

## RADICALS SEEK CONTROL OVER LABOR FORCES

### POLITICAL REVOLT IS OBJECT.

### SITUATION DIFFICULT

### Blues of Gompers Considered Complicating Factor—Recent Unauthorized Strikes Believed Due to Doctrines of Reds.

By Hugh Bailie.

(United Press Staff Correspondent.)

WASHINGTON, D. C., Oct. 15.—Radical agitators are working to gain control of the thousands of men striking in America, and of the thousands who are threatening to strike, according to information which the government received today from confidential sources. The purpose of these radicals is said to be to lead the strikers in an industrial revolt bordering on a political revolution.

Their propaganda is held to be responsible for many of the recent strikes not authorized by the federation of labor.

The fact that both President Wilson and his confidential adviser, Colonel House, are ill, and that President Gompers, of the American Federation of Labor, known as a foe to extreme radicalism, is in very poor health, and is liable to suffer a breakdown, makes the situation even more difficult for the government to handle.

### ALIEN BAN EXTENDED.

WASHINGTON, D. C., Oct. 15.—With government reports showing that alien radicals are agitating strikes and disorders in all parts of the country, the House voted overwhelmingly today to continue for a year after the conclusion of peace, the ban against the entrance of undesirable foreigners into the United States.

## MORE GIRLS IN CONTEST HERE

### SISTERS ARE ENTERED IN POPULARITY RACE—PRINEVILLE MAY HAVE CANDIDATE TO BACK AGAINST BEND, RUMOR.

Two more nominations were made today for the popularity contest which is to be staged next week in connection with the Reville Week celebration of the American Legion, and two of these previously nominated requested the withdrawal of their names. One of the two, Juanita Gillis, is a sister of Doris Gillis, already named as a candidate, but family connections have so far had no effect in causing the withdrawal of either.

Rumors were current today that a popularity contestant will be in the field from Prineville, and if this materializes into fact, it will mean the hardest kind of work for the backers of the Bend girls, as the Crook county seat has the reputation of loving a race against Bend just a little bit better than anything else in the world.

The list of contestants as revised to date, includes Miss Doris Gillis, Mrs. Maxine Fish, Miss Mabel Boyer, Miss Fern Allen, Miss Gladys Sather, Miss Gladys Farnsworth, Miss Hilah Brick, Miss Mildred Hunnell, Miss Juanita Gillis, and Miss Ethelyn Wells.

It is suggested that clocks be turned back one hour on Saturday night, October 25. This will put all clocks upon the new time Sunday, October 26. At present clocks are one hour ahead of "sun time," which gets you up one hour earlier and to bed one hour before the old time. Daylight saving was abolished by congress recently over the veto of President Wilson.

(By United Press to The Bend Bulletin.)

Although the forest fire season was theoretically over a month and a half ago, Forest Supervisor N. G. Jacobson, and Deputy H. E. Vincent were called out last night to Pringle Butte, where a fire is reported to be in progress. At the same time, a blaze of considerable extent on state land east of La Pine had started, and J. H. Haner drove out this morning to take charge of fire fighting operations.

Practically all forest fires starting since the early part of September have been either wilfully set, or have resulted from the carelessness of campers and others, in throwing away unextinguished cigarettes, or in forgetting to put out their camp fires, is the belief of forest officials.

## PORTLAND WILL HELP RAILROAD

### AID IS PLEDGED AT KLAMATH.

### Business from Half the State Will Drain Through Bend to Portland if Strahorn System Is Put Through, Says Builder.

KLAMATH FALLS, Oct. 16.—Realizing that railroad communication is a necessity if a vast bulk of trade now centered in San Francisco is to be diverted to Portland, Portland Chamber of Commerce delegates on the special sent to Klamath Falls, have pledged Portland's support in the construction of the Strahorn road. Fifty per cent of the area of the state will be opened up by the road, it is claimed. As explained by Mr. Strahorn to the Portland men, Crane, Lakeview, and Klamath Falls, with the immense country tributary, will drain through Bend to the chief city of Oregon, when his system is completed.

Lakeview residents expressed the sentiment that their country is more than ready to do business with Portland, providing adequate communication is assured. At present, however, thousands of head of sheep and cattle are yearly sent to the southern markets because of the longer railroad journey which would be involved in shipping to the north.

### Will Shorten Haul.

The distance from Klamath Falls to San Francisco is 430 miles, to Portland it is 506 miles. By the Strahorn railroad the distance will be shortened to 480 miles, with direct service. The Natron cutoff would shorten the distance to 329 miles, but against its immediate construction has been urged the cost estimate of \$11,000,000, as against a million and a half dollars to get the Strahorn railroad connected with Bend.

Portland excursionists yesterday morning visited local mills.

There is a stand of timber estimated at 25,000,000 to 30,000,000 feet, nearby enough to run 30 or 40 years, and the mills manufacture box shooks enough to more than pack the orange and lemon crop of California.

### Portland Help Important.

Yesterday afternoon there was an excursion over the Oregon, California & Eastern, or Strahorn, road, which has been completed 20 miles to Dairy and is handling considerable trade.

Nathan Strauss, excursion chairman, and W. L. Thompson of the First National Bank spoke for Portland at the Tuesday night banquet which lasted until Wednesday morning. They emphasized the fact that Portland's influence will mean Central Oregon transportation.
