Make all checks and orders payable to The Bend Bulletin.

SATURDAY, AUGUST 30, 1919.

FUNDS FOR IRRIGATION.

Granting that the Benham Falls reservoir site is found to be suitable for water storage, there remains, before irrigation work can proceed, the question of the necessary funds. This we have pointed out several times in connection with the Mondell bill now before congress, urging that every legitimate influence be used to obtain votes for this measure. That it needs help seems to be generally conceded, in spite of reports that sentiment in its favor is growing, and it may be that with all that can be done there will still be insufficient votes to carry it through.

Under these conditions it would be well for those interested in irrigation in this section to give some thought to the possibility of obtaining an appropriation for general reclamation purposes, as recently suggested in news dispatches from Washington. The Mondell bill, it must be remembered, is a soldier land settlement bill. Under it reclamation will proceed as an incident to providing farm homes for soldiers, just as after the Civil war the homestead law was enacted to bring about settlement of the western lands and give homes to soldiers. As a bill for soldier aid the measure is open to attack on various grounds ranging from argument that the soldier does not need such aid to questions why he should not be set up in the hardware business, for instance, as well as in farming. And this will be its weakness in congress.

On the other hand, appropriations for general reclamation purposes will not be open to such attacks and conceivably would have easier sledding. The reclamation fund is now in need of replenishment, and reports are that even though the Mondell bill is passed, there will be need for funds for areas not suitable for use under that bill.

With "Nick" Sinnott chairman of the public lands committee in the house and Senator McNary at the head of the senate irrigation committee we are in position to get aid of one sort or another, and we should not let the opportunity slip.

Not Meant for Household Pets.

If taken young the grizzly is easy enough to handle, for at birth he weighs only from 10 to 20 ounces and is about the size of a full-grown chipmunk. Later the bears run between 350 and 600 pounds in weight, although they have been known to reach 1,500 pounds. This, of course, makes the domestication of grizzlies by apartment house dwellers difficult.

Put it in The Bulletin.

At the Churches

Christian Science Society.

The Christian Science Society will hold services on Sunday at 11:00 a. m. The subject will be, "Christ Jesus." The place of meeting is at 418 Bond street.

Presbyterian Church.

A treat of rare variety awaits the church-going people of Bend next Sunday at the Presbyterian church. Dr. Elwood P. Lyon, of Pasadena, Cal., will speak in the morning and in the evening. At 11:00 o'clock his subject will be "Jude's Certain Men." In this discussion he will find the characteristics of many who live in Bend at the present time. At the evening Christian Endeavor at 7:00 o'clock he will speak to a union meeting of the two societies. This meeting is open to all. At 8:00 o'clock he will speak from the theme, "What Is Your Grade?" This ought to appeal to young and old alike. Do not miss these splendid lectures, for there is no telling when Bend will hear Dr. Lyon again; and this will be his last appearance at this time.

H. C. HARTRANFT, Pastor.

Scandinavian-Lutheran.

Rev. Frederick A. T. Corneliusson the pastor of the "Scandinavian Lutheran Church"—will preach Sunday morning at 11 o'clock and in the evening at 8:00 p. m. Lots of music and songs. All are welcome. The Sunday school will meet at 1 o'clock—and the pastor will give a lecture to the children. The parents is also welcome. Please send your children. We extend a cordial invitation to all interested in the Sunday school work and the church welfare.

OREGON MAN TELLS STORY OF PRISON

Hillsboro Boy, Attacked "Hard Boiled" Smith, and Was Acquitted by Court Martial.

[By United Press to The Bend Bulletin.]

HILLSBORO, Aug. 30.—"They call me 'hard boiled,' and I am." Grant Dorland, who has just returned from overseas credits Lieutenant "Hard Boiled" Smith with that statement in France. Dorland is another veteran who has publicly gone on record with the statement that all soldiers who came in contact with Smith despised him. He says he has heard at least 50 returned soldiers say they would like to get "just one swing at Hard Boiled."

Dorland was a guard at a military prison not far from Paris. "Smith asked me, one day, for a list of prisoners," said Dorland. "A photograph of a young lady fell to the ground when I brought out the list. Smith beat me to it and tore it to pieces." Dorland forgot it was a case of officer and man. It was just a case of Man with him then. He cracked Smith with his rifle butt, between the eyes. Of course he was court martialed, but the officer who tried the private probably carried pictures of their own. They held that Smith had transcended his authority and freed Dorland. The girl, whose picture was insulted by "Hard Boiled" is now the wife of Dorland.

Put it in "THE BULLETIN."

SNOW FLAKE SODAS

For All Outdoors

A package of Snow Flakes is a friend in need. Always fresh, crisp, easy to pack and satisfying. They taste good with everything else. Your grocer can supply you.

FIRESTONE CONTINUES ADVICE ON MOTOR CAR AND TIRE CARE

This is the second of a series of Firestone tire talks. It concerns "The Application of Tires" and "Handling of Inner Tubes." The careful application of tires is quite as necessary as the choice of the correct type. Especially should the best adaption of tire to rim be made a subject of concern. Before applying a tire all rust and other foreign matter should be carefully removed from the rim. If rust has formed on the rim it will cause trouble at some later time, apart from the corroding influence of the rust. If tires have been driven de-

HERE'S the quality bread. Only the purest and most costly ingredients enter into it—finest patent flour, rich milk, sugar, pure shortening, best yeast. It means the most nutrition, wholesomeness and flavor. Say FRANZ

they pull together, the progress and prosperity is certain to come.

IF they listen to preachers of class hatred there can only be failure as a result.

THE SHEVLIN-HIXON COMPANY

instance, clincher, quick detachable, clincher or straight side. Valves in Firestone tubes are equipped with a universal spreader, and therefore are suitable for use in all three types.

Dust Inside of Case.

Dust the inside of the case and the inner tube with powdered mica or talc. This will reduce friction and prevent adhesion of the tube to the case after they have been heated in service.

When the tires have been removed for some reason it is a good idea, when reapplying, to reverse them—that is to place the worn sides of the tires toward the car. It is not very generally known, though it is a fact, that almost all of the side wear on a tire occurs on the outside; that is on the side away from the car.

Use Filler Beads.

I said that the tire and rim should be suited to each other. If straight side tires are to be used on clincher rims filler beads ought to be fitted in the rim clincher to keep the side walls of the casings from being chafed and gouged. To avoid as much as possible the tendency of straight side tubes to lift up from the rims at the inner edges of cables and in this way permit a rolling motion sideways, it is advisable to have more spread between the cables than is needed for beads of the clincher variety.

The best way, therefore, to use straight side tires on clincher rims is not to use them at all. The two types don't mix.

Concluding this subject, the importance of using flaps should not be overlooked. Whether clincher or

Seven Reasons Why There Should Be An Electric Range in Every Bend Home.

- 1st—Saving of time, labor and fuel.
- 2nd—Meats, vegetables and other foods retain natural flavors when cooked on an ELECTRIC RANGE that are otherwise lost in vapors when subjected to uneven heats produced by wood, coal or gas ranges.
- 3rd—Get out of bed, turn the button and breakfast is started while you are dressing.
- 4th—No dirt, no ashes, Mother's work is easier and her disposition is happier and her days are longer.
- 5th—A blessing when days are hot; cook on an Electric Range and you do not realize there is any heat in your kitchen.
- 6th—Very low rates maintained by the Bend Water, Light & Power Co. put all the comforts of the ELECTRIC RANGE in reach of all.
- 7th—Cleanliness, ease, comfort and the fact that Mother's burdens are lightened should be the main reasons for an Electric Range.
