the Skuse Hardware company of this city, now of Spokane.

Alcohol From Molasses.

Several large concerns are making alcohol from cheap molasses brought from the West Indies. This molasses, which is unestable, is known as "black strap." The internal revenue chemists have been able, however, to ferment it and to obtain not only alcohol but to so use the residue that they get glycerin.

Four lots of "black strap" of 1,000 gallons each subjected to the new process turned out a very excellent quality of glycerin. There are 100 gallons of this clear dynamite glycerin, as it is called, now on exhibition in the treasury department. Samples of it treated with nitric acid by a well-known firm of explosive makers, at the request of the government, produced as good a nitro-glycerin as the market affords.

Nitro-glycerin when incorporated with pulp or other inert substance becomes dynamite. Thus out of the simple sweets of the sugar bowl comes forth the strength which will rend the rock.

Large Market for Rabbit Skins.

There is a market for rabbit skins. Before the recent war an enormous trade was carried on abroad. It is said that Great Britain and Ireland alone produced about thirty million skins annually. Most rabbit skins are sold in bales, by weight, the fur from them being used for felting purposes, and the skins for making glue. The war interrupted the importations from Europe and Australia to such an extent that the price has greatly increased. The better skins are sold by the dozen. When dressed they become the "coney" of the fur trade, often sold under fanciful names. American breeders are raising all kinds of rabbits that produce the best "coney" of the fur show.

**GARAGE WILL
LET CONTRACT**

**NEW BRICK STRUCTURE TO BE
ERECTED ON BOND STREET
AND FRANKLIN AVENUE—TO
BE MODERN STRUCTURE.**

The Deschutes Garage company expects to begin construction on its new garage at the corner of Franklin avenue and Bond street Monday. This new garage will be one of the most modern in Central Oregon and will be equipped with rest rooms, accessory room and large repair shop. The work will be rushed so that the company may occupy the premises as soon as possible.

**RYAN & CO. BUYS
WEST SIDE LAND**

**120 Acres Are Purchased From A.
P. Morrill—Will Sub-Divide
Tract in City Lots.**

J. Ryan and Company this week purchased 120 acres of land lying south and contiguous to Kenwood gardens on the west side of the river. This strip of land was formerly owned by A. D. Morrill of Gaston, Oregon. The deal was consummated early this week when Mr. Morrill was in the city. The price paid for the land, it is understood, was \$3500.

It is the intention of Mr. Ryan to soon subdivide this property into lots which will later be placed upon the market. Mr. Ryan has confidence in the future development of the land on the west side of the river.

No Mystery About Them.

Poets are fond of alluding to the picturesque tradition that pearls are made from the dew of heaven, but the fact of the matter is that those milky balls just merely represent the efforts of the oyster to cover up an annoying grain of sand and render it less irritating.

Chromatic Scales.

There are two forms of chromatic scale. The harmonic chromatic and the melodic form as well. The difference is purely theoretical. They are both played in the same way. It is a question of notation. One calls a note D flat and the other C sharp.

Figure it out!

Washwoman 4 1/2 hrs. @ 40¢	\$1.80
Car fare	.12
