RESCUE WORK ESTABLISHED BY COUNCIL

WISHES OF PEOPLE DEFERRED TO

DR. FINLEY NAMED

Economy Program Halves Bills of January, 1920—Ordinance For More Paving Tabled—Salary Raise Denied Treasurer.

Ending the fight which has been waged by the citizens of Bend almost since the beginning of the new administration, the city council, in regular session last night, yielded to the wishes expressed in petitions tabled at the previous meeting and unanimously passed, under an emergency clause, the ordinance for the establishment of a woman's protective division as an adjunct of city government.

That the passage of the ordinance was a direct concession to the wishes of the people of Bend was indicated by Mayor Gilson in remarks directed to the council and to members of the Woman's Civic league in attendance at the meeting.

Wish of People Recognized.

Speaking directly to Mrs. Carrie D. Manny, president of the league, the mayor stated that, while the council had its own ideas, its members recognized that they were servants of the people.

The protective division ordinance passed on the recommendation of Chairman N. H. Gilbert of the police committee is in no essential different from that which was tabled two weeks ago by the council.

Economy Is Seen.

That the policy of economy announced by the new council is already in effect was shown when bills for the month of January were read. The total was \$2296.81, as against \$5207.40 for the corresponding month in 1920.

Many matters of relatively minor importance were handled by the council, including the passing of the Juney license ordinance, the city officials' salary ordinance, and the ordinance providing for working out fines by city prisoners.

Booze Behind All Arrests.

A petition signed by T. W. Todd asking the discharge of a sidewalk lien on his property in Lytle Acres was referred to the streets committee.

Under reports of officers, Night Officer Fox reported eight arrests, all involving liquor law violation. Sixty-five cases of measles and one of chicken pox had been quarantined in January, the report of Dr. C. A. Fowler, city physician, showed.

The streets committee reported favorably on a sewer improvement proposed to connect the depot with the

CAR SHORTAGE IS PREDICTED

CLOSING OF FACTORY WILL BE REFLECTED IN DIFFICULTY IN FILLING SPRING ORDERS, SAYS E. P. JECH.

All indications point to a country-wide shortage of cars for spring delivery, according to E. P. Jech of the Cent-Ore Motor Co., who returned recently from a visit at the Ford plants at Portland and Seattle.

Ford dealers throughout the country, states Mr. Jech, have been selling out their stocks of cars for the past three months without replacing them with others and, as a result, a great many will be unable to make delivery of cars when ordered.

Mr. Jech stated that, at the time of his visit to the Portland agency, there were 150 cars on the floor and they were being sold rapidly.

The agency here has delivered 12 cars during the past 60 days and present indications, according to Mr. Jech, are favorable for a greatly increased business during the coming months.

PLOT TO DESTROY UNIONISM CHARGED

Delegates From All Branches of Organized Labor To Hold Meeting In Chicago Sunday.

CHICAGO, Feb. 5.—Delegates from every trade union in Chicago are to hold a mass meeting here tomorrow to discuss means of combating what they term "the throwing out of employment of thousands of men by employers who wish to smash trade unionism."

Labor in the middle west charges that the legions of unemployed throughout the country are victims of manufacturers who lay off their men that they may crush the unions and force men to take less pay.

"This is a crisis in the labor movement," Robert M. Buck, one of the leaders of the liberal union officials in the middle west said today.

The meeting tomorrow is to be a clearing house for ideas on how to successfully combat the alleged conspiracy of employers to break up unions.

It is expected that a meeting of labor representatives from all over the middle west will result from the meeting.

INTEREST GROWING IN AQUATIC SPORT

Swimming Class Increases In Size—Careful Heating of The Plunge Room Prevents Sickness.

Increasing interest is being shown in the swimming class organized last year at the gymnasium and continuing throughout the winter months.

Contrary to the former belief of the parents of the boys, E. H. Brandenburg, physical director at the EYM, states that he has not had one case of illness brought to his attention among all the boys who have been in regular attendance which could be traced to colds or any sickness contracted as a result of using the plunge during the winter months.

This is due, he says, to the temperature of the water being kept at 79 degrees, while the air is at 85. The youngsters remain in the building a sufficient length of time to cool off after a plunge before going into the cooler air outside.

ALLEN QUILTS, RESIGNATION NOT DESIRED

RECONSIDERATION IS URGED

ACTION REGRETTED

Unable To Agree With Other Members of Council, Letter States—Private Meetings Charged—Withdrawal Not In Anger

Unable to agree with the attitude or policy adopted by the Bend administration, H. E. Allen, councilman, tendered his signed resignation last night. The resignation was received with surprise by the council, but was not accepted.

In the letter in which the resignation, to take effect at once, was announced, read by Recorder Ross Farnham after Mr. Allen had left the council chambers, Mr. Allen said:

"It has been impressed upon me since taking office that I cannot agree with the attitude or policy adopted by the administration and that my efforts and time will not result in any noticeable benefit to the city or to its welfare.

Charges Private Sessions.

"It has come to my attention from reliable sources that practically all, if not all, of the other councilmen have for the past few weeks met at the mayor's office and elsewhere on numerous occasions and discussed and decided upon matters pertaining to the city government and, with a prearranged plan or program, have then met at the regular sessions of the council, presumably with open minds, to consider the matters presented.

"I have not been a party to any of these private conferences and have had no notice or advice of same, therefore I have no knowledge or information of the matters being considered by the administration other than that developing at the open meetings of the council. I feel that my time can be spent to better advantage both for the community and for myself than watching the council put on the records the prearranged program."

Councilmen Surprised.

Commenting on Mr. Allen's action, Mayor Gilson declared that it was the first time that he had heard that the council had been charged with having a program. He denied any prearranged meetings, expressed his regret at the councilman's resignation, and said that he would be glad to see Mr. Allen and offer to apologize to him for the council.

"I am greatly surprised," Lon L. Fox said, "I hate to see him leave the council." Mr. Fox agreed with the mayor that there had been no prearranged meetings.

"I believe Mr. Allen was always consulted," Councilman Gilbert declared. "He had already made up his mind on the big question which has been before us for the last month and the rest of us had not. He should be asked to reconsider."

Ability Recognized.

J. S. Innes regretted deeply Mr. Allen's action. "With his experience, I consider him the best qualified man on the council." In regard to the conferences held by members of the council, Mr. Innes explained that these were not secret, and that Mr. Allen's stand on the woman's protective division was definitely known.

"There has been a misunderstanding," G. H. Baker, president of the council, said. "I'm afraid that Mr.
