SENIOR CAST IS WORKING HARD

EXCELLENT PROGRESS BEING MADE IN PREPARATION FOR PRODUCTION OF "A STRENUOUS LIFE" ON MAY 7.

In preparation for the production of "A Strenuous Life," the senior class of the Bend high school is practicing nightly at the high school auditorium, under the direction of Miss Harriett Umbaugh. Residents of Bend will have two opportunities to judge the dramatic talent of the graduating class, as a matinee will be given on the afternoon of May 7, with the main performance on the evening of the same day. Miss Umbaugh reports that the cast is making splendid progress.

GETTING PLENTY OF CHANCES WITH REDS

If Charley See, now with the champion Cincinnati Reds, does not make good in the big league he can never blame fortune for "not giving him a chance." Bought from the Buffalo club for \$10,000. See went to the Reds at the same time Duncan, regular outfielder, came from Birmingham. Both tried for the outfield post. Duncan winning out. See started in the game as a pitcher, then switched to the outfield. Now Manager Moran of the Reds may try him in the box again.

No Law Schools in England.

England today has no law school in existence. Harvard's Law school is not only the oldest existing law school in the United States, but it is the oldest existing academic law school in the English-speaking world. They have a professor of law at Cambridge, and a professor of law at Oxford, in England, but they do not teach law in the manner of a professional school. They simply lecture upon law, or endeavor to give a scientific preparation for the profession of law, but do not give a scientific, professional training.

Decline of the Apron.

The apron is worn today by the woman who is not assumed to work, but in earlier centuries it was an article of clothing assumed by aristocracy and even royalty. The word has undergone a curious deprecation; it was originally "a napron," but the "n" became affixed to the wrong letter. The opposite process occurred in "an ekename," which was eventually transformed into "a nickname."
