REDMOND WILL ENTER CONTEST

TO NOMINATE CANDIDATE IN POPULARITY RACE—ENTRANTS ALREADY WORKING AT RAPID PACE.

Neither Bend or Prineville is going to have a walk away in the Revolve popular girl contest. Redmond talks telephoned this morning that they had selected a young lady and were going to back her to a finish. The contest is waxing warm. Interest is increasing beyond expectations. It is going to be a contest right up to the closing minute.

Although the contest is an American Legion affair, the Percy A. Stevens post has no candidate and is not backing any young lady in reference to another. Its open contest individual members of course are working for their favorites and several have made announcements that they will enter new candidates. Candidates can be entered at any time until 10 o'clock a. m. Saturday October 25. All that is necessary to enter a candidate is to get vote coupons, write the candidate's name on each coupon and deposit the votes in any of the ballot boxes provided for that purpose. AGES VARY AT NIGHT SCHOOL

PUPILS REGISTERED FROM 16 TO OVER 50 YEARS—MANY RETURNED SOLDIERS AND SAILORS JOIN CLASSES.

With pupils in attendance ranging from 16 to over 50 years in age, the Bend night school completed its third session last night with an enrollment of 63 pupils, an increase of 10 over the evening before. The registration has been swelled by a considerable number of returned soldiers and sailors, some of whom are taking the work in preparation for college entrance, and others who are taking different commercial subjects to make themselves eligible for promotion from the positions they are now holding.

G. J. Selk, a mill employ, is believed to be the oldest in attendance at night school, although he did not give his age on registering. He was a steady attendant at the evening classes held last year, and found them to be of so much benefit to him in his work that he enrolled again this year, he explained.

CALL MANY TO FIGHT FLAMES

PRINGLE BUTTE FIRE UNUSUALLY LARGE FOR SO LATE IN SEASON—VALUABLE PINE INCLUDED IN DANGER ZONE.

That the Pringle Butte timber fire had reached proportions unusually large for a forest blaze at this time of the year, was the word received in Bend last night, when a phone report to Deschutes National Forest headquarters asked that more men be sent out to fight the flames. Men were secured in addition from La Pine, and Crescent, while the East Lake crew was also sent to join the fire fighters. No further report had been received this morning.

The area in which the fire is burning contains some of the best young yellow pine in the Deschutes National Forest, and there is in addition, a considerable percentage of sugar pine. Fire fighting is made especially difficult by the rank growth of manzanita.

WHISKEY IS TAKEN FROM PORTLAND MAN

James Olson, of Portland, gave up two quarts of perfectly good whiskey yesterday afternoon, and deposited \$25 with City Judge Peoples, to insure his reappearance in court this morning, following his arrest by Chief of Police L. A. Nixon. Olson begged to be allowed to retain the liquor, assuring Chief Nixon that his wife needed it to allay pain which she suffers at times. The chief was firm, however, and the whiskey was retained as evidence. "He'll never come back," predicted Judge Peoples, after Olson had deposited bail. The court was right, for according to all information which could be gathered, Olson cranked his engine and started immediately for Portland.

POTATOES OF CENTRAL OREGON NAMED BEST ON THE COAST

While Bend and Redmond are joining today in the celebration of the annual potato show at the latter town, recognition of the high quality of the Central Oregon spuds is by no means limited to the men who grow them. In an interview published by the Oregon Journal, George L. Burt, of the firm of Malcolm, Jacobs, & Burt, nationally known potato dealers. Mr. Burt is quoted as declaring that Central Oregon is the quality potato section of the entire coast. "The stock from there," he said, "brings a premium above even our Salina offerings on the San Francisco market, which is certainly a test of quality. "Not only does Central Oregon produce the best table potatoes we have ever seen in San Francisco—and this, bar no section whatever—

TO START FILM NOVEMBER 10

CONDITIONS HERE ARE MOST FAVORABLE

Logging Industry is Woven Into Plot of Drama—Light and Scenery Found Excellent For Purpose of Movie.

More than satisfied with climatic, scenic, and industrial conditions found here, President Walter H. McMonies, of the American Lifeograph Co., accompanied by his directors, Lewis Moomaw and Jean Hersholt, and Miss Elizabeth Mahoney, scenario writer, will leave this evening for Portland, to return on November 19 to begin the filming of "The Clan of Timber Mountain." Seven actors prominent in the movie world, among them Jack Mulhall, Carol Holloway, Bert Spottle, Ernest Shields, Georgia Woodruff, and Mary E. Baker, daughter of Mayor Baker of Portland, will be brought to Bend to take the leading parts, with 20 more for less important roles. Hundreds of others will appear in logging and mill scenes.

While the logging industry will play an important part in the drama, the scenes showing this are carefully woven into the fabric of the play, to avoid subordinating plot to the exploitation of industry. Miss Mahoney explained this morning. "It will not be merely the lumber business, but the romance of lumber, and of the pine woods of Central Oregon," she declared. Present day labor troubles will also figure largely, and a suggestion for their solution will be made through the closing scenes.

Because of the quality as well as the quantity of light available in this locality, in addition to the wonderful scenic effects, Central Oregon is particularly adapted to the making of movies. In the opinion of the members of the Lifeograph company who are concluding their visit today, The Willamette Valley has been found wanting because of the many cloudy days, while in California, the stronghold of filmland, the light often has a yellowish glare inferior to the whiter light of Central Oregon for the purposes of the camera man.

On account of the widely variant types of scenery within easy reach, it is probable that Portland will remain headquarters for the movie industry in Oregon for a time at least, but it was strongly intimated that "The Clan of Timber Mountain" would be by no means the last picture to be filmed in the vicinity of Bend.

MANY EXPECTED TO COMPETE IN STATE DEBATING LEAGUE

By United Press to The Bend Bulletin. UNIVERSITY OF OREGON, Eugene, Oct. 17.—Two hundred high schools of the state are eligible for entrance into the Oregon high school debating league, now entering its thirteenth year, according to announcement by R. W. Prescott, professor of public speaking in the University, who is secretary of the league. The state is divided into twelve districts for the purposes of the league. Each one of these, Professor Prescott announces, will have a separate question for the preliminary rounds, which will be contested in January, February, and March, with the finals in May. The twelve district winners will meet for the semifinals and finals at the University, in Eugene, as a feature of Junior

week-end, May 12, 13 and 14. Up to last year only the finals were debated in Eugene. In 1918 the four teams remaining in the semi-finals were brought here, and the plan proved so successful that it was decided to bring all twelve district winners here in future years. The trophy for the winner is the cup put up by the Laurean Literary Society of the University and Prof. E. E. DeCou, professor of mathematics here, who was the first president of the league. The cup goes into the permanent possession of any team winning the championship three times. Salem high school has now won two legs and needs but one more victory to take the trophy. Eugene high school was the winner last year, for the first time, taking
