

COMMUNICATIONS

(Continued from Page 2.)

tion and other purposes are held there, where we benighted sons of the soil who dwell at a great distance to the south and east cannot attend without much expense and the loss of more time than can be afforded, so we are seldom there.

Redmond should not be condemned because of this but should receive great credit. She has realized the importance of agricultural development to herself, and when a part of old Crook county she fought hard and saved the office of county agent from being abolished and has since fostered agricultural development in every way.

Bend has naturally talked of mills and factories, right of way and good roads, without giving any very serious thought to agricultural possibilities. Excepting the very commendable work done recently by The First National bank, agriculture has been overlooked by Bend.

Bend can hold a fair which will benefit the agricultural interests of the county; North and South, East and West, and which will be an event in Central Oregon. Bend is better able to do this than Redmond. If Bend is not willing to hold a fair of this sort let her step aside and assist Redmond, who will do her best. At any rate we should help their potato show even if we have to furnish the potatoes.

M. G. COE.

THE MAYORALTY.

Bend, Oregon.
March 17, 1920

To The Editor:

Few of our citizens realize that Bend has outgrown her swaddling clothes, and that the time has come when we must face permanent improvements, raise more taxes to carry on the work of the city.

Bend is the best advertised city in the state, and without a doubt is the liveliest, wide-awake, town on the map.

We cannot go backward; that isn't Bend style; we must and will go ahead.

The next Mayor is going to have a "real man's job" on his hands, and we want a "real man" for the job, it is up to our citizens to pick the "biggest" man possible for the job, go after him and elect him.

The Mayor and city councilmen should be paid a salary, adequate enough to reimburse them for their time, and it is only a matter of a short time until it will be necessary to pay salaries for these offices, or select another form of government which will carry a salary for such officers, as may be required to conduct the affairs of the city.

It is an honor to be the Mayor of the city of Bend, and it is a duty of every citizen when called upon to serve his city to the best of his ability whether it carry a salary or not.

I wish to thank my friends and fellow citizens for the honor bestowed upon me by naming me as a candidate for Mayor, and I fully appreciate the honor.

I have served the city for the last two years to the best of my ability, and while I have made mistakes, I have conscientiously tried to be fair and impartial.

My personal affairs demand my time, and since I am a salaried man, my time belongs to my company, and they have the first call upon my services; however Bend is my home and I love the town, and will do all I can to further its growth and upbuilding.

as long as I can do so without jeopardizing my employers' affairs.

I am not, never have been, and do not expect to be a candidate for Mayor; as much as I appreciate the honor, I cannot devote the time to the job, that it deserves.

Respectfully,
E. L. PAYNE.

The World's Largest Production of Tires on the Smaller Cars Alone

We call attention not so much to the size of this average daily production as to the extent of the effort we put into the making of these 30x3-, 30x3½-, and 31x4-inch sizes.

The separate factory we have devoted to their manufacture is not only the largest of its kind in the world, but it makes fully effective that experience and resourcefulness which have produced the tires most popular on the higher-priced cars.

No tires bearing the Goodyear name contain a higher relative value than these tires for Ford, Chevrolet, Dort, Maxwell and other cars requiring the sizes mentioned.

If you own one of these cars, go to the nearest Goodyear Service Station Dealer for these tires and for Goodyear Heavy Tourist Tubes. He has them.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... \$23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30 x 3½ size in water- \$4.50 proof bag

GOODYEAR

The "WHY" of High Prices and what is necessary before they can come down, will be discussed by the highest financial authorities in the United States, in our advertising space during the coming month.
