Fifteen Years Ago

(From the columns of the Bulletin of April 7, 1905.)

Men representing 20 families from Hillsboro, Oregon, and that immediate vicinity, are now ready to come to Bend and locate, and are only waiting for the operation of the automobile line.

The Bend Water, Light & Power Co. this week placed an order for an electric light plant of 1200 sixteen candle power incandescent lamps. The dynamo and full equipment are to be delivered in Bend in July.

Over 34 tons of merchandise has arrived in Bend this week, or is on the way from Shaniko, nearly all the freight being stock for local stores.

Professor Samuel Fortier, while here last week, outlined a plan for work at the experiment farm of the D. & I. P. Co. a short distance southeast of town. This will be of the greatest importance because it is the first venture in truly experimental agriculture in the Deschutes valley.

Dr. U. C. Coe, traveled about 112 miles between Wednesday morning and Thursday afternoon to answer a call to attend the father of C. E. Branton, who resides 25 miles northwest of Cline falls on the edge of the desert.

Water is now flowing full length

in the Pilot Butte canal and also in the Central Oregon ditch.

E. A. Griffin this week caught a five pound trout, and on opening it discovered a seven inch trout in its stomach.

Ora Poindexter, Creed and Carlyle Triplett, and Robert A. Puett started on a fishing trip up the river to spend several days. They took with them a boat to use in the sport.

Last Sunday, Grant Braskett brought in a Dolly Varden trout which weighed close to 10 pounds. The fish was caught in the Deschutes.

Insects Give Us Shellac.

Shellac is the joint product of insects and plants and comes from India. The lac insects are about one-twenty-fifth of an inch long, a bright red in color. They suck the juices of plants, digest them and exude them in the form of resin, which soon encases the whole insect. When the young insects have swarmed out, the resin is scraped from the branches, ground, washed, mixed with colophony and orpiment, cooked slowly and drawn out into the thin sheets we know as shellac.

NOTICE OF FINAL ACCOUNT.

NOTICE is hereby given that the Administrator of the estate of Edward C. Pegrose, deceased, has filed his final account in the County Court of Deschutes County, Oregon, and that said Court has appointed the 17th day of April, 1920, at the hour of two o'clock p. m. on said day as the time, and the court room of said court as the place, for the hearing of any or all objections to such final ac-

count and the settlement thereof. Dated and first published March 19, 1920. Date of last publication, April 16, 1920.

H. C. ELLIS, Administrator (With Will Annexed).

 OF BEND

BOUQUETS FROM CANADAHARIE, N.Y.

A business man who has just come to Oregon to make his home says: "Only in a few sections could business be developed to the present stage and still have so many of the possibilities untouched. My impression of Oregon is first, that you have a wonderful country; second, that you have done wonderful things with it; and third, that you can do still more wonderful things."

Oregon has made rapid strides in the past few years and the possibilities for the future are almost limitless. But it behooves every loyal citizen to get behind Oregon industries and BOOST.
