"SHIPWRECKED AMONG CANNIBALS"

The True and Arduous Adventures of Two Baring American Cameramen among the MAN EATERS OF NEW GUINEA

YOU'LL never see their like again. Six marvelous reels taken on the island God forgot—where women slash and scar their bodies to make them beautiful, where men torture their faces out of all human semblance, where children's playthings are human skulls. The only pictures ever made of these astounding people, now fast vanishing from the earth. Here's a real thriller. See it sure. Now playing.

According to Moses

It took longer to write the first geography than it did to create the world.

According to our ad-man it would take longer to describe these Fall Suits than it did to manufacture them—and you would be tired out listening to the acres of adjectives that he would have to employ to do a good workman-like job.

You can't wear description—not this time of year.

And our business is clothing—not prose.

Therefore we say—that anything we could say would not be a circumstance to what you will see.

And that's true—from the bottom of our heart. Nothing in Webster's can do them justice—and if we could coin words to relate them—you wouldn't believe us.
