Young & Sons. 85-87-91-98c

Automobile supplies and Diamond tires at Buchwalter's.—Adv.

**Gruesome Paving.**

Tombstones have been employed in Nottinghamshire, Derbyshire, Lincolnshire and Lancashire England for purposes of paving, and some years ago the inhabitants of the Vale of Belvoir raised a vehement protest against such stones being used as a pathway leading to the parish church. The local authorities, however, sought to justify the measure on the ground that there were plenty of old gravestones on hand which if used, might result in a saving of taxes.

**Put Ear to Odd Uses.**

Burmese men and women delight in ear ornaments. The lobe of the ear is bored with a hole of astonishing size, and in it various articles are worn—pieces of wood, jewels, or rolls of solid gold or silver. When no ornaments are in the ears, the men often put their cigars, or any other small article in frequent use, through them, and the women use the holes for bouquet holders.

**"Tragic Century."**

The sixteenth century is called the "tragic century" on account of the great number of deaths occurring in it. The whole world was swept by plagues throughout the hundred years. Pestilence nearly depopulated China, and raged throughout Germany, Holland, Italy, Spain, England, France and Russia. The "sweating sickness," which broke out in England in 1550, caused the death of nearly one-half the population of the large cities of that country. The century was also noted for its many wars.

**Novel Use for Ice.**

An engineer has invented the following method for making hollow concrete blocks. Hitherto it has been difficult to make large cavities in concrete, but it can be done, the engineer points out, by embedding blocks of ice in the mass of concrete and introducing small outlets for the escape of the water after melting. This method also makes unnecessary the constant moistening usual in concrete work, as it is automatically supplied by the melting ice.

**Marine Glue.**

Marine glue is prepared by dissolving one part of India rubber in crude benzine and mixing with two parts of shellac, by the aid of heat. The waterproof character of this cement in connection with its elastic flexibility makes it a useful substance in many applications to house construction and to furniture. This glue is applied with ease when warm, and cools with promptness. It was originally intended to be used chiefly on board ship and is well known in Europe.

**Diversified Decoration.**

William was leading the way to where he kept his rabbits. The visitors followed and finally reached the rabbit house, where they stopped to admire the little white, gray, and black-spotted rabbits. "Look," William exclaimed, pointing to the rabbits, "they are all decorated differently, aren't they?"

**THE HUB**  
BEND'S NEW STORE  
**WILL OPEN**

Friday Morning, Sept. 24

We will carry Ladies' and Children's Shoes, Men's Dress and Work Shoes, Men's Furnishings and Work Clothes.

A WORKINGMAN'S PLACE TO BUY

We Save You Money

**THE HUB**

1039 Bond St.

**Beyond Temptation.**  
Junior, who is quite a mischief, was left in the kitchen alone while baby was being put to bed. A few minutes later he was discovered, with a toy in his little fist, up on top of the kitchen cabinet. When asked what he was doing, he said: "I'm putting this up where I can't get it."

**Travels of the Potato.**  
It is believed that potatoes were first grown in South America and that the Spaniards took them back to Europe when they overran Peru. Potatoes were later introduced to Italy, France, England, Ireland and to North America, in the order named.

**Ancient Lighthouse.**  
The Pharos of Alexandria, one of the seven wonders of the world, and the prototype of modern lighthouses, cost Ptolemy Philadelphus, its builder, \$1,000,000. Though it cast rays for 16 centuries, its site is now a matter of surmise.

**The Useful and the Beautiful.**  
The useful encourages itself; for the multitude produce it and no one can dispense with it; the beautiful must be encouraged, for few can set it forth, and many need it.—Goethe.

**Shakespeare's Vocabulary.**  
Shakespeare had a vocabulary of more than 25,000 words. The average vocabulary of the educated person seldom exceeds 2,500 words, while that of the uneducated person often contains less than 800 words.

**When Spiders Retreat.**  
Spiders hide themselves in threatening weather. This is because they know insects do not fly about in the damp atmosphere preceding rain, and not because they lack umbrellas.

**Kissing Once Custom at Dance.**  
Down to the middle of the Victorian era it was considered quite the proper thing in England for a man to exchange kisses with his fair partner at the end of a dance.

**HAYING PROGRESSING AT PLEASANT RIDGE**

**PLEASANT RIDGE, Sept. 22.**—Mr. and Mrs. W. B. Hutchins and baby, Mr. and Mrs. George Roberts and son, Glen, were Redmond visitors Saturday evening. Alfred Mikkelsen and Oswald Pedersen went to Redmond Saturday.

Waldemar Peterson of Bend is helping O. E. Anderson during haying.

Mr. and Mrs. Frank Rebhoff of Redmond were callers at the Hutchins home Friday evening.

J. W. Cabeen of Redmond came down Friday morning to spend a day or two on his ranch here.

Calvin Winingham is working for Antone Ahlstrom during haying.

W. B. Hutchins is having a house built on his place. George Roberts, Mr. Hutchins' father-in-law, is doing the work.

Mrs. O. E. Anderson returned Friday morning from a trip to Portland and up into Western Washington, where she went to visit her mother.

J. E. Williams of Prineville, accompanied by Mr. and Mrs. Perma Marken, were callers in this vicinity Friday.

Mr. and Mrs. Carl Hanson of Tumalo visited Mrs. Hanson's sister, Mrs. J. W. Peterson, Sunday. Boyd Berry of Bend is working for Rasmus Peterson.

W. B. Hutchins and Glen Roberts are helping Earl Wood put up his hay.

Mr. and Mrs. O. E. Anderson were shopping in Bend Saturday evening.

Mr. and Mrs. George Holton of Deschutes were callers in this neighborhood Thursday.

**Small Cars—and the Declining Cost of Tire Mileage**

You are aware, of course, that during the last ten years, Goodyear has been able steadily to increase the amount of mileage built into its tires.

Do you realize, also, that this increase has been accomplished without extra cost to the user—that Goodyear Tires are priced no higher today than in 1910?

In no tire in the Goodyear line is the declining cost of mileage more evident than in the present 30 x 3-, 30 x 3½- and 31 x 4-inch size Goodyear Tires made especially for small cars.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—get the exceptional worth and endurance that Goodyear builds into them.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread \$2350  
30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$2150  
Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3½ size \$450 in waterproof bag

**Central Oregon's Wonders**  
**BROKEN TOP**  
That majestic old weather worn mountain top that you see every day on the western horizon. The elements have played hob with this grand old fellow.  
The scenery about the noble old mountain is most gorgeously brought out in the enlarged and beautifully framed photo. You'll appreciate Central Oregon more if you have one of these many scenic views in your home.

**BROKEN TOP SCENE**
