Daily Thought.

"There are no estrangements so lustre, and yet so insuperable, as those which arise from subtle discords in temperament."—W. H. Malloch, in Harper's.

Irrigation in Spain.

Spain irrigates only 6 per cent of its cultivated land, but the irrigated sections produce about one-fourth of the country's crop.

AGE DOESN'T COUNT WITH CUPID

Dwight Mack Weeks, 70 years young, and his bride, formerly Mrs. Annie Lyles, 67, don't believe in getting old. Although Mr. Weeks is a great-granddaddy and Mrs. Lyles is a grandmother doesn't mean that life's spring-time shall not return again and that they are not in danger of cupid's darts, which was proved by their recent marriage at Washington, D. C.

VICE PRESIDENTIAL DRY CANDIDATE

Leigh Calvin, Prohibition party's vice presidential candidate, as he appeared at the notification ceremony at the home of Aaron Watkins, the Prohibitionist's candidate for president.

A Good Catch.
It is impossible to repress a feeling of satisfaction over the feat of the Atlantic City game warden, who apprehended the owner of a seaplane guilty of shooting wild geese in the air. The law against this sort of "sport" is strict, and the penalty provided for offenders is ample. And, as bird shooting from the air is on a plane with the use of dynamite and seines in closed waters, the more rigidly the statute is enforced the better. Any leniency would be disastrous to the bird life of the country and calamitous to the United States.—Detroit Free Press.

Powerful Fire Extinguisher.
One of the best solutions for the extinction of incipient fires consists of crude calcium, 20 parts; salt, five parts; dissolved in 75 per cent of water. Keep at hand and apply with a hand pump.
