

MIDGET KERR IS BEST BET FOR GLEASON

LETS REDS OFF WITH 3-0 DEFEAT.

ALLOWS THREE HITS

Final Score Is Chalked Up in Fourth Inning—Error by Fisher Permits Two to Score Later on One-Base Hit.

[By United Press to The Bend Bulletin.]

CHICAGO, Oct. 3.—Hats off to "Little Dickie" Kerr. Chicago's midget pitcher did what the most highly touted ace of the White Sox had failed to accomplish, turning in a shutout victory for the Chicagoans in the third game of the world series against the Cincinnati Reds today. Three to nothing was the final score.

Dickie is the smallest pitcher in the big leagues, but he's the biggest thing the Reds have encountered in many baseball games. His tiny southpaw not only stopped the stampede of the Nationals, but blanked his opponents, holding Moran's wrecking crew to three lumpy singles distributed through as many innings. Not one Red reached first after the fifth inning, and Kerr had the batters swinging wildly at his fast breaking curves and popping up weak flies when they swung at his slow ones. He displayed the courage of a veteran against the mighty maulers who broke the hearts of Cicotte and Williams. Despite the fact that it was his maiden appearance in a big league classic, he pitched one of the best games in world series history. Game Won Quickly.

Chicago's game was won by the end of the fourth inning, when the score had reached the same dimensions as those reported at the close of the contest. Two were scored in the second. Jackson singled, and Felsch bunted to Fisher, who threw wildly to second. Jackson went third and Felsch second on the error, and both scored on Gandil's single. The Sox got their third score in the fourth inning on Ribberg's triple and Schalk's single. Fisher and Rariden started the game for Moran's men, with Schalk holding Kerr's offerings. The score:

	R.	H.	E.
Chicago	3	7	1
Cincinnati	0	3	1

B. P. O. E. GUARANTEES A QUOTA OF \$6,000,000

State Association of Elks Pledged to Raise Big Deficit in War Savings Campaign.

Under authority by resolutions passed at the Grand Lodge Session of the Elks at Atlantic City last July, the Oregon State Elks association has assumed responsibility for the raising of Oregon's quota in the War Savings certificate campaign. Oregon faces a deficit of \$6,000,000, partly due to the fact that firm retrenchment of expenditures ordered by the treasury department has made it impossible for the War Loan organization of Oregon to maintain forces of such proportion as to insure the successful raising of the deficit. It is the only federal drive now being conducted, and people are not being asked to give their funds, but are simply asked to invest their savings in a gilt edge security bearing four per cent interest, compared

COLONIAL MANDATES FOUND NECESSARY IN LEAGUE PLAN

What is to be done with the colonies formerly belonging to Germany is a question which has been taken up at some length in the league of nations covenant, and which is discussed in today's "Covenant Letter." It is developed under the subject of:

The Colonial Mandates.

General Smuts, in December last published a little brochure, which he called "The League of Nations; a Practical Suggestion." In it, he outlined his project of a league, which has been very closely followed in the Covenant which has been adopted by the Peace Conference in Paris. General Smuts pointed out that one of the first results of the war would be the removal of existing sovereignties over the colonial empire of Germany and the nations heretofore under Ottoman rule, and the establishment of a group of new and untried states in Europe.

With respect to the colonies, he insisted that none of these territories should be annexed by any of the victorious powers; that in their future government, any external authority, control or administration which might be necessary because of their imperfect developed civilization, should exclusively be vested in and imperfectly developed civilization, exercised by or on behalf of the League of Nations. He pointed out that what ever in the past joint international administration had been applied to territories or peoples, it had been found wanting; that the only successful administration of colonies

MARINES TO HAVE NO FOOTBALL TEAM

Demobilization Hits Last Year's Mare Island Gridiron Organization Hard Blow.

[By United Press to The Bend Bulletin.] VALLEJO, Cal., Oct. 3.—There will be no Marine football team during the 1919-20 season.

Demobilization has wrecked the football aggregation that once represented the west on the gridiron of the United States.

The Mare Island Marines have decided that due to the fact there is no possibility of a first-class, go-get-'em organization they want no eleven. No mediocre pigskin pushers can represent the Marines.

So the talk of the organization of a team this year has died a natural death.
