

Church's Legislative Bodies.
The church of England has two legislative bodies, called convocations, which attend to ecclesiastical matters. Each convocation, that of York and that of Canterbury, contains two houses. The upper house is composed of bishops and other dignitaries, and the lower house is made up of deans, archdeacons and delegates, who are elected whenever a new parliament is chosen.

Making the Desert Cool.
An ingenious method which a thoughtful wife invented to keep her good man cool is described in Travel. She sent down from town "a quantity of canvas or burlap, which was to be strung on wires along the windward side of the veranda. The poor, painting man was to take his seat there, lightly arrayed, and spray water on the screen with a hose. The resulting evaporation would temper the breeze to a fair degree of comfort." The burlap-and-hose combination, it seems, plays a prominent part in California desert household economy.

Saplings Eaten by Cattle.
Cattle will not let young hazel, oak and most other trees and shrubs survive in a pasture, but the thorn apple bushes are safe, due to their sharp thorns.

NOTICE OF SCHOOL ELECTION TO INCREASE TAX MORE THAN SIX PER CENT OVER THAT OF THE PREVIOUS YEAR
Notice is hereby given to the legal voters of School District No. 1 of Deschutes County, State of Oregon, that an election will be held in said district at High School Auditorium, on the 30th day of June, 1920, at 2 to 7 o'clock in the afternoon, to vote on the question of increasing the amount of the tax levy in said District for the year 1920 by more than six per cent over the amount of such levy for the year immediately preceding. Considering the amount of increase over 6 per cent, increase for any year cannot be considered in succeeding years.

It is necessary to raise this additional amount by special levy for the following reasons:

The law went into effect when our tax was very small and 6 per cent increase each year does not meet required expenditures.

Dated this 5th day of June, 1920.
ROBERT W. SAWYER,
Chairman Board of Directors.
Attest:

To the Ladies of Bend

Our lady representative will call at your home to show you what Calumet Baking Powder will do for you and why it is called the cook's best friend.

The demonstration and test she will make are interesting and instructive. The test is not a comparative test of the strength of different baking powders because the water glass test does not show the strength of baking powder that does not contain white of egg. The test will, however, show the superiority of Calumet in other respects and prove why it has solved all baking problems in millions of homes. Calumet is not only the best leavening agent possible to make, but it is sold at a popular price and is therefore an important factor in reducing the high cost of living.

Calumet is manufactured in the largest, finest and most sanitary baking powder plant in the world, by experts who make nothing but baking powder. Calumet received the highest awards for purity and efficiency at the world's greatest pure food expositions at Chicago in 1907, and at Paris, France, in 1912. Calumet contains only such ingredients as have been officially approved by the United States Food Authorities.

Calumet is guaranteed to be Pure in the Can and Pure in the Baking. Try Calumet once at our risk. Your money back without question if it isn't the best baking powder you ever used.
