## TOURIST TRAVEL.

A monthly circular issued by a Se-  
attle bank, in which business condi-  
tions in the Northwest are dis-  
cussed, contains the following, under  
the heading, "Tourist Travel":

"Tourist travel to the Pacific  
Northwest this summer by rail and  
boat is far exceeding that of previous  
years.

"The tourist crop is becoming one  
of our valuable assets. What it may  
mean to a region was indicated in a  
recent statement from Los Angeles,  
which showed that the annual value  
of that district's seven principal  
products of the soil—oranges, lem-  
ons, deciduous fruit, cotton, wheat,  
barley and beans—totaled only  
\$148,000,000, while the value per  
annum of the tourist crop was placed  
at \$150,000,000. Our own crop  
could be improved by more intensive  
cultivation."

The increased flow of tourist travel  
into the Northwest is undoubtedly  
due to the work of the Northwest  
Tourist association, which, for the  
past several years, has by extensive  
advertising in eastern and Canadian  
newspapers and magazines, and  
through Frank Branch Riley's lec-  
ture tours spread throughout the  
country the news of the attractions  
of Oregon, Washington and British  
Columbia.

A few more earthquakes in South-  
edn California and a continuation of  
the work of the Northwest Tourist  
association will produce a remark-  
able increase in our crop.

## SWIMMERS LEARNING TO RESCUE DROWNING

Y. M. C. A. Club Takes Up Life  
Saving—Develop Into Expert  
Swimmers—Exams Soon.

Interest in the Y. M. C. A. Swim-  
ming club continues high in spite of  
the hot weather. In the regular  
meeting Saturday evening, the begin-  
ners' 20-yard race was won by  
Rhodes, with Cardwell second and  
Going third.

In the 60-yard handicap Todd took  
first place, Cunningham second, and  
Hixburg third. Todd, who was  
scratch man, is developing into a  
real swimmer, and, in the judgment  
of Ray Trickey, the instructor, may  
some day compete with the best.

Life-saving methods were studied  
for part of the period, with both  
land drill and work in the water.  
The five methods of release, five  
methods of rescue, resuscitation and  
the proper method of approach to a  
drowning person were learned by  
members of the club.

A polo game, diving and general  
practice concluded the events. Two  
weeks remain until the swimming  
examination and all of the boys are  
working hard to qualify on one or

## My Ticket

I'll vote for Cox and Harding when comes elec-  
tion day, and thus avoid retarding the good times  
on the way; they stand, in seemly manner for our  
old spangled banner; from Portland to Savan-  
ner let's sound our loud hooray. I'll vote for Hox  
and Carding for presidential jobs; I want to see  
them guarding our sacred thingumobbs; when  
these two are elected our rights will be respected,  
our wrongs will be corrected, and we'll cut out the  
sobs. The ticket's surely regal, the smoothest thing  
in view; well may our famous eagle rear up and  
scream a few; they're men of reputation, who've  
won our admiration, and they will sweep the nation  
from Waco to Wahoo. I cheer for Card and Hoxing  
throughout the busy day, when I am busy boxing  
my odes to ship away; and in my sleep I'm dream-  
ing of faces proudly beaming and eagles bravely  
screaming upon election day. When they're de-  
clared the winners the rich will go to jail, the poor  
will have their dinners and every kind of kale;  
of coal we'll have our bin full; we'll all be glad  
and grinfal, the pitfalls of the sinful will never more  
avail. So rise up, men and brothers, rise up, of  
one accord! Rise, sisters, aunts and mothers, and  
vote in every ward! Let's gain the full fruition of  
every high ambition and lay the opposition, all  
stricken, on the sward!

the other of the classes. The mem-  
bership of the club has now reached  
38 and the new members are still  
coming in.

## Certain-teed is Impervious to Driving Rain

The severest rain storms only make  
you appreciate Certain-teed Roofing  
the more.  
It keeps the interiors of your house,  
barn or other buildings dry and  
prevents damage from water.  
Certain-teed, properly laid accord-  
ing to the instructions enclosed in  
every roll, is firmly cemented  
together into a one-piece roof  
impervious to rain or snow.  
It provides complete weather pro-  
tection.

Certain-teed is spark-proof and fire-  
retarding. It is guaranteed for five,  
ten or fifteen years, according to  
weight.  
With all its superiority, Certain-  
teed costs less to buy, less to lay and  
less to maintain than any other type  
of good roofing.
