SEPARATE SKIRTS RULE THE SEASON

The summer of 1920 will likely be known to women in the future as "the extra skirt season." It is the growth of the "sport skirt" idea, permitting a riot of color which all women like. The skirt, which buttons on front or side, is quite the thing this year.

The impression you make depends very much on your clothes. Other things count, of course, but remember, appearance speaks before the man, and Commencement Day is one day when you want your appearance to be right.

opening up agricultural timber, or mineral resources, the four per cent bonding limitation, the Crook and Curry bonding measure, and the restoration of capital punishment.

For State Builders.
 They who preach patience to the peoples as the sole remedy for the ills by which they are oppressed, or who, while they admit the necessity of a contest, would yet leave the initiative to be taken by their rulers, do not, to my thinking, understand the state of things coming upon us. . . . It is not enough to precipitate a monarchy into a gulf; the gulf must be closed up, and a durable edifice erected on its site.—From "Faith and the Future," by Mazzini.
