SAFETY WEEK DATE IS SET

RAILROADS ANXIOUS TO MAKE RECORD OF NO ACCIDENTS FROM OCTOBER 18 TO 31—PUBLIC IS ASKED TO ASSIST.

[By United Press to The Bend Bulletin.]
PORTLAND, Oct. 16.—The Director General of Railroads has ordered that all railroads under Federal Control shall carry on The National Railroad Accident Prevention Drive for the period from October 18 to 31, 1910. The object of this drive is to demonstrate to the world that accidents in connection with the operation of railroads can be prevented. During the No Accident Week campaign last June the employees of the Spokane, Portland & Seattle Railroad and allied lines made a perfect record and they are determined to make a similar record in the coming Drive. Reports from the Safety Section of the United States Railroad Administration showing reduction in accidents with the same period last year, show that the Spokane, Portland & Seattle Railroad made a greater percentage of reduction in accidents to employees than any of the five railroads operating in Oregon and Washington. While the coming Drive will apply principally to railroad employees, it

is the endeavor to interest the public as much as possible with the view to eliminating accidents at highway crossings. If the drivers of automobiles and other vehicles will Stop, Look and Listen in approaching a railroad crossing, many serious accidents would be avoided.
