## MOORE LEAVES COACHING JOB

### SCHOOL SURPRISED BY RESIGNATION

Superintendent Takes Place Temporarily To Whip Squad Into Shape For Second Game of the Season With Prineville.

The school and team were surprised Wednesday afternoon when Coach Merle Moore, manual training teacher and athletic coach, resigned as coach of the football team.

As a result Charles W. Erakine was chosen and yesterday took the place of Superintendent Moore, who had volunteered his services as temporary coach.

Bend was given a chance to wipe out that 35 to 0 score made by Prineville in the first game of the season this afternoon, when the B. H. S. eleven lined up against the Crook county high aggregation on the depot grounds.

The Bend eleven has been unsuccessful in all gridiron combats to date this year. Each game played has shown a marked need for improvement, and toward this end the team has been striving the past week. Several changes were made in the lineup, as the team lacked balance. G. Blakely, Bend's tackle, was unable to play on account of injuries sustained during the Redmond game last Saturday. F. Haner was expected to play his position. Other changes probably will be made before the game.

Considerable progress has been made in the past week, both in defensive and offensive work and, although still far from perfect, the Bend team gave promise of showing Prineville a stiff game.

## SENIORS WEARING NEW CLASS PINS

The members of the senior class are the proud possessors of new class pins. These little pins are of solid gold, formed in the shape of two triangles superimposed one upon the other. The lettering is "B. H. S. '21."

**Buchwalter Sport Store**

## School Days

Do you realize that often what appears to be stupidity in children is nothing more than defective vision.

Do you know whether your child is handicapped in mental development or by defective vision?

Now is the time to find out, and glasses provided if necessary.

## B.H.S. Straw Vote Reveals Leaning To W. G. Harding

The high school straw vote has been taken. The American history and civics class voted Friday afternoon, but the results of the balloting will not be known until the votes are counted on Monday. The voting was done on sample ballots furnished by Frank Haner.

The estimate on the vote for president seems to favor Harding, although there are a few students whose votes are doubtful. The voting on the various measures on the ballot seems to indicate that the following have passed: The Roosevelt bird refuge bill, Bend county seat measure, the oleomargarine bill and the bill providing for a longer session of the legislature.

## Advanced Class Girls Learn To Cook-Breakfast

Miss Miller's advanced classes in domestic science are working on breakfast menus—the preparing and serving of a complete breakfast for one individual.

Next week the girls are to work in groups of four, each group preparing and serving a breakfast. The groups will be divided and every two girls will serve a breakfast. When this has been done each girl will then be allowed to prepare a meal unaided. To put class work into practice, one class is to come before for school in the morning and cook breakfast. Along with this work the classes are studying food principles, carbohydrates and the combining of foods.

The girls are enjoying the making of posters in domestic science classes. Each girl was required to make a poster of a breakfast dish she would like and place the recipe of the same underneath. The picture of the dish was taken from a magazine advertisement. Some of the posters were very attractive and showed originality in arrangement.

**First Real Estate Deal.**  
According to one authority the first real estate deal in America occurred on May 6, 1629. Peter Minuet purchased the site of the city of New York for the sum of \$24 in present United States currency values. This price was 90 cents per 1,000 acres.

## BETTER SPEECH WEEK PLANNED

### PUPILS TO CORRECT OTHERS' ERRORS

Tags Will Be Forfeited As Soon As Wearers Commit Five Crimes Against King's English—Other Features To Be Introduced.

Plans are under way for the celebration of Better Speech week, which is November 1 to 5, inclusive. Miss Umbaugh is chairman of the committee in charge of the program. Several features are planned for the students, who look forward with great enthusiasm to the events of the coming week.

Wednesday morning each student will be given a tag which he is required to wear that day. When a mistake is made the student noticing it will write it on the card of the one making the mistake. When five errors have been recorded the tag will be forfeited to the person noticing the last one. Another tag will then be given.

At the end of the day the tags will be turned in at the office. Those receiving the least number of marks will receive honorable mention in the High School Weekly. The program will be changed daily so as to interest the students and, at the same time, improve their speech.

## SPELLING CONTEST CREATES INTEREST

The spelling classes of Bend high are showing great interest in their work. The recitations are oral Tuesday and Friday.

Each class is divided into two sides, each side having a chosen captain. Captains of the various classes are: Seven A, Vesta Bevans, Rose Miller; 8B, Claire Payne, Harriet Heyburn; 9A, Richard Connors, Kenneth Gales; 9B, Opal Smith, Gladys McConnell.

The requirements are to pronounce the word, spell it in syllables, give the accent, and use it in a grammatical sentence.

The score to date are: Seven A, Rose 3, Vesta 2; 8B, Claire 2, Harriet 1; 9A, Richard 5, Kenneth 0; 9B, Gladys 2, Opal 1. At the end of the semester the losing side is to treat the winning side.

**Music Hath Charms.**  
Another reason why a girl should take vocal lessons is because if she ever has to raise any children she will need a lot of voice.—Dallas News.

**Of Great Riches.**  
Of great riches there is no real use except it be in the distribution; the rest is but conceit.—Bacon.

## From Here and There In Bend High School

The Junior library, with Mrs. Sanders in charge, now has 100 books. Much use are being made of these for book reviews. One hundred and thirty books have been read the past three weeks. The best read students are: Walter Freiburg, Thelma Culler, Gerald Johnson, Dale Stafford, John Heyburn, Melvin Scott, Doris Cornellussen, Lucille Shuey. The new books on hand include "The Opening of the West" (Sabin), "The Battle of the Nations" (Kummer), "Odysseus" (Homer); "Heroines of Service" (Parkman); "Heroes of Today" (Parkman); "Boys' Book of Battles" (Fraser); "War Inventions" (Gibson), "Jack" (Fitzpatrick), "A Girl of the Limberlost" (Porter), "Swiss Family Robinson" (Wyss), "The Last of the Mohicans" (Cooper), "The Pathfinder" (Cooper), "The Long Trail" (Garland).

The 8B students are showing pep this week by wearing the class colors, purple and gold. The boys have arm bands and the girls bows, fastened with the Palmer button. Class colors are hanging on the walls of room E.

## NEW PARODY IS GIVEN ROOTERS

The usual pregame rally was held Friday afternoon in the assembly at 1 o'clock. A new song, a parody on "Oh! By Jingo!" was introduced and accepted with great enthusiasm by the students. A list of yells was issued to each student to be learned before the game Saturday and the students were led in the assembly by Stuart Rae and Buell Orrel. The volume of noise was greatly increased by the introduction of 100 megaphones. These were put to good use by the students, who fairly raised the roof. Announcements were made concerning the rally held Friday evening and instructions given out to various classes in regard to the parade.

**The First Lifeboat.**  
The first lifeboat ever made is still in existence in Yorkshire. It was constructed in 1802 to be used "for saving life in storms or other dangers to ships." A poor shipwright invented it, and parliament voted him \$3,000 as a reward.

**Radio Telephoning.**  
The first experiment in long-distance radio telephoning was made in 1914, the attempt resulting after many efforts in successful transmission of speech from Washington to Paris and San Francisco.

The 8A students are conspicuous this week by their class colors, old rose and silver.

Mrs. Sanders (in 8A spelling): "Define the word 'sarcastic'."

Richard C.: "It means—well, sassy-like."

Miss Perrault (in typing I): "Students, don't forget your masks Friday."

In a recent test in Algebra covering fractions, the following pupils had A papers: Amanda Anderson, Billie Foley, Arnold Johnson, Harry Miller, Adah Tucker, Roma Whelan and Thomas Going.

In the physics class the laboratory tests found the humidity of the air to be 10 per cent at 2 p. m. and 40 per cent at 9 a. m. The difference was due to the condensation of the moisture in the air during the night.

Miss H. Manny reports that in her geometry class 50 per cent of the members in geometry A are doing 90 per cent work, while in her geometry B class, only 33-1-3 per cent are making 90 per cent.

## WHO'S WHO IN HI

This year the domestic science and art departments are very capably handled by Miss Emily Miller. She is especially fitted for the work, having specialized in that course at O. A. C. Before coming to Bend Miss Miller taught at Independence and Falls City. At the latter place she remained four years. Miss Miller is registration teacher of the 9B, No. 2 section and she declares they are a lively bunch. She is enthusiastic over her work and has many interesting things in store for the girls of her classes. She announced that her classes, both in cooking and sewing, are working toward an exhibition, to be staged later in the term. "I am highly pleased with the progress my classes are making," state Miss Miller. "I like Bend and Bend high school very, very much," she concluded.

**Handwritten Bibles.**  
We had a complete handwritten Bible as early as the fourteenth century.

When you want that Heavy All Wool SWEATER in School Colors, call at the GOLDEN RULE

## RALLY REVEALS SPIRIT OF HIGH

### PEP DEMONSTRATION BIGGEST EVER

Clever Stunts Put On By Classes In Parade—Players In Speeches At the Bonfire, Predict Victory By Close Margin.

The rally held Friday night is said to be the largest rally held by the high school. The parade was composed of all students of the high school and was more than a block in length.

The rally was led by a senior and a freshman bearing a large banner. They were followed by the senior class. Following the seniors came the juniors, and behind them came the team on a wagon pulled by the boys of the freshman class. After the team came the sophomores and freshmen, followed by a few members of the junior high.

The line of march started from the high school and passed through the main streets. At each corner the different classes were to "pull off some stunt." The seniors were given the Wall and Oregon corner, where they captured Prineville's goat.

The next stop was at the corner of Bond and Oregon, where the junior class performed a marriage ceremony uniting the football team with Victory. From there they marched to the corner of Bond and Minnesota, where the sophomore class crowned the team. From here the students marched to the Liberty theater, where the freshman class prepared to bury Prineville. From here the gathering proceeded directly to the huge bonfire built on a vacant lot on Bond and Louisiana.

Here the freshmen tried to out-yell the rest of the student body, but were not successful. When members of the team were called upon for speeches they predicted a hard, close game, but believed that the victory this time would be with Bend. As one member said, "We must win the game, for it has been Bend's honor never to lose a game on her home grounds for the last five years."

Those in charge of the rally agree that the event will help to bring more students to the game and will help influence their support for the team.

**Baltic Sea Leads in Amber.**  
The principal source of the amber supply is the coast of the Baltic sea, more particularly in the vicinity of Königsberg. Even in ancient times this district constituted the "Kimberley" of the amber world. At this place amber, which is really a mineralized resin of extinct pine trees, is freely washed up by the sea, especially after a violent storm. The fishermen use nets, with which they trawl the shallow waters.

## AS THE EDITORS SEE IT

Bend high school students proclaim S. W. Moore to be one superintendent in a thousand, and we believe this is not an exaggerated statement. Superintendent Moore has shown a lively interest in school activities since he has been with us and has backed the school in all progressive movements and encouraged all school activities to his utmost ability. But this year he has gone still farther. Seeing the need of a coach for the second team, he volunteered his services, and has turned out regularly to spur the second team on to greater efforts. Upon Coach Moore's resignation he accepted the position of temporary coach for the first team and completed the work of getting the first team in shape for Prineville today.

Superintendent Moore played on a team in the East where he attended college and makes a highly competent coach. When the team was confronted with the fact that a new coach would have to be obtained, Superintendent Moore was the unanimous choice, but, on account of his other duties, he refused to accept the position as permanent coach. However, his valuable services are greatly appreciated by the team and the school.

The loss of Merle Moore as athletic coach for the football team is a fact to be taken seriously by the members of the team and of the student body. Mr. Moore has spent valuable time in performing his duties as coach. There is no doubt that the team appreciates his work. The position of coach for a football team is no easy position. Upon the coach falls the job of working out the signals, placing the men and seeing that they get the best kind of practice that is possible.

That Mr. Moore has given the team the best of his ability no one that knows him can doubt. The difficulty in coaching the team was in many ways intensified by the lack of interest shown by members of the second team, but it is to their credit and Coach Moore's that the first team has been having real practice for the last few weeks.
