

PRESIDENT READY FOR A FINISH FIGHT OVER TREATY RESERVATIONS

Tremendous Ovation Given in Colorado, State of Senator Favoring Reservations

SAYS HYPHENS ARE KNIVES USED AGAINST PEACE PACT

League of Nations Guarantee Against War, Declares President, Asserting That the Children Are His Clients—'You're God's Chosen Spokesman,' Cries Woman Above Applause of Crowd.

[By United Press to The Bend Bulletin.]

DENVER, Sept. 25.—Avowedly ready for a finish fight on the treaty ratification, President Wilson today carried the fight into Colorado, the state of Senator Thomas, who has just declared for the reservations to the peace pact.

The president declares that the fight is centering about Article 10, which he regards as the heart of the document. It is considered that he issued a challenge, when at Cheyenne he declared that he, as president, would regard the treaty rejected if congress adopted the proposed reservations to Article 10.

The reservation stipulates that the United States assume no obligation to execute any of the provisions of the article, and that the United States will not use troops under any article, without the consent of congress.

'Hyphens are the knives that are being stuck into this document,' President Wilson charged today in his speech demanding the acceptance of the treaty. Emphatically he alleged that 'outside of our legislative halls,' the only organized opposition to the treaty comes from the same forces as those favoring Germany during the war.

'There is no question of reservation, or amendments to the treaty,' he said. 'The issue is, flatly, acceptance or rejection, and acceptance means insurance against war.' A tremendous demonstration was given when he said that he is under bond to the wives and sweethearts of America to do all possible to prevent another war.

'The children are my clients,' he cried, and added that the league of nations is 98 per cent. insurance against another war.

A demonstration which continued for several minutes, with people jumping up and down on their chairs, broke out when the president said that he believed he had the support of the people of the United States.

Shouts of 'You bet, Woodrow, we're with you, old boy' filled the air. Cheers subsided, and then broke out afresh. 'You're God's chosen spokesman, thank God,' shouted a woman in the audience.

If America stays out of the treaty, this country must have the largest army in the world, with huge taxes, universal conscription, and a military government, 'because you can't run such a machine with a debating society,' declared the president.

ENFORCEMENT CLAUSES IN LEAGUE AGREEMENT SHOWN

Enforcement measures which may be taken by nation members of the league of nations in disciplining members who fail to live up to their agreements are taken up in today's 'Covenant Letter.' The discussion is started under the subject:

Sanctions Behind Obligations.

The world war has brought home the need of having behind international obligations a sanction that shall make them a binding force, instead of mere honorable engagements. Without Articles X and XVI the League would be no more than an agreement on the part of the members that they would do right, with no compulsion for those that broke faith. These articles make it a real association to maintain and enforce peace.

The two articles must be read together. To a large extent they cover the same ground, and provide for the same contingency. Article XVI declaring in part how the obligations of Article X are to be carried out; and yet they do not wholly coincide. Cases may arise which bring one of them into effect, but do not touch the other. If, for example, an arbitral award, let us say on a question of ill treatment of citizens, is made in favor of one nation with which the other fails to comply, the first may compel compliance, attack the

AMENDMENT TO SINNOTT BILL IS SUPPORTED

MILL MEN IN FAVOR OF CHANGE.

SCENIC VALUES BIG

Exchange of Timbered Areas by Private Owners for Government Stumpage Would Preserve Natural Beauty Spots.

Changes in the Sinnott bill introduced in the House on September 8, which provides in its present form for exchange of privately owned cut over land for government stumpage, will be warmly supported by officials of the local mill companies insofar as they aim toward the preservation of private timber at certain points where logging would detract from what are now great scenic values.

This developed today when T. A. McCann, general manager of The Shevlin-Hixon Company interests here, stated that he would favor an amendment to the bill which would allow for the exchange of privately owned timbered tracts, as well as logged off areas, for national forest stumpage. Especial reference was had to such districts as Tumalo canyon, a strip to the north of the canyon through which the road to Broken Top runs, and the timber immediately surrounding Benham Falls.

Exchange Plan Liked.

J. P. Keys, general manager of the Brooks-Scanlon interests in Central Oregon, declared that he considered it would be a most excellent thing to make possible an exchange of timbered land for timber in the manner outlined, and M. J. Scanlon, vice-president of the company, who has been spending several days in and near Bend, expressed his approval of such an amendment to the Sinnott bill.

In discussing suggestions previously made that narrow strips of timber be left lining state highways passing through wooded areas, Mr. Scanlon was not so certain that this would be feasible. He declared that the timber is like the Indian, in that it does not get along well with civilization. Isolated patches of pine quickly die out, and because of this it has been found more practicable when cutting off any large acreage, to make a clean sweep, he said.

OLCOTT STANDS FOR MEMORIAL

OREGON GOVERNOR ISSUES STATEMENT ENDORSING PURPOSES ANNOUNCED BY THE ROOSEVELT ASSOCIATION.

[By United Press to The Bend Bulletin.]

SALEM, Sept. 25.—Governor Olcott has issued the following statement in which he endorses the purpose of the Roosevelt Memorial Association, which is planning to receive contributions from the citizens of Oregon during the week of October 26 to 27 in conjunction with the nation-wide movement for the erection of a fitting national memorial in honor of Theodore Roosevelt:

'It appears to me that this movement is one worthy of our keenest support. A high standard of American citizenship has been largely maintained because of the splendid examples which have been continually before the youth of our land in the citizens who have been prominent in national affairs from the earliest beginning of our nation. The name of Theodore Roosevelt, I firmly feel, will last as long as American History lasts. His ruling passion was to be an American and he stood for what was highest in American ideals. Such a life as his is the kind of life to which I referred when I said that our citizenship had been maintained to a high standard largely through the examples which have been held up to our youth. For that reason I believe your project is worthy of the greatest consideration. The proper kind of a memorial will not only be a fitting tribute to the memory of one of our great Americans, but will assist in passing on to generations to come the benefit of the example which he has held out in both his words and in his deeds. Oregon had a warm place in the heart of Theodore Roosevelt and I am certain that Oregon will help to make your plan for a national memorial the success that it should be.'

'Very sincerely yours,
'BEN W. OLCOTT,
'Governor.'
