

**TRAMBITAS WINNER
IN 10 ROUND BOUT**

Zimmerman Defeats Carl Martin
And Ryan And Taylor Draw
At Milwaukee Smoker.

PORTLAND, Jan. 22. — Foreing the fighting most of the time, Alex Trambitas won the call at the end of 10 rounds of hard scrapping with Eagan at the Milwaukee smoker last night. The bout was featured by infighting. Harper went eight rounds with Sinclair to a draw. Morroe took a decision from Gordon after a thrilling fight. Zimmerman smashed his way to a decision over Carl Martin, and Ryan and Allie Taylor fought a four-round draw.

**SAYS METRIC SYSTEM
CHANGE EASILY MADE**

One of the chief arguments against making the metric system official in the United States, namely, that the change would be so inclusive as to be virtually impossible, is not based on fact, declared Deputy Sheriff August Anderson today, commenting on the bill now in congress aiming at the change in the American plan of measurements. Mr. Anderson bases his opinion on his observations in Sweden when the metric system was introduced.

Ten years was allowed for the change, which was facilitated by the schools, where only the metric system was taught. Metric units were used in making all sales, except to older persons, and the change to the easier, simpler system came gradually and with no confusion, he said.

**COUNCIL AGAIN
DEFERS ACTION
ON GIRLS' WORK**

(Continued from Page 1.)

meeting," the mayor decided, when more discussion seemed probable. He suspended his ruling, however, to allow Councilman Gilbert to suggest that the head of the protective division should be a trained nurse.

Would Work Prisoners.

Two more appointments were made by the mayor, Tom Carlon being named as fire chief and R. B. Gould as city engineer. Both appointments were ratified by the council. The position of chief of police still remains vacant.

Prisoners in the city jail will work out their fines at the rate of \$2 a day when an ordinance, introduced last night with an emergency clause attached, is passed. It was apparently the intention of the council to pass the measure at once, but no final vote was taken. The ordinance, providing \$2.50 as the rate for prisoners' work, was read for the first time, when Councilman Allen moved that charter provisions be suspended, the ordinance read for the second time by title only and placed on its final passage. No vote was taken on this motion until an amendment had been introduced by Councilman Gilbert to make \$2 the rate. By the time debate on this point was over, the council had apparently forgotten that Councilman Allen's motion was only a preliminary to a final motion for adoption. By unanimous vote, the amended ordinance was ordered placed on its final passage, the idea apparently prevailing that this motion enacted the law.

A somewhat similar fate overtook

Airmen Back From Frozen North

Precedents and red tape will likely be set aside by the Navy Department this week in reimbursements to the three navy balloonists who have just returned from the frozen north of the Hudson Bay district after having established a new navy balloon record of 820 miles facing starvation and freezing for four days in the woods northeast of Moose Factory, the farthest northern point of the Hudson Bay Trading Co., the balloonists finally encountered an Indian trapper

who brought them into Moose Factory. This picture, the first received in the U. S., was taken at Moose Factory by a clerk when the fatigued balloonists were brought in. They are J. L. Gaudet, manager of the Hudson Bay Co., Lieutenant L. A. Kloor, commander, Lieutenant Walter Hinton and Lieutenant Stephen A. Farrell. The inserts show Moose Factory and distance of flight. The balloonists sailed from New York Dec. 13. Two hundred miles of the return trip was by dog sleds.

another measure, a pound ordinance, providing, among other things, for the creation of the office of a deputy pound master. After the first reading, Councilman Innes moved that the ordinance be placed on its final passage, but the question was put as being on the ordinance itself, the council having failed to vote on the preliminary motion. Mayor Gilson, however, declared the ordinance adopted and appointed T. M. Crawford to the office which the ordinance proposed to create.

Another ordinance fixing the salaries of certain city officers, was read for the first time. The chief change which it will make is in the compensation given the recorder—\$1500 a year, instead of the \$900 now allowed.

To Cut Jitney Licenses.

J. Edgar Bloom appeared for the Commercial club to inquire as to the council's attitude toward the establishment of an auto camp ground. The matter was referred to the public property committee.

The question of legal advertising was introduced, Councilman Leverett declaring his belief that all the Bend publications should be given a chance to handle this work for the city. Discretionary power was vested in the recorder.

District Game Warden Earl B. Houston asked the city's cooperation in the establishment of an animal park at the fish hatchery, and the question was referred to the park commission.

The council accepted for the city the gift of Shevlin Memorial park, made by The Shevlin-Hixon Company.

A petition asking the repeal of the present jitney and truck licensing ordinances was read and the council voted authorizing a cut to \$15 a year. A petition asking a light at the in-

tersection of Utica and Awbrey road was granted.

An inventory of police property, submitted by Councilman Fox, was placed on file.

We can't keep enough of our little home safes on hand to keep up our display in the window at the corner of Wall and Oregon Streets. Better get yours before they are all gone. The First National Bank.

CLASSIFIED ADVERTISEMENTS

FOR SALE

purse on Wall street between the Parisian and the Hippodrome; contained about \$4 in silver, and post-office key. Return to 138 St. Helens, or phone Red 521 and receive reward. 75-40p

**Batteries Have
Reduced In Price!**

You can buy a new Battery today for practically the same money you paid out for the repairing of your old one some time ago.

If you are in need of a new Battery, I can offer you the largest variety from which to choose and the smallest price on any one of the makes of batteries.

Here is the line-up of Agencies:

- EXIDE
- WILLARD
- U. S. L.
- PREST-O-LITE
- COLUMBIA
- EVEREADY

It is not necessary to go into detail in the explanation of the quality and workmanship of these Batteries, as you are no doubt familiar with each make. The more important thing to you is the fact that I have them here for your inspection, that the prices are right, and each Battery is fully guaranteed.

BATTERIES RECHARGED FOR \$1.50

We replace your sick Battery with one of our fully charged rentals—and let you keep it two days FREE OF CHARGE. All you pay for is the work we do on your own Battery.

**More About The Federal
Reserve System**

Before the Federal Reserve System we had eight thousand little heaps of money scattered over the country in banks under the name of cash reserves. Now we have twelve huge reservoirs called the Federal Reserve Banks, located at advantageous points and if there is an unusual drain upon one of these reservoirs there is a pipe line arrangement in the power of the Central Reserve Board that equalizes the strain and restores the level as before. In this manner several Federal Reserve Banks can render assistance to any other Federal Reserve Bank and they, in turn, to the small country banks.

This Bank is a Member of the Federal Reserve System
