"MALE AND FEMALE" STRONG PRODUCTION

It was only a thought at first, but when planted proved to be the seed of inspiration. It grew from a teeny sprout to a sturdy stock, bloomed, bore fruit, and when replanted multiplied many fold. The wee thought struggling for existence in a dusty brain that ruled a cave-man body was the basic idea in their foundation of great nations that in their turn, when planted, after blooming withered and died. If you stop to reason you will see each existing thing, plant life, nations, animals, man and woman, live in the same routine designed by the Creator and all in their turn, after reaching their climax, fade and pass into the unknown.

This is somewhat the thought that ruled the pen of the author of "Male and Female," and a more inspiring story is seldom presented for public approval.

A story with a modern setting, based on the same allegory in nature, and far-reaching enough to supply the thinker who sees in this master production food for unlimited imagination.

"Male and Female" is unquestionably one of the biggest things in motion pictures this season, with an all star cast, wonderful settings, superb photography and infinite detail.

Photoplays of this type are bringing the movie theater into greater popularity every day. They are getting their life from the old idea that a thrill will please the sensation seeker and that they are the only patrons a movie ever has. It is putting the something into the photoplay that the amusement seeking public want, "the fo l for better thought," "Male and Female," that is being exhibited at the Liberty theater tonight and Saturday is a picture you can well afford to see, and consider your time well spent.

Part of the Game.

A referee has lodged a complaint against the football club on whose grounds he was assaulted by several spectators who disagreed with his decisions. Although sympathizing with him we fear his attempt to rob our national game of its most sporting element will not meet with general approval.—Punch, London.

Foibles of Genius.

Buffon wrote in lace ruffles and Sir Walter Scott liked to array himself in his shooting jacket from six o'clock until dinner time, whilst Guido Reno painted with much pomp and considered himself at his best when dressed magnificently, and had his pupils attend him in silence, ranged around him.

RUFFLES AND PUFFS TO SUMMER FROCKS

"Ruffles and puffs—They can't get 'nuff—That's what little girls are made out of"—So goes the 1920 fashion rhyme, judging from these new models for summer wear. They may be organdie—or voile—or batiste. Tissue gingham are also in great vogue in early showings.

Cultivate Patience.

Patience is one of the finest attributes of character. It may be based on great self-control; it may also be based on true foresight. As an exercise of self-control, it is wise because everything comes to him who waits. The whirlwind of time brings in its revenges—and its rewards. Patience, as a matter of calculation, is creditable to the intelligence.—Humphrey J. Desmond.

Wanted a Demonstration.

Louise had the habit of running to her mother for a hug and a kiss at frequent intervals during the day. One day she stood before her mother, who was busy knitting, for some moments without getting any attention. Finally Louise said: "Do you love me, mamma?" "Yes, dear," from mother. Louise waited a moment longer without receiving the accustomed caress, then burst out with, "Well, why don't you love me by hand?"

Views of the Stars.

People in the southern hemisphere see different stars, but there are some constellations which are visible at different times of the year in both hemispheres. If the earth's axis kept always perpendicular to the plane of its orbit none of the northern constellations would ever be seen in the southern hemisphere, but as the axis inclines first one way and then the other, some of both sets can be seen at different times.

Old Age Greatest in Serbia.

Serbia is the country of centenarians. One man in every 2,000 reaches 100 years. Ireland ranks next, with one in every 3,130. Out of every 43,300 Spaniards one is a centenarian. In England, Scotland and Wales one in 177,000; in France one in 180,750 and Switzerland, with all its reputed healthfulness, seems not to possess one.

This Electric Sewing Machine is as Handy as Your Work Basket

Portable--can be used anywhere that there's an electric light socket. When not in use takes up no more room than a hand bag and is carried as easily.

Workless--electricity performs the labor. All you do is guide the sewing.

Inexpensive--costs no more than footpower machines, and can be obtained on easy, pay-as-you-use terms.
