More than 2,000 troops of the defeated German communist army fled into the British zone of occupation, where they were interned, according to a dispatch from Coblenz.

## BURDICK IS OUT FOR THE HOUSE

### REDMOND MAN SEEKS NOMINATION

Has Been Representative From Central Oregon During Three Sessions—Largely Responsible For Irrigation Code.

REDMOND, April 7.—(Special.) Denton G. Burdick, representative in the state legislature for the past two terms, will be a candidate for one of the two nominations to be made on the republican ticket at the coming May primaries. Announcement of Mr. Burdick's candidacy was made this morning, thus definitely setting at end rumors that he planned to enter the race for the senatorship, and that he would not run for either the house or the senate.  
Mr. Burdick's entry into political life came in 1916, when he received the republican nomination for joint representative from the 21st district, comprising Jefferson, Crook (then including Deschutes), Grant, Lake and Klamath counties. The late V. A. Forbes, of Bend, was Mr. Burdick's running mate, and both were successful in the general election, serving together in the 1917 legislative session. Mr. Burdick was returned to the 1919 house. Taking into account the recent special session, Mr. Burdick has thus had experience in these sessions of the legislature.  
While a member of the 1917 house, he was one of those introducing the \$35,000,000 road bond bill, which was the beginning of the good roads movement in Oregon. He was also largely responsible for the irrigation district code adopted at that time, and he obtained the passage of the perfecting amendments to the code in 1919. Other legislation of interest to this section put through by Mr. Burdick was the appropriation for the Tumalo hatchery and that for building fish ladders on the Deschutes.  
Before the 1919 session he was prominently mentioned as a candidate for speaker of the house and, during the session, he occupied a position of leadership on the floor.  
Mr. Burdick is an attorney. He is also interested in the Burdick Mortgage company and in the Redmond National bank. He has been a resident of this section since 1911.

## PISTOL BALL PIERCES LEG

### EIGHT-YEAR-OLD TRESSA HUNTLEY SHOOT'S SELF WHEN GUN ACCIDENTALLY DISCHARGED THIS MORNING.

While playing with a .32 caliber pistol shortly before noon at her home on Thirteenth and Portland avenue, eight year old Tressa Huntley, daughter of Mrs. Florence Huntley, sustained a bad flesh wound when the gun was accidentally discharged, the bullet passing through the left thigh. Medical aid was immediately summoned, and unless complications ensue, it is thought that recovery will be rapid.  
The pistol, owned by George E. Gray, of this city, had been loaded last night, Mr. Gray inserting one shell while driving in from his ranch near Bend, in hopes of shooting a rabbit. He had left the weapon in his car which was parked in front of the Huntley home, and it was there that the gun was found today by the child.

## NURSERY GETS START WHEN TOTS ARRIVE TO SPEND DAY

Although open for more than a week, the day nursery, which was started by the Women's Civic Improvement league, actually started in operation yesterday, when Jack and Clarence Hamner, aged 5 and 3 years old, respectively, were left in charge of the matron, Mrs. C. A. Owen, for the entire day. The mother, Mrs. Frank Hamner, is a box factory employe, and is unable to make a home for her children during the day if she continues to support them. Jack and Clarence will be star boarders at the day nursery from now on. On one previous occasion a child from one of the camps was left for an hour or two, but the two youngsters who made their appearance yesterday are really the first to make the league members believe that the purpose of their work is being appreciated.

## CLUB FAVORS THREE BILLS

### BEND BUSINESS MEN FAVOR INCREASE OF BONDING CAPACITY, AND TWO BILLS IN CAUSE OF EDUCATION.

After brief discussion, the Bend Commercial club, in regular session this noon, at the Pilot Butte Inn, went on record as favoring the measure to increase the state's bonding capacity to 4 per cent, the higher education millage bill to provide for the needs of the University of Oregon, the Oregon Agricultural college, and the Monmouth normal, and the 2-mill school tax, three of the measures which will come before the people at the May primaries. The action was taken in response to a request from the Oregon State Chamber of Commerce, but a poll of the club membership in regard to other measures which will be up at the same time, was deferred. Late in 1919 the club went on record as favoring capital punishment, one of the issues presented.  
A telegram from the state chamber, asking endorsement of the policy of aerial patrol for forests of the Northwest, was referred to the aviation committee.  
Dr. Charles A. Bowen of Portland spoke on the inter-church world movement, the need for the one and one-third billions of dollars fixed as the budget by the associated churches, and gave some sidelights on modern Christianity in his description of educational work in agriculture now being done in India as a feature of the missionary program.

## NAVAL CHIEFS CLASH DURING SENATE PROBE

### RODMAN'S POLICY IS SCORED BY SIMS

## EFFICIENCY UPHELD

### "Lies," Responds Commander of Fleet in Reply to Sims' Charge That 5000 Were Lost, Due to Navy's Delay.

WASHINGTON, D. C., April 7.—Admiral Sims charges that the navy was unprepared when America entered the world war. He branded as "ill advised and indiscreet" the attempt made by Admiral Rodman to "discredit" the navy.  
Rodman is now commander of the American battleship forces which served with the British grand fleet during the war. He was the first witness called in defense of the navy.  
"Never have I seen such efficiency and preparedness as obtained at that time," Admiral Rodman asserted referring to the time when America entered the war. He said that he was before the committee to defend the good name of the navy which, he declared, has viewed Admiral Sims' attack "with the deepest censure."

Rodman charged Sims with a "breach of confidence" in disclosing confidential admonitions, which he maintained should be kept sacred.

Asked regarding Sims' charges that 5000 men lost their lives due to delay in the navy department, he replied, "They are lies, damned lies."

## SILo AGENCY TO BE STARTED HERE

### Representative of Indiana Silo Sees Sunflower as Big Possibility in Central Oregon.

Invading the Central Oregon territory, A. G. Riach, representing the Indiana silo, manufactured by the Charles K. Spaulding Logging company, is in Bend today, intending to secure an agent to have charge of this district. The Indiana Silo is of the stave type, constructed of Douglas fir, and will prove eminently satisfactory in this section, Mr. Riach believes.  
The theory that the sunflower will prove the answer to the problem of securing cheap silage in Central Oregon finds a warm supporter in Mr. Riach. Thirty tons to the acre is what they are raising in Wal-luoa county, he says. Either this crop, or sweet clover, could be cultivated to advantage for silo purposes, he believes.
